Teachers Feedback 2020-21

As part of the institution's quality monitoring and quality assurance procedures, the IQAC team has gathered input on the curriculum from every pertinent stakeholder. Feedback was gathered at various points in time from various stakeholders, usually during the convocation session, after the final exam, or during the exam itself.

Teacher's feedback is collected immediate after completion of academic year for the purpose of new academic preparation and improvement in the curriculum.

Here the feedback given by teachers on curriculum activities in the college campus was presented. The data collected by using questionnaire which contains 10 components of curriculum aspects. So collected data were analyzed by using the SPSS software and the result was reviewed by the IQAC team. Remarks, action taken report, and recommendations are prepared and forwarded to the management which is in turn forwarded to relevant stakeholders.

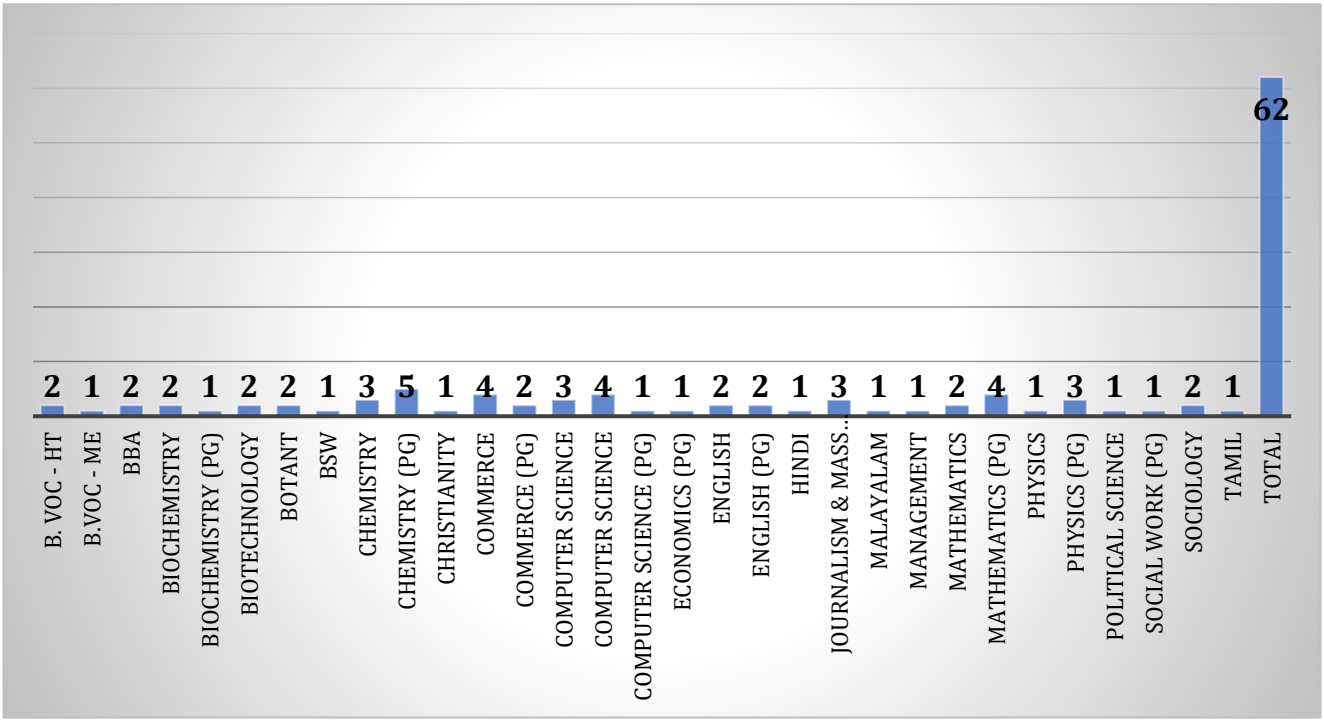

The average score for each question as well as the overall responses have been examined by the IQAC team. This was accomplished by collecting answers to each question on a scale of 0 to 1, where 0 denoted "NO" and 1 denoted "YES." Analysis was conducted using the test mean value, which was set at 0.60 (statistically 0.50) as the average test score. The SPSS software was used to determine the mean value of each component, and the test mean value served as the foundation for the analysis.
