ST. PHILOMENA'S COLLEGE
(Autonomous), Mysore -15

A Comprehensive Report on the 6 - Day Faculty Development Programme

organised by the IQAC for the faculty members of UG & PG programmes

06 to 11 January 2025

"Empowering Educators: Advanced Research Methodologies and Strategies for High-Impact Publications"

Prepared by

Dr. Deepa V
IQAC Co-Coordinator

Mr. A. Thomas Gunaseelan
IQAC Coordinator

ST. PHILOMENA'S COLLEGE
(Autonomous), Mysore -15

6 - Day Faculty Development Programme on

"Empowering Educators: Advanced Research Methodologies and Strategies for High-Impact Publications"

by the IQAC for the faculty members of UG & PG programmes

06th to 11th January 2025
College UG Auditorium

INSTITUTION'S INNOVATION COUNCIL
(Ministry of Education Initiative)

Inauguration: 06th Jan' 2025 at 02:00 pm

President
Rev. Dr. Lourdu Prasad Joseph
Rector

Presence
Rev. Fr. Gnana Pragasam
Administrator

Rev. Fr. David Sagayaraj S.
Assistant to Rector

Dr. Ravi J.D. Saldanha
Principal

Dr. Deepa V.
Co-Coordinator - IQAC

Mr. A. Thomas Gunaseelan
Coordinator - IQAC

Preamble: In today's dynamic academic landscape, higher education educators are not just instructors but torchbearers of innovation and scholarly excellence. As the demand for impactful research and high-quality publications continues to grow, educators need to embrace advanced methodologies and innovative strategies to stay ahead in their fields. The Faculty Development Programme on "Empowering Educators: Advanced Research Methodologies and Strategies for High-Impact Publications" is a specially designed initiative aimed at equipping higher education teachers with the knowledge and skills required to excel in research and academic publishing. This programme will provide insights into cutting-edge research methodologies, practical tools for data analysis, and strategies for crafting compelling manuscripts for top-tier journals.

Target Group: All the in-house teaching faculty and research scholars of the Undergraduate and Postgraduate programmes of St. Philomena's College (Autonomous), Mysore.

Salient features of the FDP

Day 1: Research Foundations and Literature Review

- Introduction to Research Paradigms
- Identifying Gaps and Framing Research Questions
- Tools for Literature Review (Zotero, Mendeley, etc.)

Day 2: "Harnessing AI for Advancing Research Practices"

- Accelerating Literature Review & Managing Research Data
- AI in addressing plagiarism & AI enhanced Analysis and Visualization
- References and Citations - Management

Day 3: "Future Research Directions and Collaboration"

- Exploring Interdisciplinary and Collaborative Research Opportunities
- Emerging Trends in Academic Research
- Best Practices for Sustaining Research Productivity

Day 4: "Structuring and Writing a Research Paper"

- Understanding the Anatomy of a Research Paper
- Writing Effective Abstracts, Introductions, and Discussions
- Managing References and Avoiding Plagiarism

Day 5: "Publication Ethics & New Scholarly Publishing Models"

- How to Choose the Right Journal (Scopus, Web of Science, UGC CARE)
- Navigating the Peer Review Process
- Strategies for Enhancing Acceptance Rates

Day 6: "Data Collection and Analysis"

- Selecting and Using Statistical Tools (SPSS, R, etc.)
- Qualitative Data Analysis Techniques (Thematic Analysis, NVivo)
- Data Visualization for Research Presentation

Programme

Day 1: 06th January 2025 (01:30 pm to 04:30 pm)

Inauguration

Rev. Dr. Lourdu Prasad Joseph,
Rector

Session 1: "Research Foundations and Literature Review"

Prof. Dr. Krishnaveni,
Professor, Department of Studies in Physics,
University of Mysore

Day 2: 07th January 2025 (02:00 pm to 04:30 pm)

Session 2: "Harnessing AI for Advancing Research Practices"

Dr. Mohammed Minhaj,
Dean – Academics, SDMIMD, Mysore

Day 3: 08th January 2025 (02:00 pm to 04:30 pm)

Session 3: "Future Research Directions and Collaboration"

Dr. T. S. Harsha,
Chairman, Department of Environmental Science,
Director (R&D) & Special Officer - Ph.D. Cell, KSOU, Mysore

Day 4: 09th January 2025 (02:00 pm to 04:30 pm)

Session 4: "Research Methodology and Design"

Prof. Dr. G.S. Premakumara,
Professor, DOS in Economics, Sir MV PG Centre,
UOM, Tubinakere, Mandya

Day 5: 10th January 2025 (02:00 pm to 04:30 pm)

Session 5: "Publication Ethics & New Scholarly Publishing Models"

Dr. Vasantha Raju N.,
Principal (Incharge) & Librarian, GFGC, Talakadu, Mysore

Day 6: 11th January 2025 (10:00am - 01:30 pm)

Session 6: "Data Collection and Analysis"

Prof. Dr. Lancy D' Souza,
Professor & Head, Department of Psychology,
Maharaja's College, Mysore

Advisory Committee

Rev. Dr. Lourdu Prasad Joseph - Rector
Rev. Fr. Gnana Pragasam - Administrator
Rev. Fr. David Sagayaraj S. - Assistant to Rector
Dr. Ravi JD Saldanha - Principal
Mr. M. Nagaraj Urs - Vice Principal (Academic)
Mr. Ronald Prakash Cutinha - Vice Principal (Administration)
Mr. A. Thomas Gunaseelan - IQAC Coordinator
Dr. Reena Francis - Controller of Examinations
Dr. Noor Mubasheer C.A. - PG Coordinator
Dr. Alphonsus D'Souza - UUCMS Coordinator
Dr. Sunil D' Souza - ICT Coordinator
Ms. Agnes Sylvia D'Souza - Dean of Sciences
Mr. Sadebose A.T. - Dean of Languages
Dr. Praveen Saldanha - Dean of Arts

Organizing Committee

Dr. Deepa V. - IQAC Co-Coordinator & Asst. Professor of BBA
Dr. Prashanth D.A. - Assistant Professor of History
Ms. Neena P.K. - Academic section Co-Coordinator
Dr. Sandesh D' Souza - Assistant Professor of Commerce
Dr. Asha M.S. - Head, PG Department of Chemistry
Mr. William Joseph - Head, Department of English
Ms. Shruthi Menezes - Head, Department of Mathematics
Ms. Arshiya Khanum - Assistant Professor of BBA
Mr. Babu P. - Head, Department of Malayalam
Dr. Bharatha K. - Head, PG Department of Mathematics
Dr. Felan Amal - Head, PG Department of Physics
Dr. Shivakumar A. - Associate Professor of PG Chemistry
Dr. Zabiulla - Assistant Professor of PG Chemistry
Ms. Mirium Precilla, IQAC Office

Professor and Chairperson,
DOS in Physics,
University of Mysore

06 January 2025

Day 1
"Research Foundations and Literature Review"

INSTITUTION'S INNOVATION COUNCIL

ADDRESS

Dr. (Mrs.) S. KRISHNAVENI
M.Sc., Ph.D.
Associate Professor in Physics
Department of Studies in Physics
University of Mysore, Manasagangotri
Mysuru-570006, Karnataka, India
Phone: 9844023568/0821 – 2419601
E-mail: sk@physics.uni-mysore.ac.in.

EDUCATION

1. Ph.D., (Physics), 2003, University of Mysore; *'Studies on incoherent scattering cross sections of gamma rays by elements'*.
   Research guide: Prof. Ramakrishna Gowda, Ph.D.
2. M.Sc., (Physics), 1997, University of Mysore, Mysore, Major Field - Nuclear Physics, (81.3%)
   First class, 1st Rank. Winner of Four Gold Medals in M.Sc (Physics).
   Passed State Level Eligibility Test (SLET) conducted by Government of Karnataka during 1997
3. B.Sc., (Physics, Mathematics, Chemistry), 1995, University of Mysore; *First class.*

RESEARCH INTERESTS

- Studies on radiation induced defects in semiconductor devices.
- Reliability studies on electronic devices and circuitry.
- Studies on the incoherent scattering of gamma rays to determine the differential scattering cross sections.
- Studies on the K-shell and L-shell x-ray fluorescence cross sections.
- Studies on the effective numbers and electron densities of some chemical compounds.
- Understanding biomolecular mechanisms using Molecular Dynamics simulation techniques.

PROFESSIONAL EXPERIENCE:

Research:	Since 1997
Teaching:	Since 2003, Teaching Post-Graduate students leading to M.Sc. Degree in Physics.
Subjects taught:	Nuclear Physics, Classical Mechanics, Mathematical methods of Physics, General Theory of relativity, Electromagnetism, Quantum Mechanics and Accelerator physics.

TEACHING COURSES:

2 Year M.Sc.: Mathematical methods, Classical Mechanics, Quantum mechanics, Nuclear Physics, Accelerator Physics.

5 Year Integrated M.Sc.: Electrodynamics, Quantum mechanics, Nuclear Physics, Mathematical methods.

Details of Appointments held:

1. 1999-2001: Junior Research Fellowship- University postgraduate junior research fellowship, Department of Studies in Physics, University of Mysore, Mysore.
2. 2001-2002: Senior Research Fellowship- University postgraduate Senior research fellowship, Department of Studies in Physics, University of Mysore, Mysore.
3. 2002-2005: Senior Research Fellowship-CSIR-SRF, Department of Studies in Physics, University of Mysore, Mysore.
4. 2005-2006: Research Associate-CSIR-RA, Department of Studies in Physics, University of Mysore, Mysore.
5. 2006-2007: Lecturer at the Maharani's Science college for women, Mysore.
6. 2007 till date: Lecturer at Department of Studies in Physics, University of Mysore, Mysore.

TEACHING EXPERIENCE:

2001-2006, *Taught M.Sc. students,* Dos in Physics, University of Mysore, Mysore.

July 2006 – July 2007, Lecturer *in Physics,* Maharani's science college for women, Govt. of Karnataka, Mysore.

July 2007 –till date, Assistant Professor *in Physics,* University of Mysore, Mysore.

AWARDS AND FELLOWSHIPS:

- Passed State Level Eligibility Test (SLET) conducted by Government of Karnataka during 1997.
- Four Gold medals for securing FIRST rank in M.Sc. With 81.3% during 1997-1998, from the University of Mysore.
- University Junior Research Fellowship awarded from University of Mysore, Mysore (1999-2001)
- University Senior Research Fellowship awarded from University of Mysore, Mysore (2001-2002)

- Senior research fellowship awarded from Council of Scientific and Industrial Research, New Delhi (2002-2005)
- Research Associate awarded from Council of Scientific and Industrial Research, New Delhi (2002-2005).

- Best paper presentation award for our paper entitled Measurement of K_α and K_β XRF cross sections for the elements Ag, Cd, In, Sn, and Teexcited by 122 keV photons by T.Yashoda and S.Krishnaveni, presented in the 2nd National Women's Science Congress, held at All India Speech and Hearing Institution (AIISH), Mysore, during 7-9, Nov. 2009.

- Best Poster Award for the paper "30 and 60 MeV Boron Ion Irradiation Effects on Electrical Characteristics of Bipolar Transistor" , K. S. Krishna Kumar, C.M. Dinesh, Ramani, S.A. Khan, M.Vinay Kumar, S. Krishnaveni, B. Jayashree, Ist International conference on Physics of Materials and Material Based Device Fabrication, 17th -19th January 2012, Shivaji University, Kolhapur, India.

- Secured Best Oral Presentation (III Place) Award for the paper "MODIFICATION IN ELECTRICAL PROPERTIES OF SILICON PHOTO-DETECTOR DUE TO 100MeV Si $^{7+}$ ION IRRADIATION" at National conference on Solar Energy and its Application (NCSEA2013) on 9th April 2013 at Maharani's science college for women, Bangalore-560001.

- Attended International training program on leadership and career development for women scientists and technologists by DST from 26th August to and 4th September 2015 at IISER, Pune.

Foreign Exposure:

Attended "Career Development Workshop for Women in Physics" held at The Abdus Salam International Center for Theoretical Physics, Trieste, Italy, during 12-16 October 2015".

Invited talk:
International Conference on Advances in Science and Engineering, Bangkok, Thailand, 19-22, Jan 2017

Research projects completed:

Sl. No	Title	Agency	Period	Grants/Amount (Rs. In Lakhs)
1.	Studies on the incoherent scattering cross sections for high Z-elements at lower momentum transfers	University of Mysore, Mysore	2 yrs	1
2.	Studies on the irradiation effects on the semiconductor devices	UGC	3 yrs	3.25
3.	Irradiation effects on advanced optoelectronic devices	IUAC	3 yrs	5
4.	Research and Development of RPC detectors for INO project	DST	3 yrs	8.77
5.	R & D Efforts by University Groups for INO project	DST	3 yrs	59.81
6.	Studies on GTPases using Molecular Dynamics simulations. Funding Agency: University of Mysore. Amount: 75 Thousand.	University of Mysore, Mysore	6 months	1
7.	Studies on ion beam induced defects in GaN Schottky Interfaces (LEIBF)	IUAC, New Delhi	3 yrs	1
8.	Studies on ion beam induced defects in GaN Schottky Interfaces (HE)	IUAC, New Delhi	3 yrs	1
9.	Molecular Dynamics-PR	NPSF-CDAC	1yr	Computing time

PROFESSIONAL AFFILIATIONS:

1. Life member - Indian Society for Radiation Physics (NSRP), Mumbai.
2. Life member – SwadeshiVijnanaAndholana Karnataka (SVAK), Bangalore.
3. Member: Member-India based Neutrino Observatory (INO) group, Mumbai.
4. Life Member- Indian Science congress, Kolkata.

PUBLICATIONS

33 publications in reputed National and International Journals like Nano Energy, Scientific Reports, Nanomaterials, Nuclear Science and Engineering (USA), Nuclear Instruments and Methods (Netherlands), Radiation Physics and Chemistry, Pramana Journal of Physics etc.38 papers presented in national and international symposia.

Peer reviewed International/National Journals	= 33
International/National Conferences proceedings	= 38
Book Chapter	= 01
Total Number of publications	= 72

List of publications:

Papers published in the national and international reviewed journals:

1. Anup Pandith , Upendra N , Ravi Kumara Guralamatta Siddappa , Sungjin Lee, Chin–Ju Park, **Krishnaveni S,** Young Jun Seo Loop-mediated fluorescent probes for selective discrimination of parallel and antiparallel G-Quadruplexes. Bioorganic & Medicinal Chemistry, **35**, 116077 **2021.** IF:3.073

Papers presented in National and International Symposia:

1. Study of photon interaction around the K-edge of some elements. G. SriPrakash, N.Ramesh Reddy, **Krishnaveni S.**, Ramakrishna Gowda and T.K. Umesh presented in the 8th International symposium on Radiation Physics held at Prauge, during 5-9th June **2000.**

2. Attenuation coefficients for photon energy absorption of some thermoluminiscentdosimetric compounds, ShivalingeGowda, **Krishnaveni S.**, T. Yashoda, T.K. Umesh and Ramakrishna Gowda, presented in the 14th National symposium on Radiation Physics, held at Guru Nanak University, Amritsar during 1**-3, Nov. 2001, P-51, 282.**

3. Incoherent scattering functions of iron and copper at 661.6 keV incident photon energy, **Krishnaveni S.**, ShivalingeGowda, T.Yashoda, T.K. Umesh and Ramakrishna Gowda, presented in the 15th National symposium on Radiation Physics, held at BARC, Mumbai during **12-14, Nov. 2003, P-77, 319.**

4. K x-ray production cross sections and fluorescence yields in some low Z elements excited by 14.4 keV photons, T.Yashoda, **Krishnaveni S.**, ShivalingeGowda,T.K. Umesh and Ramakrishna Gowda, presented in the 15th National symposium on Radiation Physics, held at BARC, Mumbai during **12-14, Nov. 2003, P-78, 323.**

5. Effective atomic numbers and electron densities of some halides, ShivalingeGowda, **Krishnaveni S.**, T. Yashoda and Ramakrishna Gowda, presented in the 15th National symposium on Radiation Physics, held at BARC, Mumbai **during 12-14, Nov. 2003, P-45, 203.**

6. Measurement of K-shell production cross sections for the elements excited by 122 keV photons. T. Yashoda, **Krishnaveni S.**, ShivalingeGowda,T.K. Umesh and Ramakrishna Gowda, presented in the 16th National symposium on Radiation Physics, held at MeenakshiCollege for women, Chennai, during **18-20, Jan. 2006, CP-93, 312**.

7. Studies on effective atomic numbers and electron densities of some halides, ShivalingeGowda, **Krishnaveni S.**, T. Yashoda and Ramakrishna Gowda, presented in the 16th National symposium on Radiation Physics, held at Meenakshi College for women, Chennai, during 18-20, **Jan. 2006, CP-70, 284**.

8. Measurement of K_α and K_β XRF cross sections for the elements Ag, Cd, In, Sn, and Teexcited by 122 keV photons.T.Yashoda and **Krishnaveni S.**, presented in the 2nd National Women's Science Congress, held at All India Speech and Hearing Institution (AIISH), Mysore, **during 7-9, Nov. 2009**.

9. Differential incoherent scattering cross sections for barium in the angular range 10 to 120^0. **Krishnaveni S.**, T.Yashoda, ShivalingeGowda and Ramakrishna Gowda, presented in the 18th National symposium on Radiation Physics, to be held at Department of Physics, University College of Science, M.L. Sukhadia University, Udaipur 313001 (Rajasthan) India, during **November 19-21, 2009, Proceedings of the NSRP-18, p299-301.**

10. Measurement of K_α and K_β XRF cross sections for the elements Sr, Y, Zr, Moexcited by 122 keV photons.T.Yashoda, **KrishnaveniS.**, ShivalingeGowda and Ramakrishna Gowda, presented in the 18th National symposium on Radiation Physics, to be held at Department of Physics, University College of Science, M.L. Sukhadia University, Udaipur 313001 (Rajasthan) India, during **November 19-21, 2009, Proceedings of the NSRP-18, p273-274.**

11. The studies on effective atomic number and electron densities of some chemical compounds, ShivalingeGowda, T.Yashoda, **KrishnaveniS.**, and Ramakrishna Gowda, presented in the 18th National symposium on Radiation Physics, to be held at Department of Physics, University College of Science, M.L. Sukhadia University, Udaipur 313001 (Rajasthan) India, during **November 19-21, 2009, Proceedings of the NSRP-18, p302-304**.

12. Measurement of K_α and K_β XRF cross sections for the elements Ag, Cd, In, Sn, and Teexcited by 122 keV photons by T.Yashoda and **Krishnaveni S.,**

presented in the 2nd National Women's Science Congress, held at All India Speech and Hearing Institution (AIISH), Mysore, during **7-9, Nov. 2009.**

13. 60 and 100 MeV Oxygen Ion Irradiation Effects on Electrical Characteristics of Bipolar Transistor,K. S. Krishakumar, C.M. Dinesh, Ramani, M. Vinay Kumar, **Krishnaveni S.**, M. C. Radhakrishna, B. JayashreeInternational Workshop on the Physics of Semiconductor Devices, **Dec.19-22,2011**. IIT Kanpur, Kanpur India.

14. Effect of 100MeV oxygen ion irradiation on silicon NPN power transistor,M. VinayKumar, K.S.Krishnakumar, C.M.Dinesh, **Krishnaveni S.** Ramani,56th DAE SSPS, **19–23 December 2011**, SRM University, Kattankulathur, Tamilnadu, India.

15. Best Poster Award for the paper "30 and 60 MeV Boron Ion Irradiation Effects on Electrical Characteristics of Bipolar Transistor" , K. S. Krishna Kumar, C.M. Dinesh, Ramani, S.A. Khan, M.Vinay Kumar, **Krishnaveni S.**, B. Jayashree, Ist International conference on Physics of Materials and Material Based Device Fabrication, **17th -19th January** 2012, Shivaji University, Kolhapur, India.

16. "Effect of 60 MeV Boron Ion Irradiation on Silicon NPN Power Transistor", M. Vinay Kumar, K. S. Krishnakumar, C.M. Dinesh, B. Jayashree, Ramani, **Krishnaveni S.**, Ist International conference on Physics of Materials and Material Based Device Fabrication, **17th -19th January 2012**, Shivaji University, Kolhapur, India.

17. Modification in electctrical properties of silicon photo detector due to 100 MeV Si^{7+}ion irradiation. M. Vinay Kumar, K. S. Krishnakumar, C.M. Dinesh, B. Jayashree, Ramani**, Krishnaveni S.**, National conference on Solar Energy and its Application (NCSEA2013) on **9th April 2013** at Maharani's science college for women, Bangalore.

18. "Deterioration of Electrical Properties of Si Photo detector under 150MeV Ag^{9+} Ion irradiation: An in-situ study"Vinay Kumar M, ShammiVerma, **Krishnaveni S**, Jayashree B, Ramani and Kanjilal D, presented at SHIMEC 2014, IUAC New Delhi during **October 14th to October 17th 2014**.

19. "A Comparative study of 30MeV Boron4+ and 60MeV Oxygen8+ ion irradiated Si NPN BJTs" Vinay Kumar M , Yashoda T, Dinesh M C,

Krishnakumar S K, Jayashree B, Ramani, and **Krishnaveni S**.presented at 59th DAE-SSPS at Vellore Institute of technology, Tamil Nadu, during **16-20, December 2014.**

20. "SHI Induced Damage in Electrical Properties of Silicon NPN BJTs" VINAY M KUMAR, SANTHOSH KUMAR, YASHODA T, **Krishnaveni S**., presented at 60th DAE-SSPS at Amity University, Noida, UP, India, during **21-25, December 2015.**

21. Effect of Gamma irradiation on Electrical Properties of CdTe/CdS Solar Cells Santosh Kumar, Vinay Kumar M., ManjunathaPattabi, Asokan K., Xavier, Nini, Martin and **Krishnaveni S.** *International Conference on Advances in Science and Engineering*, Bangkok, Thailand, **19-22, Jan 2017**.

22. Gamma irradiation on Electrical Properties of CdTe/CdS Solar Cells, Santosh Kumar, Vinay Kumar M., ManjunathaPattabi, Asokan K., Xavier, Nini, Martin and **Krishnaveni S.** International Symposium on Advanced Materials for Engineering Applications (ISAMEA-2017) **March 24-25, 2017** at National institute of Engineering, Mysuru.

23. Effect of high dose Gamma irradiation on Electrical Properties of CdTe/CdS S olar Cells, Santosh Kumar, Vinay Kumar M., ManjunathaPattabi, Asokan K., Xavier, Nini, Martin and **Krishnaveni S**. National symposium on Nano science and Technology, IISC, Bengaluru from **July 2-4, 2017**.

24. "Effect of high dose Gamma irradiation on Electrical Properties of GaAs infrared emitting diode (IRED)". Santosh Kumar, M Vinay Kumar, Asokan K, & **Krishnaveni S**. National Conference on Science and Technology-Reaching the Unreached-Recent advances in Physical, Chemical, Mathematical and Biological Sciences for Energy, Health and Environment, **8th– 9thSeptember, 2017**, Mangalore University, Mangalagangotri-574199 Mangalore, Karnataka.

25. "Effect of High Dose Gamma Irradiation on Electrical Properties of commercial GaN and GaAs based Optoelectronic Devices". Santosh Kumar, MVinay Kumar,Asokan K, & **Krishnaveni S.** National Seminar on "Recent Trends in Physics (NSRTP-2017), **26 September 2017**, Bharathi College Mandya, Karnataka.

26. Conformational Studies on *Bacillus Subtilis*RbgA using Molecular Dynamics Simulations.Upendra N, Abhishek Acharya, Balaji Prakash and **Krishnaveni S.,** International conference on Recent Advances in Materials Science and Biophysics, **January 23-25, 2018**, Mangalore University.

27. Electrical characterization of Ni/nGaNschottky diodes, Santosh Kumar, M Vinay Kumar, Srinivas R N, **Krishnaveni S**. International conference on Recent Advances in Materials Science and Biophysics, **January 23-25, 2018**, Mangalore University.
28. "Simulation studies on RbgA – a prokaryotic GTPase involved in Ribosome assembly",Upendra N, Abhishek Acharya, Balaji Prakash and **Krishnaveni S.** National conference on recent advanced materials-2018, **February 23-24, 2018**, Thiruvalluvar University College of Arts and Science, Tamil Nadu.
29. Study of Current-Voltage plots by different methods for Ni/n-GaNSchottky diodes.Santosh Kumar, Srinivas R.N. and **Krishnaveni S**. National conference on recent advanced materials-2018, **February 23-24, 2018**, Thiruvalluvar University College of Arts and Science, Tamil Nadu.
30. Determination of gamma shielding characteristics of some wood samples available in and around Mysuru, RumanaFarheen S. M. and **Krishnaveni S.** National conference on radiation physics & its applications in material science & medicine, **April-6th, 2018**, Government College for Women (GCW), Kolar.
31. "700 keV O3+ ion implantation induced effects on transport properties of Cr/ p-GaNSchottky diode". Santosh Kumar, M Vinay Kumar, V Rajgopal Reddy, **Krishnaveni S**. International Conference on Ion Beams in Materials Engineering and Characterization (IBMEC 2018) organized by Inter University Accelerator Centre (New Delhi) **from 9-12 October 2018**.
32. "Molecular Dynamics Simulations on EngA – A GTPase involved in Ribosome Assembly". Upendra N., Abhishek Acharya, Balaji Prakash and **Krishnaveni S**., International Conference on Advanced Functional Materials for Energy, Environment and Health Care (*AFMEEHC*), **March 18-20, 2019,**VijnanaBhavan, University of Mysore, Mysuru-570006.
33. "Flexible and Transparent Electrode based TriboelectricNanogenerator for Efficiently Harvesting Wind Energy". Smitha A.S., RumanaFarheen S. M., and **Krishnaveni S**., International Conferenceon Advanced Functional Materials for Energy, Environment and Health Care (*AFMEEHC*), **March 18-20, 2019,**VijnanaBhavan, University of Mysore, Mysuru-570006.
34. "Comparison of Electrical Parameters of Ni/Pd/n-GaN and Ni/Ru/n-GaN SBD'S Extracted from Different models". Santosh Kumar, Vinay Kumar M. and **Krishnaveni S**. International Conference on Advanced Functional

Materials for Energy, Environment and Health Care (*AFMEEHC*), **March 18-20, 2019**, Vijnana Bhavan, University of Mysore, Mysuru-570006.

35. "Study on variation of structural and electronic properties of hcp Zn at various temperatures. Muniraju M., Somashekar R. and **Krishnaveni S**. International Conference on Advanced Functional Materials for Energy, Environment and Health Care (*AFMEEHC*), **March 18-20, 2019,** Vijnana Bhavan, University of Mysore, Mysuru-570006.
36. "Conformational Studies on EngAGTPase using Molecular Dynamics Simulations".Upendra N., Abhishek Acharya, Balaji Prakash and **Krishnaveni S.** National Seminar on Biomolecular structure and dynamics, **March 28-29, 2019**, Periyar University, Salem, Tamil Nadu.
37. Environmental friendly method of Graphene Transfer onto Flexible and Transparent Polymers for Triboelectric Nanogenerator. Smitha A S, Rumana Farheen S M and **Krishnaveni S.** 4th International Symposium for Persistent, Bioaccumalating and Toxic Substances (4th PBTs). Harbin Institute of Technology, Shenzhen, China. 21st – 23rd June 2019.
38. Molecular Dynamics Simulations of *Bacillus Subtilis* EngA – For Exploring Nucleotide Dependent Conformations. Upendra N. and Krishnaveni S., Drug Design and Discovery Technologies (CDDT-2019) at Ramaiah University of Applied Sciences, Bengaluru, from Nov 21-22, 2019.

Book Chapter:

(eds) Smart Polymer Nanocomposites. Springer Series on Polymer and Composite Materials. Springer, Cham (SSPCM), **978-3-319-50423-0, 2017**.

RESEARCH FOUNDATION

Dr. Krishnaveni S.
Professor and Chairperson
Department of Studies in Physics
University of Mysore
Mysuru-06

Outline

- Research
- Classification
- Research foundation
- Research Paradigm
- Theoretical Framework
- Problem Statement
- Objectives and Research Questions
- Methodology

RESEARCH

- Logical and systematic search for new and useful information on a particular topic.
- Search for knowledge, a discovery of hidden truths.
- Investigation of finding solutions to scientific and social problems through systematic analysis.

RESEARCH

- **Research is search for knowledge.**
- **Research as a scientific and systematic search form information on a specific topic.**
- **Dictionary definition – Research is a careful investigation/inquiry specially through search for new facts in any branch of knowledge.**
- **It is a journey of discovery.**

Definition

- Clifford Woody. “Research comprises defining and redefining problems, formulating hypothesis or suggested solutions, collecting, organising and evaluating data, making deductions and reaching conclusions; and at last. carefully testing the conclusions to determine whether they fit the formulating hypothesis”

RESEARCH METHODOLOGY

- Systematic way to solve a problem.
- Science of studying how research is to be carried out.
- The procedures by which researchers go about their work of describing, explaining and predicting phenomena.
- The study of methods by which knowledge is gained.

Its aim is to give the work plan of research

CLASSIFICATION

Research is broadly classified into two main classes:

Fundamental or basic research

- **Fundamental research is the systematic investigation aimed at gaining a deeper understanding of basic principles and theories, without a focus on immediate practical applications. It seeks to expand knowledge and provide a foundation for further scientific inquiry.**

Classification

Applied research:

- **Applied research is a systematic investigation that aims to solve specific, practical problems or develop new products, technologies, or processes by applying existing scientific knowledge. It focuses on real-world applications and tangible outcomes.**

Research foundation

- The fundamental basis upon which a research study is built.
- It encompasses the core components that provide direction, structure, and purpose to the research process.

Key Components of Research Foundation

- Research Paradigm
- Theoretical Framework
- Problem Statement
- Objectives and Research Questions
- Methodology

Research Paradigms

Guiding belief or philosophy that helps researchers decide how to study something. It answers questions like:

1. What is real? (What is the nature of reality?)

2. How can we know about it? (How do we gain knowledge?)

3. What methods should we use to find out?

Types of research paradigms

Positivism

- Belief: The world is real and can be measured objectively, like in science.
- Approach: Use experiments, numbers, and data to find the truth.
- Example: Testing how effective a new medicine is in a lab.

Types of research paradigms

Interpretivism

- Belief: People see the world differently based on their experiences.
- Approach: Understand feelings, thoughts, and experiences by talking to people.
- Example: Exploring how students feel about online learning.

Types of research paradigms

Critical Theory

- Belief: Society has problems caused by things like inequality and power.
- Approach: Study these problems to bring change and fairness.
- Example: Researching how gender discrimination affects job promotions.

Theoretical Framework

- A theoretical framework is a foundation of ideas and theories that supports and shapes a research study.
- It provides the lens through which the research problem is examined and helps explain why the study is being conducted.

Definition:

- A collection of existing theories and concepts that provide a background and context for the research.

Purpose:

- To guide the study by connecting it to established knowledge.
- To define key variables or concepts and their relationships.
- To justify the choice of research methods and data analysis.

Components:

- Relevant Theories: The main ideas from the literature that relate to the research topic.
- Key Concepts: The specific terms and definitions used in the study.
- Proposed Relationships: How the variables or concepts are linked.

Role in Research:

- Provides a structured explanation of the problem.
- Offers a roadmap for hypothesis development and analysis.
- Helps interpret findings within a broader context.

Why it is important?

Theoretical frameworks connect your research to established knowledge, ensuring your study is grounded and contributes meaningfully to the field.

Problem Statement

- A problem statement is a clear and concise description of the issue or gap in knowledge that the research aims to address.
- It sets the stage for the study by explaining why the research is necessary and what it seeks to accomplish.

The Problem:

- Clearly define the issue or challenge.
- Explain its significance and impact.

Context:

- Provide background information to situate the problem within a broader field of study.
- Highlight what is already known and what gaps exist.

Importance:

- Explain why solving this problem matters.
- Show how addressing it will contribute to knowledge or practical solutions.

Scope:

- Define the boundaries of the problem to focus the research.
- Avoid being too broad or vague.

A strong problem statement ensures your research is relevant, focused, and meaningful.

Objectives and Research Questions

The objectives outline what the research aims to achieve. They are clear, specific, and measurable goals that define the direction of the study.

Types of Objectives:

General Objective: A broad statement of the overall aim of the study

- To explore and improve devices that convert mechanical energy into useful energy forms such as electrical or thermal energy.

Specific Objectives: Narrower goals that break the general objective into actionable steps.

- To identify the current technologies used for mechanical-to-electrical energy conversion.
- To analyze the efficiency of different mechanical energy conversion devices.

- To explore materials and designs that enhance the performance of these devices.
- To assess the environmental and economic impact of adopting such devices.
- To propose innovative solutions for optimizing mechanical energy conversion systems.

Objectives and Research Questions

- Research questions are the specific queries that the study seeks to answer.
- They are closely aligned with the objectives and help frame the investigation.

Characteristics of Good Research Questions:

- **Focused: Addresses a specific aspect of the problem.**
- **Clear: Easy to understand and unambiguous.**
- **Feasible: Can be answered within the scope of the study.**

By aligning objectives and research questions, the research maintains clarity, direction, and focus, ensuring a well-structured investigation.

Methodology

- **The framework that guides the entire research process, ensuring that the study is systematic, reproducible, and based on sound scientific principles.**
- **It provides a clear roadmap for how the research will be conducted, from formulating hypotheses to analyzing results.**

1. Research Design

- **Decide how you will approach the research (e.g., experiment, observation).**
- **Example: You want to test how light affects plant growth. So, you set up an experiment where plants grow under different light conditions.**

2. Hypothesis

- **Make a prediction about what you think will happen based on what you know.**
- **Example: "If plants get more light, they will grow taller."**

3. Variables

- **Identify what you will change and measure.**
- **Independent Variable: What you change (e.g., light intensity).**
- **Dependent Variable: What you measure (e.g., plant height).**
- **Control Variables: What you keep the same (e.g., type of plant, water).**

4. Data Collection

- **Collect information during your experiment.**
- **Example: Measure the plant height every week under different light levels.**

5. Data Analysis

- **Look at the data and see if it supports your hypothesis.**
- **Example: Compare the plant height under each light condition and use a graph to visualize the results.**

6. Conclusion

- **Decide if your hypothesis was correct based on the data.**
- **Example: "Plants grew taller with more light, so my hypothesis was correct."**

7. Ethics

- **Ensure your research respects all guidelines (e.g., don't harm plants or other living beings).**

STAGES OF A RESEARCH

1. Selection of a research topic
2. Definition of a research problem
3. Literature survey and reference collection
4. Assessment of current status of the topic chosen
5. Formulation of hypotheses
6. Research design
7. Actual investigation
8. Data analysis
9. Interpretation of result
10. Report

Conclusion

- Research is important both in scientific and non-scientific fields.
- Scientists have to undertake research, to find causes, solutions, explanations and applications.

“Research assists us to understand nature and natural phenomena”

THANK YOU

LITERATURE REVIEW

Dr. Krishnaveni S.
Professor and Chairperson
Department of Studies in Physics
University of Mysore
Mysuru-06

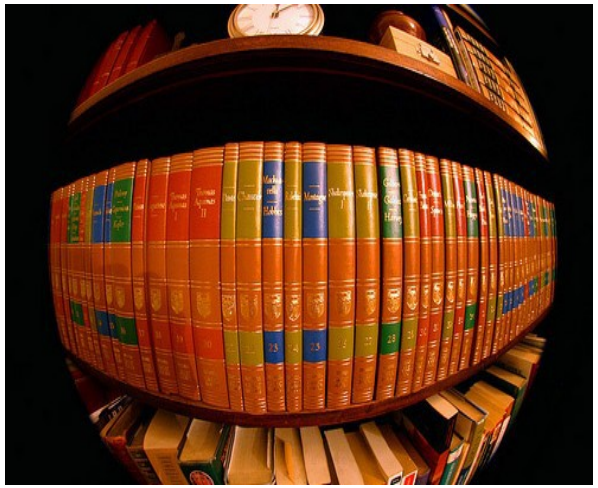
Outline

- Literature survey
- Search engines for research
- List of major Nano-Science and related journals
- Digital Repositories
- Mendeley
- Zotero
- How to write the research paper
- Plagiarism
- Conclusion
- References

LITERATURE SURVEY

- Collection of research publications, books and other documents related to the defined problem.

- Sources of literature survey.
    1. Primary
    2. Secondary and
    3. Tertiary



LITERATURE SURVEY

- The journals which publish abstracts of papers.
- Review articles related to the topic chosen.
- Journals which publish research articles.
- Advanced level books on the chosen topic.
- Proceedings of conferences, workshops, etc.
- Reprint/preprint collections available with the supervisor and nearby experts working on the topic chosen.
- Internet.

A comprehensive literature review not only informs your research question but also identifies gaps in existing knowledge. This presentation will guide you through the key steps to conduct an effective literature review.

Citation

Reference to a source of information that you have used in your writing, research, or presentation. Citations serve several purposes, including:

- **Acknowledging Sources: They give credit to the authors or creators of the original work.**
- **Supporting Claims: They back up your arguments or ideas with credible evidence.**
- **Avoiding Plagiarism: By citing sources, you show that you are not claiming someone else's work as your own.**
- **Guiding Readers: Citations allow readers to locate and verify the sources you us**

Components of a Citation

- **Author(s): Who created the work?**
- **Title: What is the name of the work (book, article, webpage)?**
- **Publication Date: When was it published or created?**
- **Publisher or Source: Where can the work be found (journal, website, institution)?**
- **Additional Details: Page numbers, DOI, URL, edition, etc., depending on the source type.**

H-index

- **The H-index is a metric used to measure the productivity and citation impact of a researcher's work. It was proposed by physicist Jorge E. Hirsch in 2005 and has become a widely used tool for evaluating academic output, particularly in the sciences and social sciences.**

h-index

Paper	Number of Citations
1	100
2	78
3	62
4	43
5	32
6	18
7	3
8	2
9	1
10	1

h-index = 6

i10-index

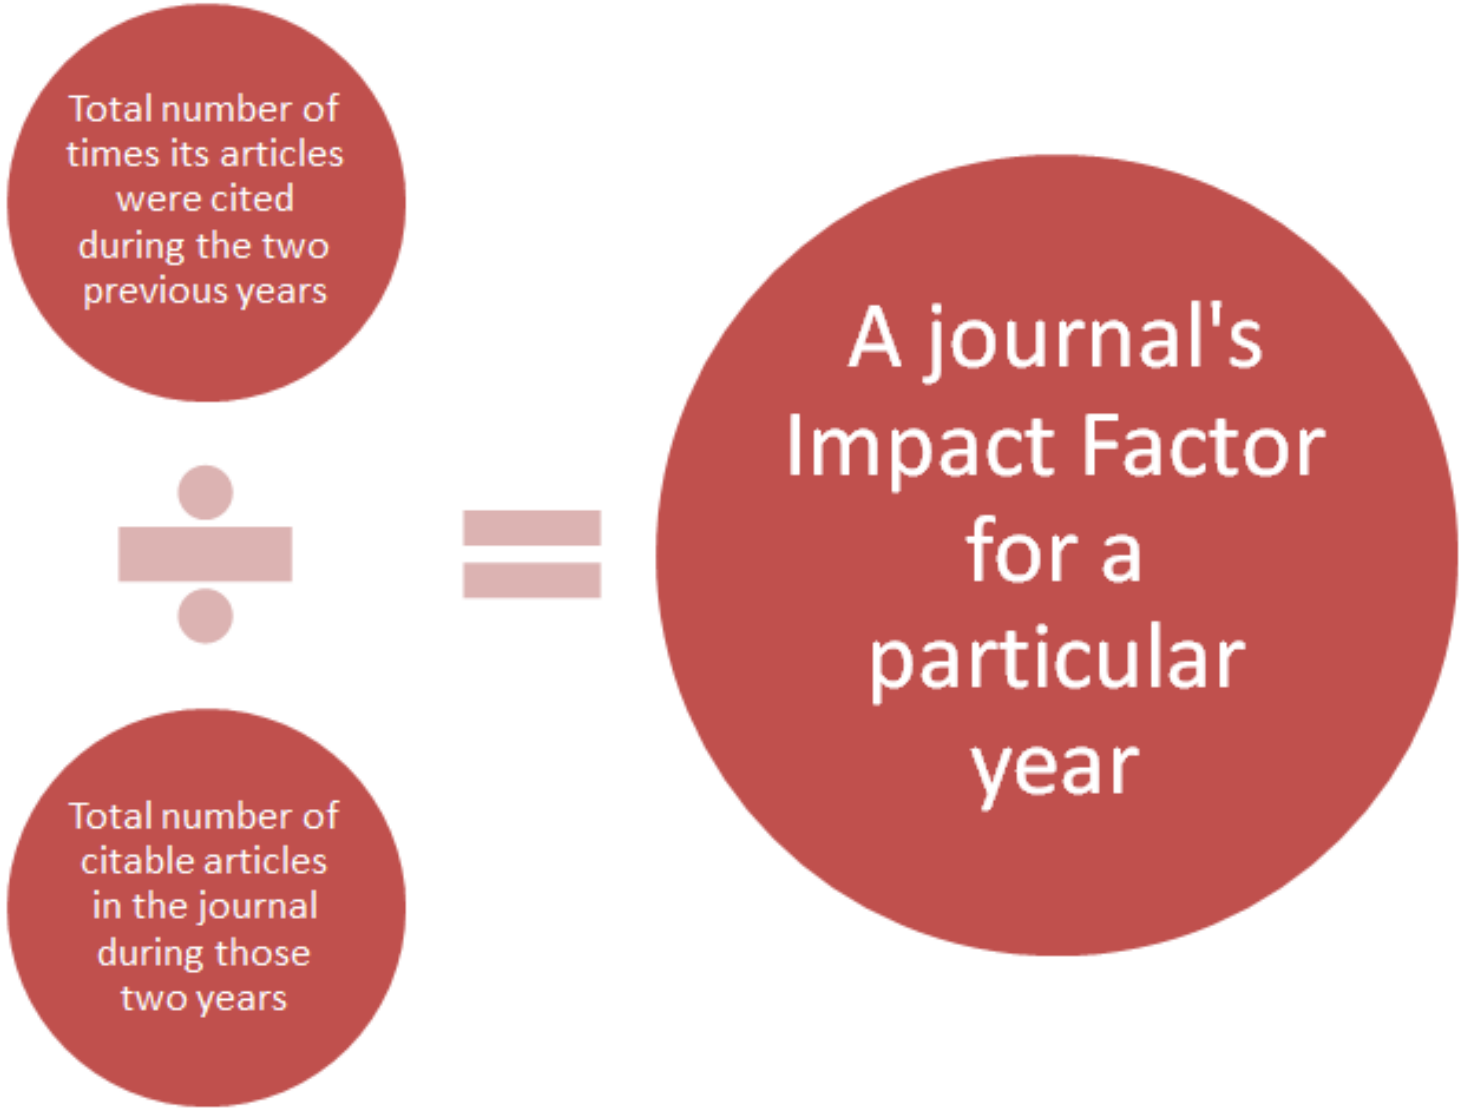
- **The i10-index is a simple metric used to measure the impact of a researcher's publications. It was introduced by Google Scholar and is defined as:**
- **The number of a researcher’s publications that have been cited at least 10 times.**

i10- Index

No. of Articles	No. of Citations
1	102
2	85
3	70
4	50
5	12
6	10
7	9
8	6

Impact Factor

- The Impact Factor (IF) is a metric used to measure the average number of citations received by articles published in a particular academic journal. It is widely used as an indicator of the influence or prestige of a journal in its field. The concept was introduced by Eugene Garfield, the founder of the Institute for Scientific Information (ISI).



Total number of times its articles were cited during the two previous years
÷
Total number of citable articles in the journal during those two years
=
A journal's Impact Factor for a particular year

About Shodhganga

A reservoir of Indian Theses

The Shodhganga@INFLIBNET Centre provides a platform for research students to deposit their Ph.D. theses and make it available to the entire scholarly community in open access. The repository has the ability to capture, index, store, disseminate and preserve ETDs submitted by the researchers.[Read More]

Shodhganga Membership is not for Colleges.

About Shodhganga

A reservoir of Indian Theses

The Shodhganga@INFLIBNET Centre provides a platform for research students to deposit their Ph.D. theses and make it available to the entire scholarly community in open access. The repository has the ability to capture, index, store, disseminate and preserve ETDs submitted by the researchers.[Read More]

Shodhganga Membership is not for Colleges.

Latest Updates | Videos | Photos

» SR University, Sister Nivedita University, and Nava Nalanda Mahavihara has become a member of Shodhganga and uploaded its first thesis in August and September 2024.

»As of August 08, 2024, Alliance University has contributed 100 % Theses (55) to the Shodhganga.

» New University added & UC created 808. **Lords University** 809. **Sri Venkateswara Veterinary University (Dr K. Kumar)** MoU List

ePrints@UoM is an initiative of Mysore University Library, which collects, preserves and distributes scholarly output of Research and Innovation activities at University of Mysore by its faculty, research scholars and students. UoM is one of the oldest university in the country and has many distinctions. This Open Access Institutional Repository, set up in April 2013, aims to cover scholarly publications covering journal articles, conference papers, books, book reviews, presentations, reports and patents since the establishment of the Varsity in 1916. While the documents are uploaded at present by library staff, the faculty and research scholars are encouraged to self-archive their publications. In keeping with the objectives of the Open Access Movement, we expect this service to facilitate the University researchers in self-archiving and long-term preservation of their scholarly publications, provide easy access to these publications world wide and improve impact of their research. While ePrints@UoM can be

Citation tools

Organizing your findings is key to a successful review. Use citation tools like Zotero, Mendeley, or EndNote to keep track of sources and categorize them by themes or methodologies. This organization will streamline the writing process and improve clarity.

MENDELEY COMPONENT

We lead

Mendeley Desktop A software that organizes PDFs, create references and helps you write papers.

Mendeley Web A research catalog of 350M documents from 2M researchers, 100K collaborative groups.

Mendeley Importer Create your library while surfing the web. Import of references from various websites.

MS Word Plugin: writing & citing your research in MS Word made easy via mendeley

How do you use **Mendeley?**

We lead

Free academic software

Non-platform or browser specific

Desktop

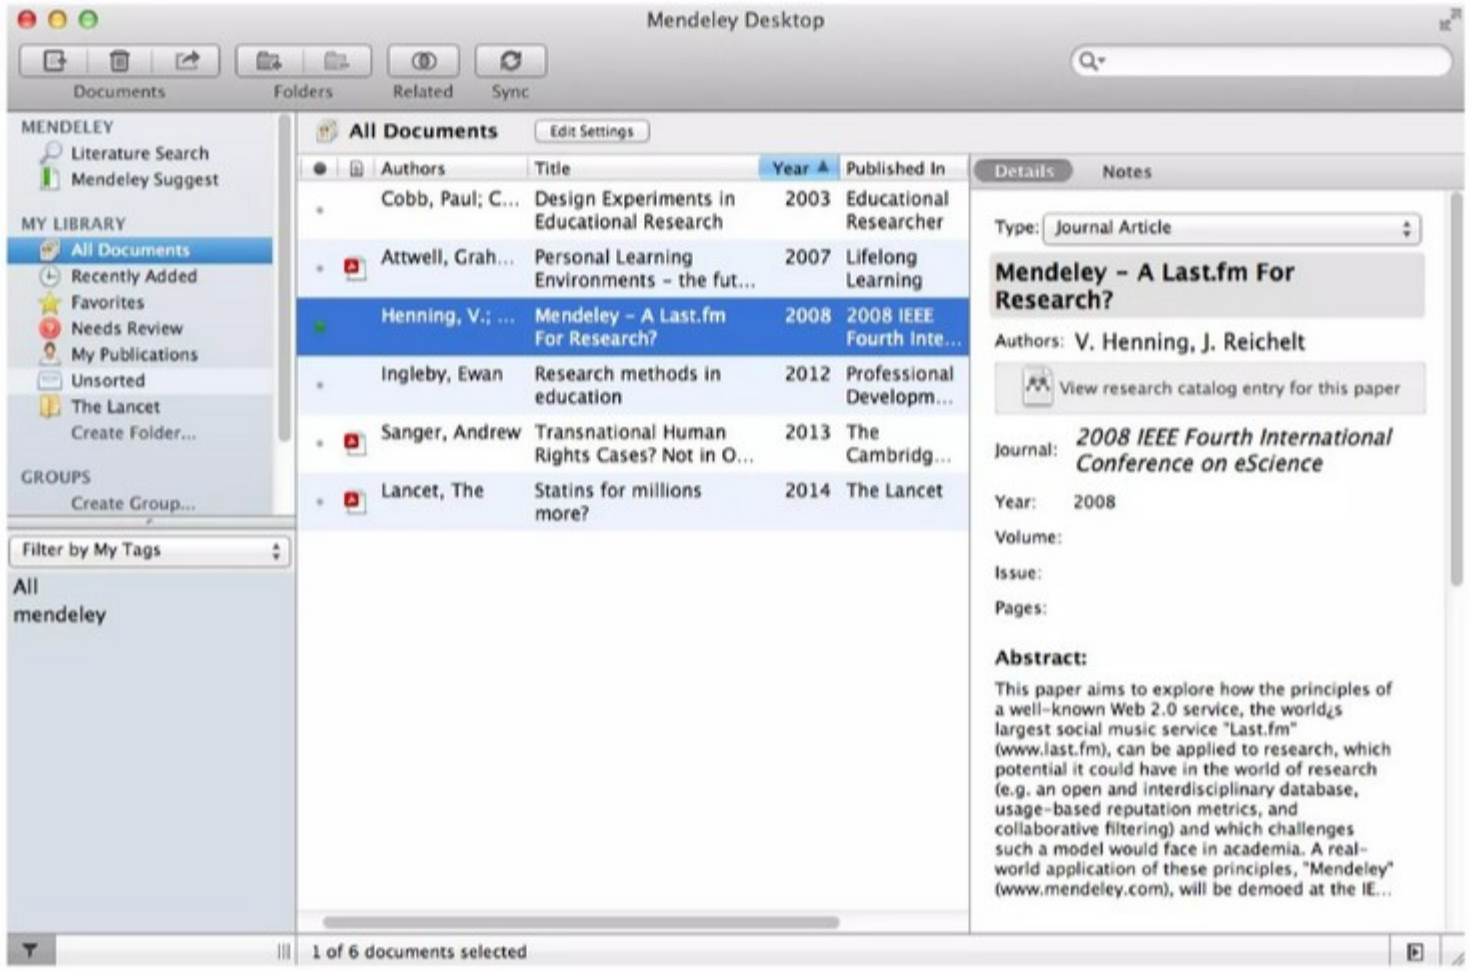
Web

Mobile

ORGANIZE

We lead

Your Desktop Library

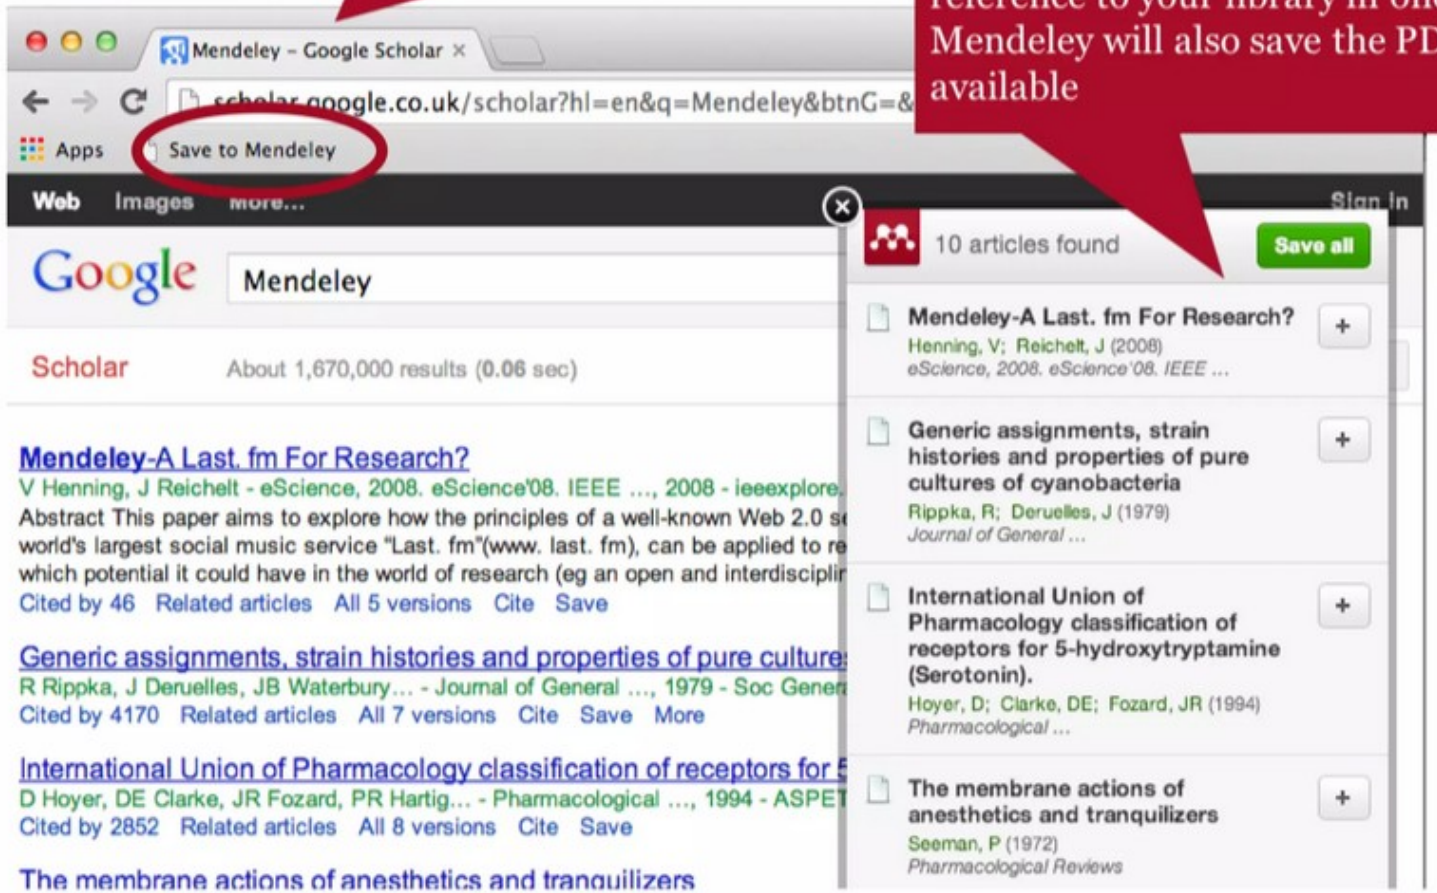


ORGANIZE : Using the Web Importer

We lead

Click 'Save to Mendeley' to import references from your search results

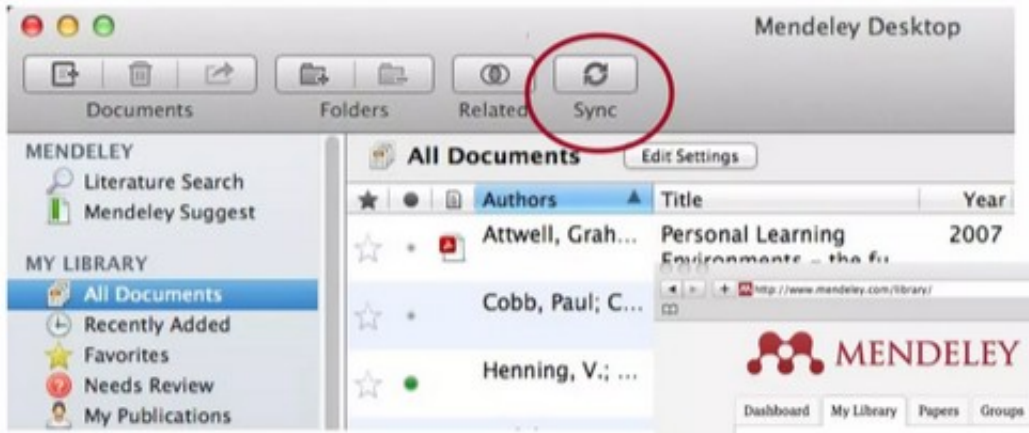
Select an article and import the reference to your library in one click. Mendeley will also save the PDF, if available

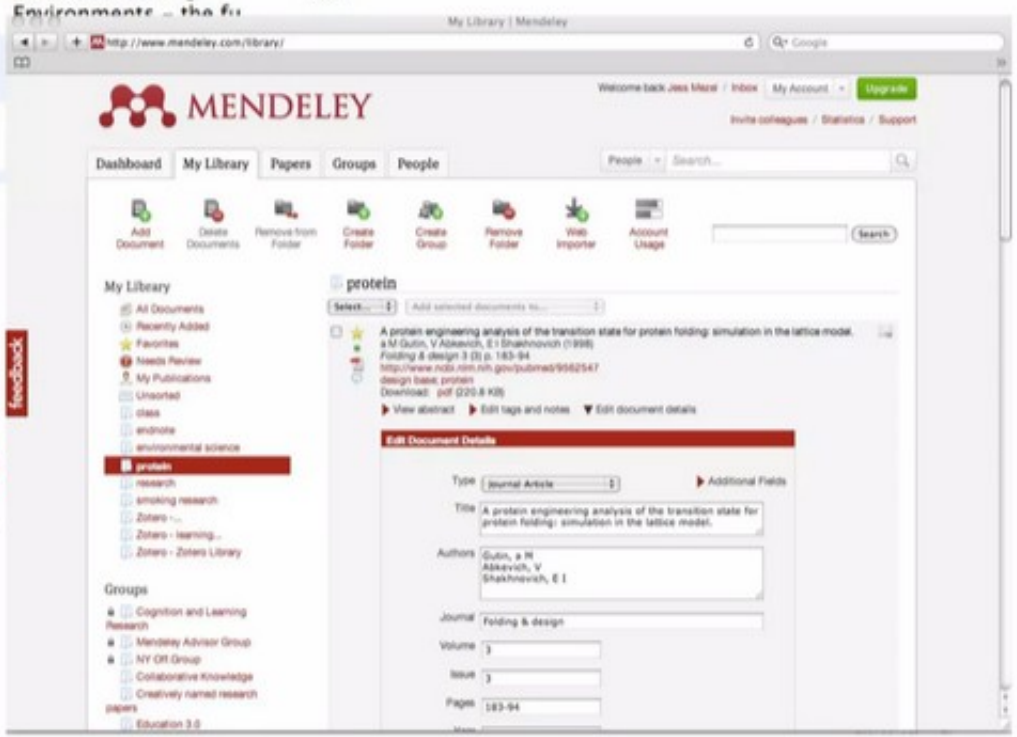


ORGANIZE : Sync

We lead

Sync your library to access it anywhere & read across devices

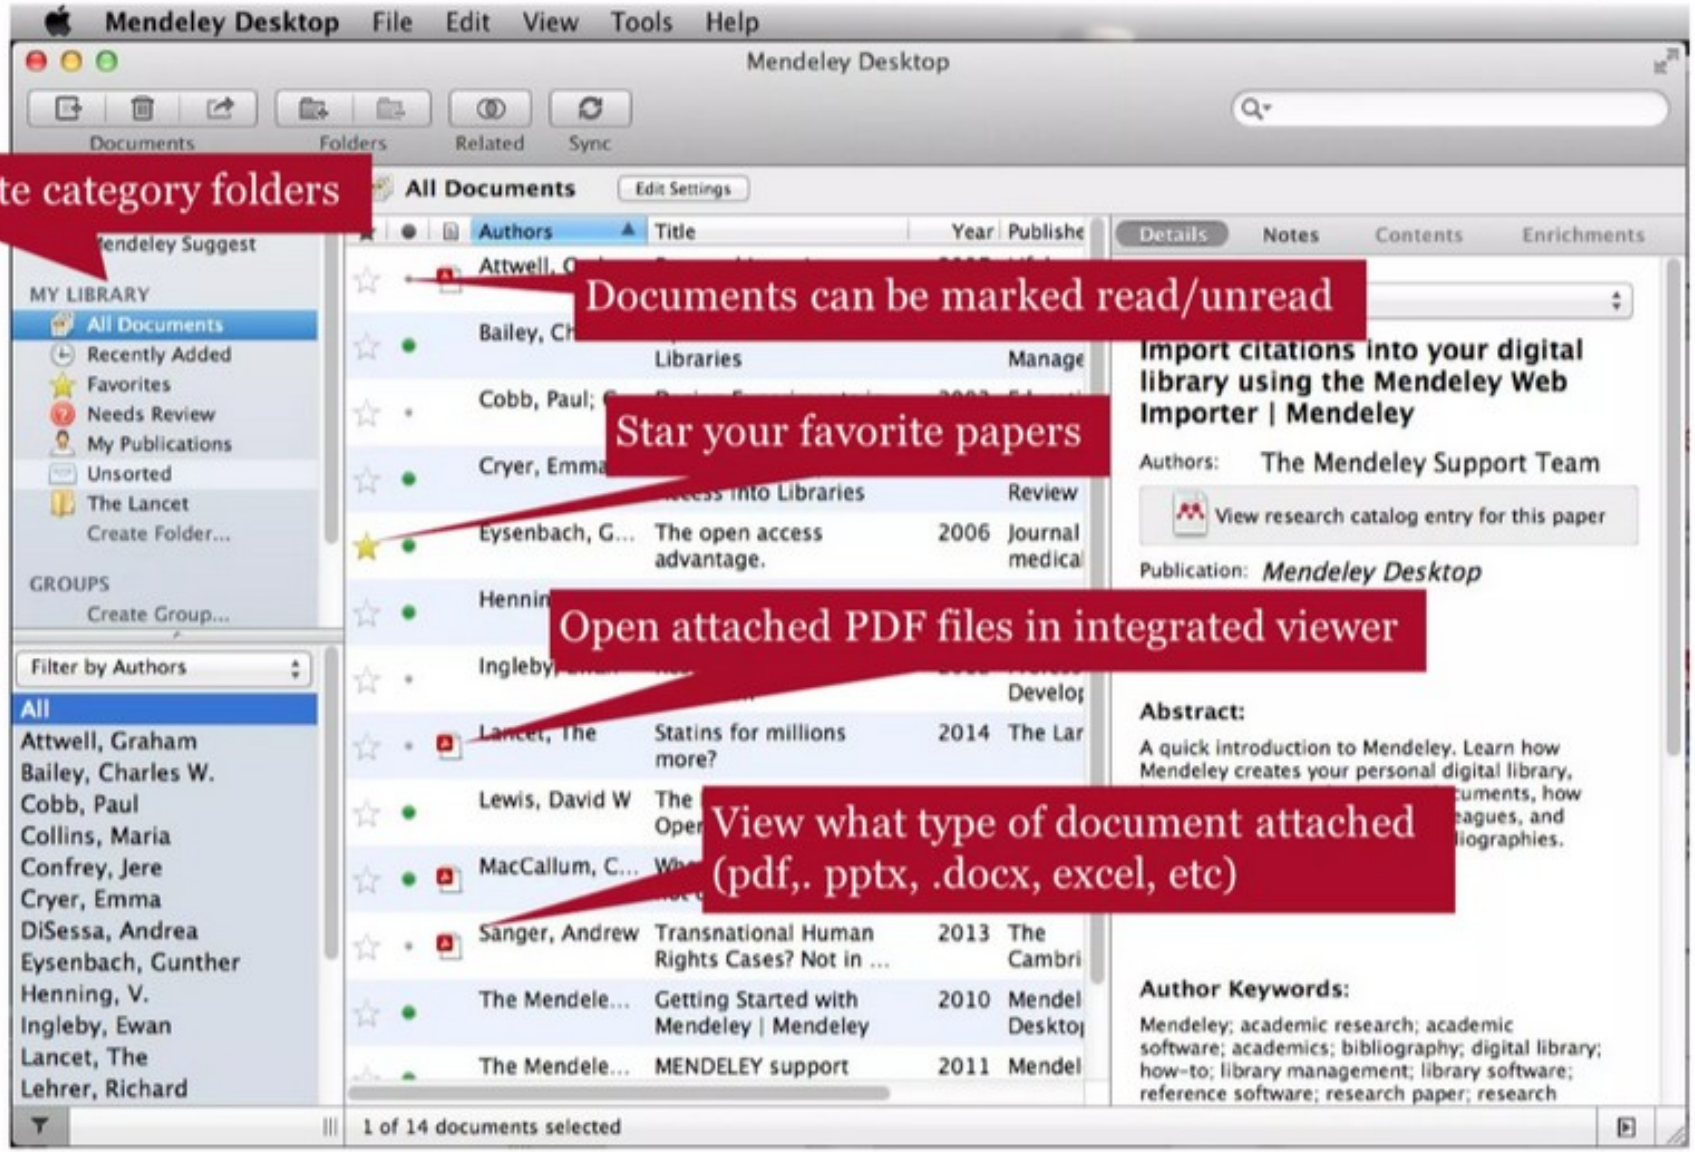




- Mendeley backs up your library online
- Access your articles anywhere
- Add new references to your library in Mendeley Web

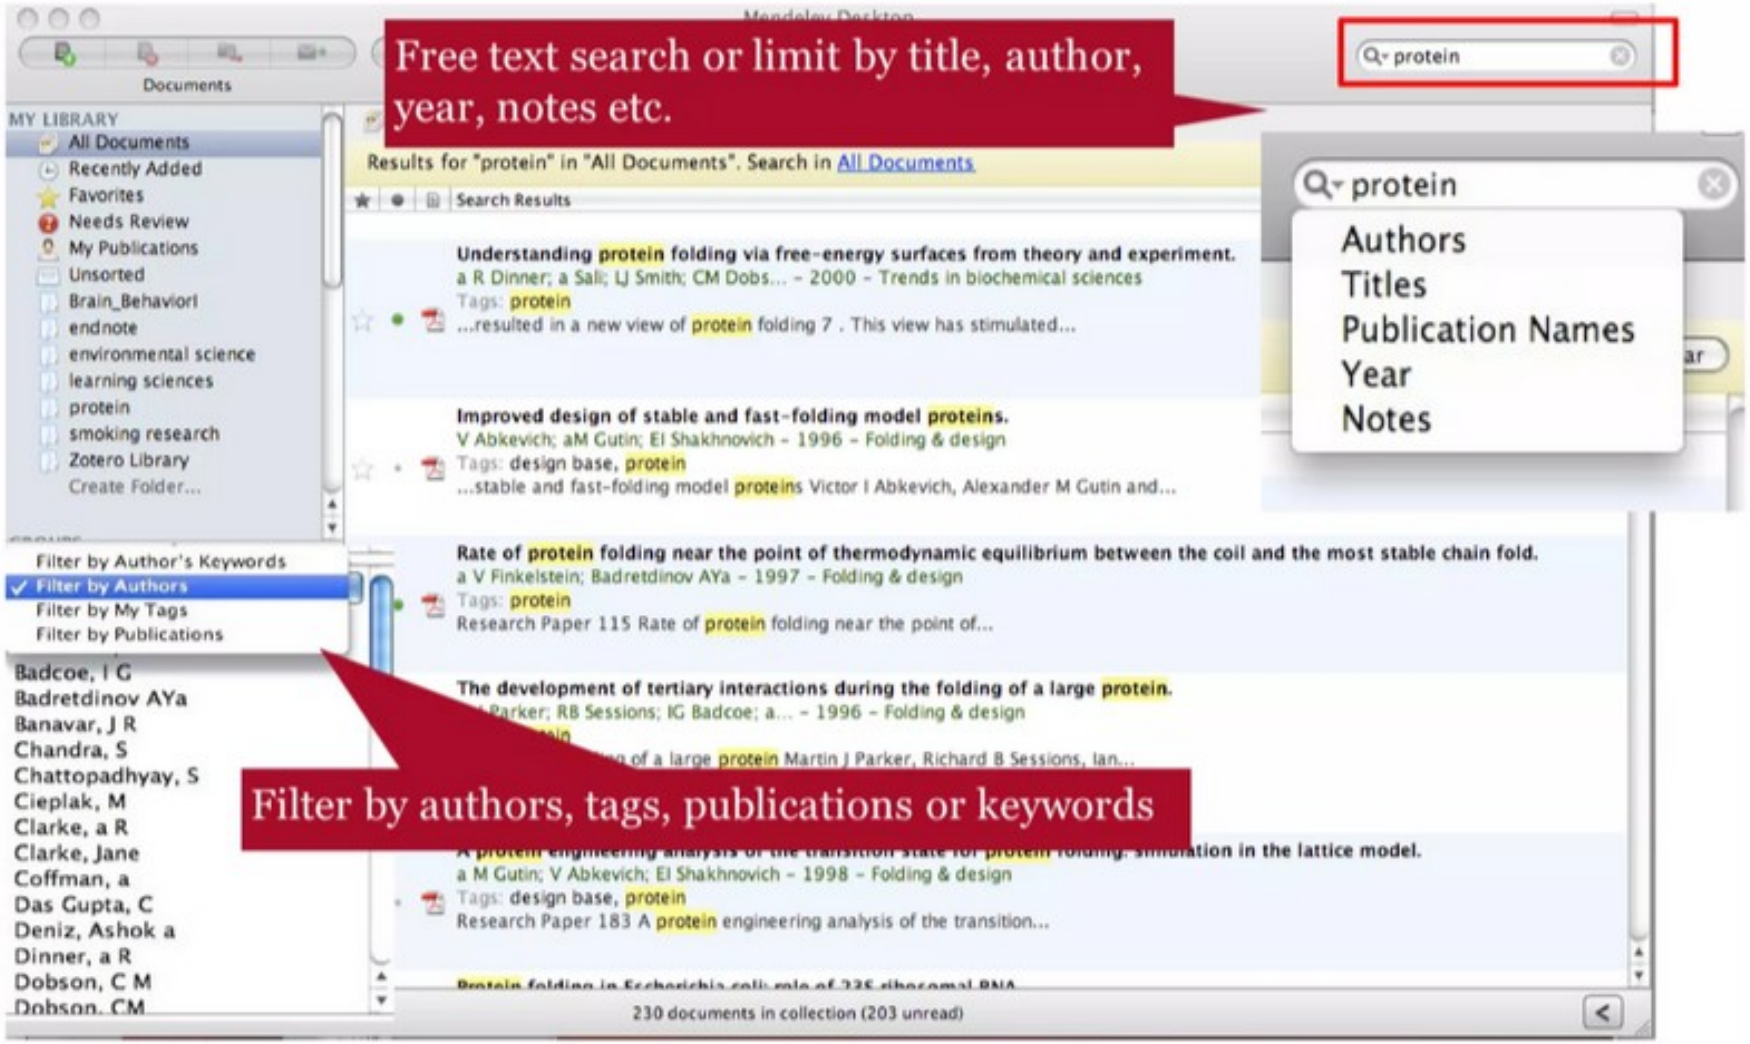
MANAGE : Manage your library

We lead

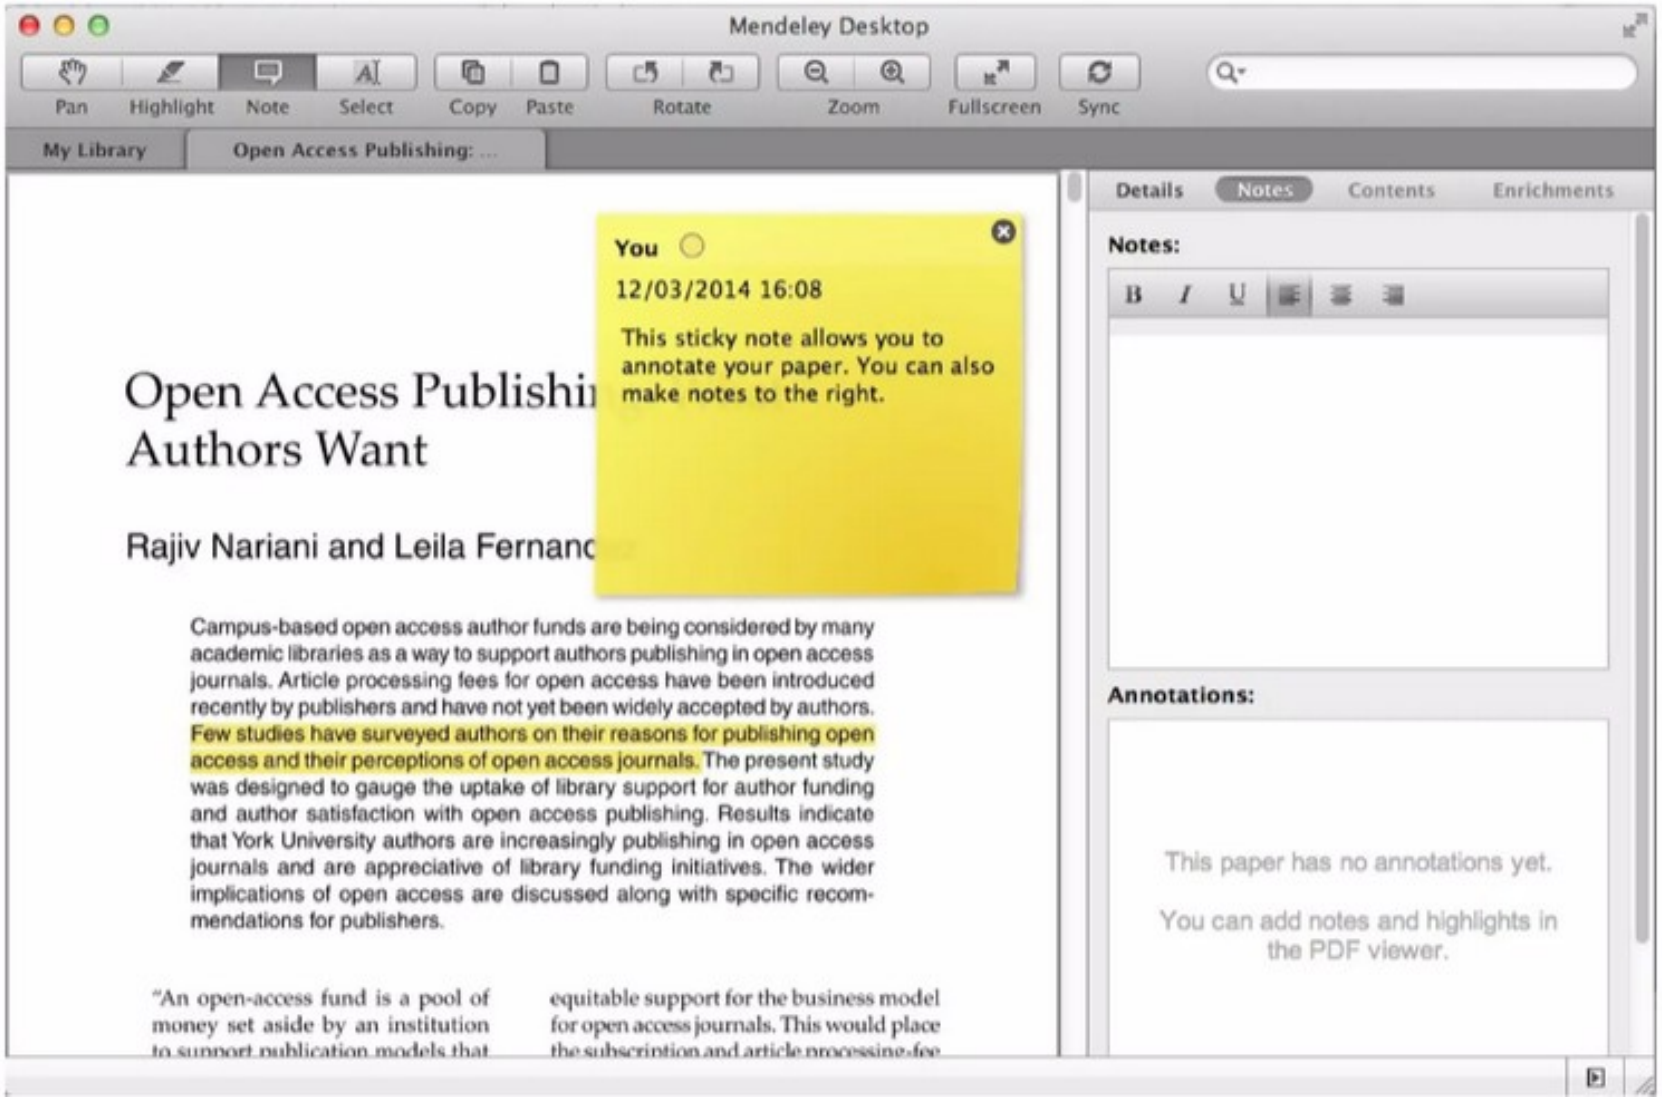


MANAGE : Search + filter to easily locate documents

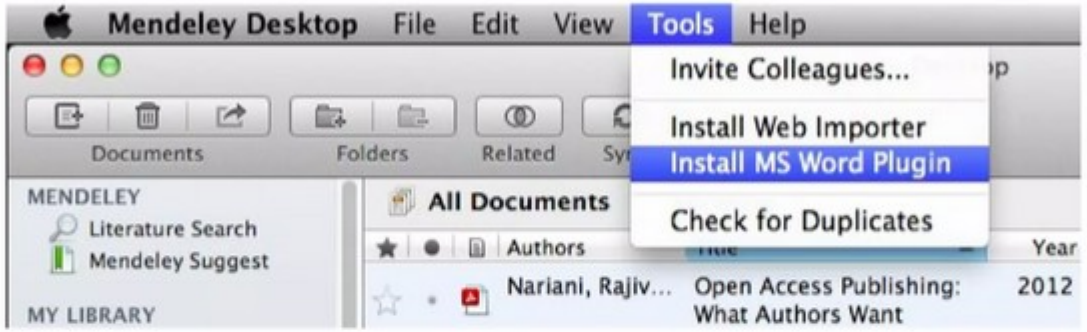
We lead



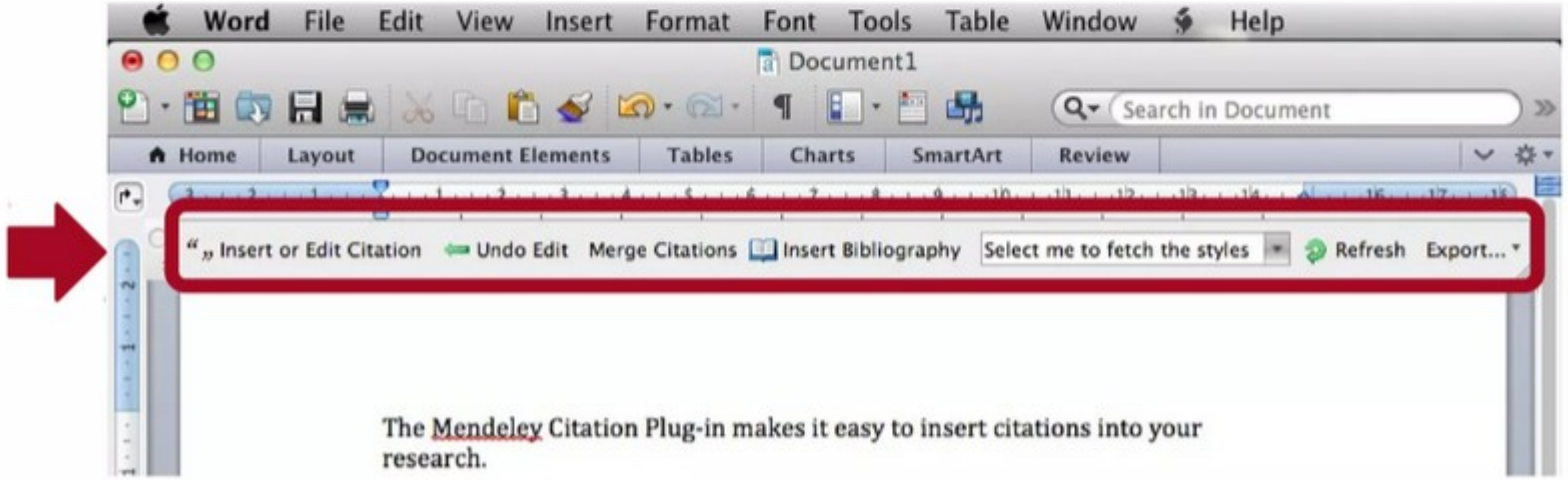
MANAGE : Annotate + highlight your papers



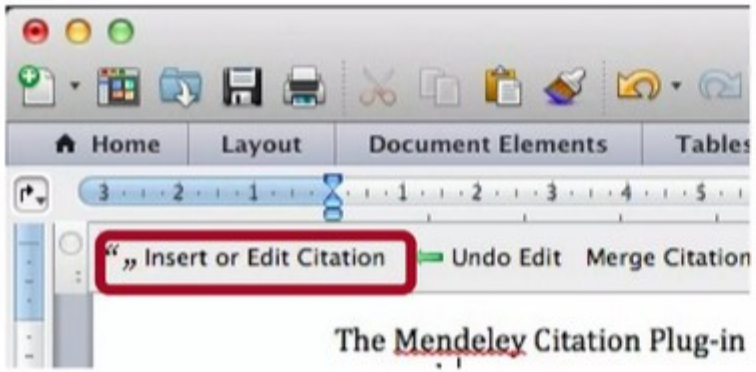
CITATION PLUG-IN : Installation



The Tool Bar Appears in Word Automatically

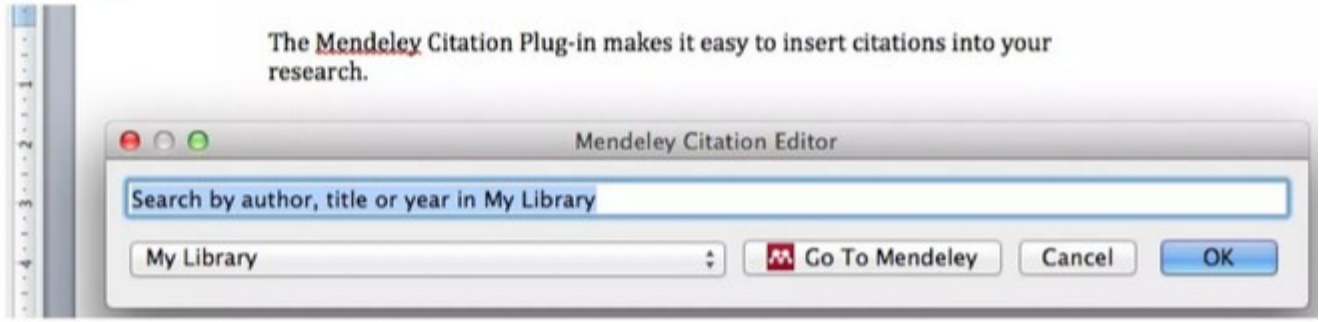


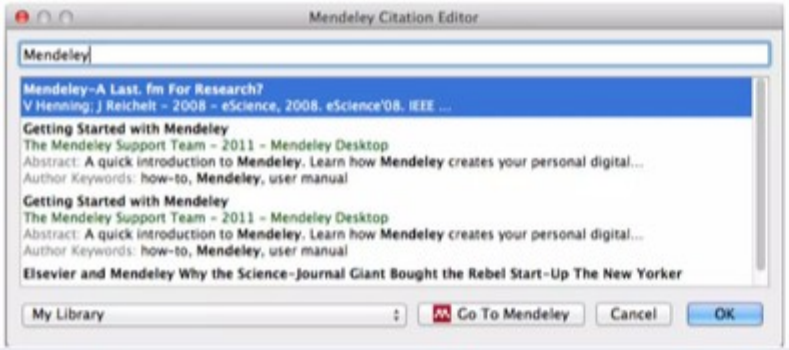
CITATION PLUG-IN : Generate In-Text Citations in Word



1. Click 'Insert or Edit Citation'

2. Search by author, title or year , or select manually from your Mendeley library





3. Select the article or book, and click 'ok' to automatically cite that text in Word

How to write the Research Paper?

Writing a full research paper from abstract to conclusion involves following a structured format to present your findings effectively.

Writing a research paper introduction

1. Introduce your topic
2. Describe your background
3. Establish your research problem
4. Specify your objectives
5. Map out your paper

Results and discussion

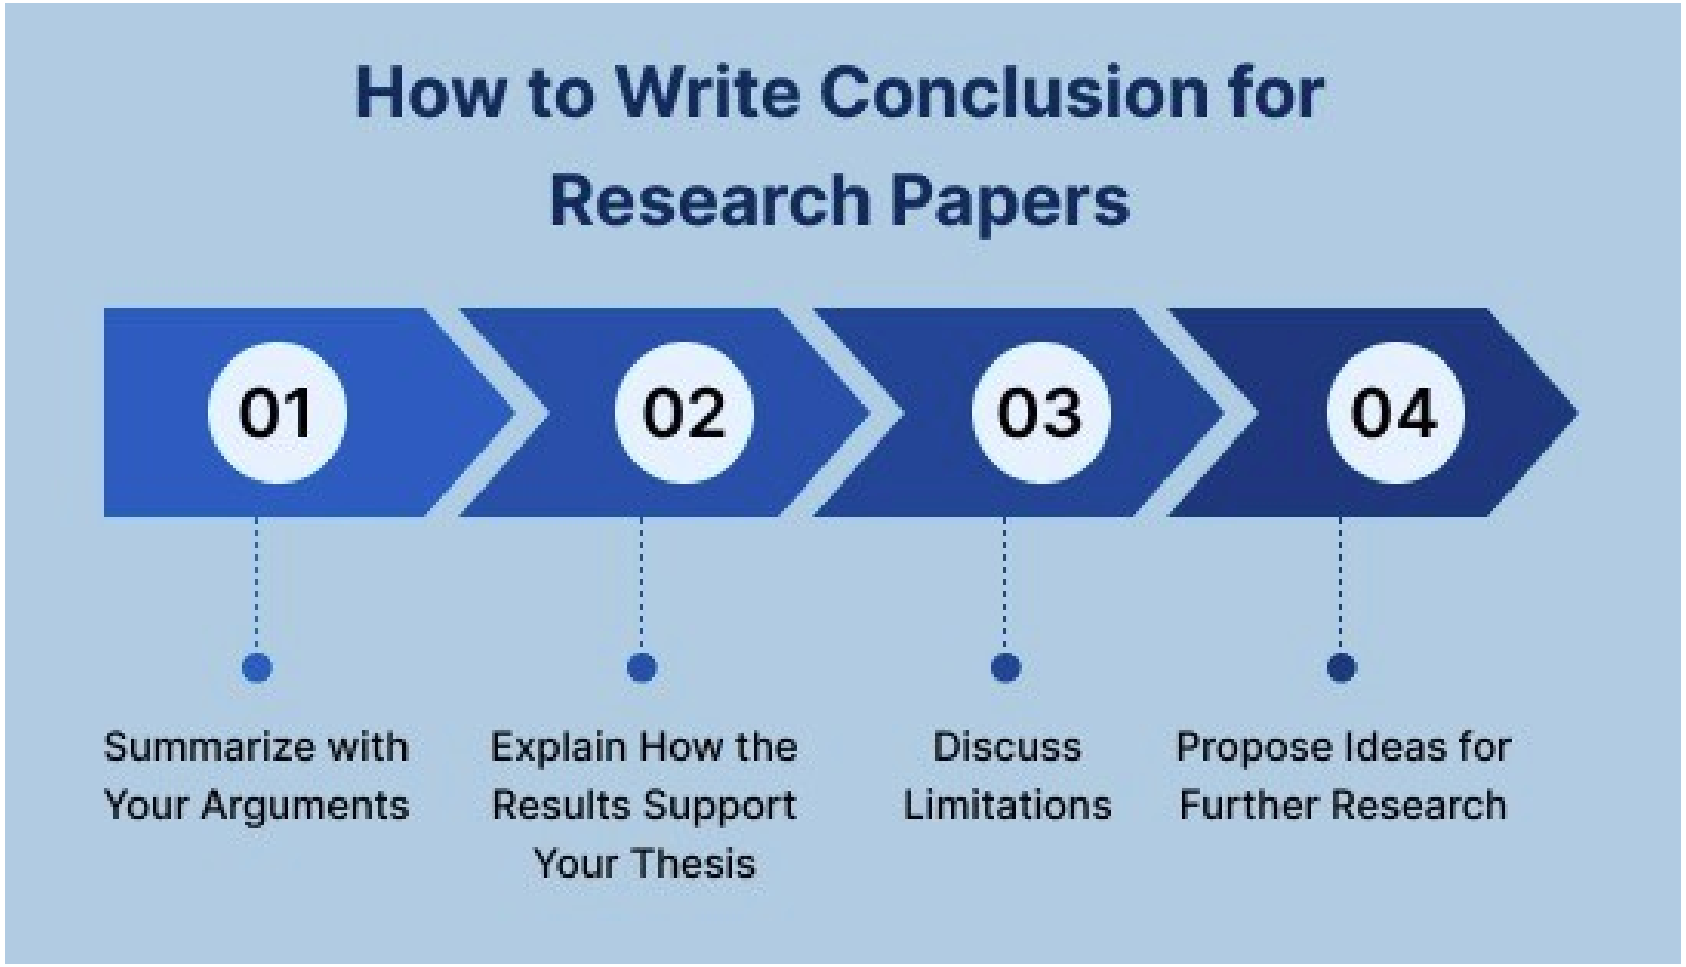
1. **Summarize your key findings**
   - Reiterate your research problem
   - Summarize your major findings

2. **Share your interpretations**
   - Identify patterns, and relationships among your data
   - Discuss whether the results met your expectations
   - Contextualize your findings within previous research
   - Explain unexpected results
   - Consider possible alternative explanations

3. **Discuss the implications**
   - Show the relevance and implications of your research
   - Relate your results back to previously discussed literature and existing knowledge
   - Explore what new insights your research contributes

4. **Acknowledge the limitations**
   - Provide a picture of what can be concluded from your study
   - Evaluate any impact limitations had on your research
   - Explain why your results are still valid for answering your research question

5. **State your recommendations**
   - Make recommendations for practical implementation
   - Give concrete ideas for future research



How to Write Conclusion for Research Papers

DOCX

Plagiarism Checker

A tool that scans text to identify similarities with existing content in online databases, journals, and publications.

Why Use It?

- **Ensures originality in research.**
- **Maintains academic and professional integrity.**
- **Prevents penalties and reputational damage.**

How It Works:

- **Upload or paste content.**
- **Compare text with vast repositories.**
- **Generate a similarity report highlighting matches.**

Plagiarism

- **The unethical practice of using someone else's ideas, data, text, or findings without proper acknowledgment, thereby presenting them as your own original contribution.**

- **It violates academic integrity and can have serious consequences for the researcher, their reputation, and the validity of their work.**

Plagiarism Checker

Types of Plagiarism Detected:

- Direct (word-for-word copying).
- Paraphrasing without credit.
- Self-plagiarism.
- Mosaic (mixing content from sources).

Popular Tools:

- Turnitin
- Grammarly
- iThenticate
- Copyscape

Plagiarism Checker

Benefits:

- **Promotes ethical writing.**
- **Enhances work quality.**
- **Saves time and builds confidence.**

Limitations

- **False Positives: Matches phrases that are common or technical terms.**
- **Cost: Some tools require subscriptions or payment for detailed reports.**
- **Dependence on Databases: Limited to the content available in the tool's repository.**

Plagiarism Checker

Best Practices

- **Cite Properly: Always give credit to original authors.**
- **Use Paraphrasing Wisely: Ensure paraphrased content is significantly reworded and cited.**
- **Review the Report: Analyze flagged sections to decide if they need modification or citation.**
- **Combine Tools: Use plagiarism checkers with other writing tools for comprehensive content evaluation.**

Day 2

"Harnessing AI for Advancing Research Practices"

Mohamed Minhaj

Research Interest / Consulting Area

Web Services, Information Management and Business Analytics

Courses Offered

Information Technology for Management
E-Business
Business Intelligence
IT Outsourcing Trends and Strategies
IT Audit and Governance
Machine Learning in Practice.
Managing Cloud Services

Also teaches/taught at

St. Philomena's College, Mysore
International School of Information Management (ISiM), University of Mysore, Mysore
Business Analytics Institute, France

Mohamed Minhaj, MCA, M.Phil & Ph.D
Dean - Academics
Professor - Systems
Chairperson - Systems
Chairperson - Grievance Cell
mminhaj@sdmimd.ac.in

Dr. Mohamed Minhaj has around 15 years of Teaching and Consulting Experience. His area of specialization is Information Management, Web Services and Business Analytics.

At SDMIMD, besides teaching courses related to Information Technology and Analytics, as Chairman of Campus Systems, he is involved in the management of IT infrastructure and services.

He has completed many consulting assignments related to Information Management, Digital Libraries, e-Learning and Web Services. He has handled corporate training programs related to IR, Data Analysis and Business Modeling with Excel and Essentials of Business Analytics.

Prior to joining SDM, he has served organizations like APTECH Limited, ECIT, St. Philomena's College and University of Mysore. He was also associated with Vidyanidhi Digital Library Project which was sponsored by Ford foundation and Microsoft. He was also the Lead Software Consultant for India - Educational Digital Library Project, undertaken by Educational Development Center which is an international non-profit organization head-quartered in US.

His research interests include Semantic Technologies and Text Analytics.

He has completed many courses related to Analytics, including FDP from Indian Institute of Management, Bangalore and is a visiting faculty at the Business Analytics Institute, France.

He is an active member of Computer Society of India (CSI) and is currently the Chairman of Mysore Chapter. He is also a Member of IT Panel, Confederation of Indian Industries (CII), Mysuru and member of Analytics Society of India.

A woman hailing from US created an AI chatbot in 2022 and eventually married him after falling in love.

Dr MM, SDMIMD

Generative AI | 7 Min Read | Jan 10, 2023

Conversations - The world's first AI-authored book is out. Know the Indian startup that made it happen

Presenting to you, Bridging the AI gap – which has been completely penned by AI algorithms trained by Indian startup, Fluid AI. So, what is it that went behind this creation? Were there any challenges that the startup came across? Most importantly, what is it that Fluid AI really does and what sets it apart? Jibu Elias — Research & Content Head at IndiaAI Mission, sat down with Abhinav Aggarwal — Co-

WORLD SENSATION – A.I. DEVELOPED AND TASTED ITS OWN ENERGY DRINK

Artificial Intelligence can revolutionize the world of energy drinks – it not only created what it considers the perfect recipe – but also tasted it.

Budapest, July 3, 2023 – **The world's first energy drink entirely powered by A.I. has been developed by HELL ENERGY. Design, recipe, tasting and meticulous taste evaluation, predictive intelligence, security measures, marketing elements – every aspect has been expertly crafted by advanced A.I. (Artificial Intelligence) systems.**

The vast amount of information and knowledge available on the World Wide Web is utilized by A.I. It can process and uncover connections at a speed that is almost incomprehensible to humans. Additionally, it possesses comprehensive knowledge about energy drinks, encompassing their ingredients, sales results,

AI Lawyer

A New York lawyer, Steven A. Schwartz, faced a courtroom debacle after relying on ChatGPT for legal research. The AI program fabricated judicial decisions and citations, which Schwartz included in a court filing for a case against Avianca Airlines.

This incident led to a hearing for potential sanctions and highlights the dangers of uncritically accepting AI-generated content in professional settings.

AI Against Women in Tech Hiring

Amazon's attempt to revolutionize hiring with AI backfired spectacularly. Their algorithm, trained on a mountain of primarily male resumes, was accused of favoring men. Despite efforts to remove the AI bias, the Guardian alleged the tool discriminated against resumes from women. This unfortunate case, which led to the tool's shutdown in 2019, highlights the difficulty of creating fair and neutral AI, especially when tackling complex human characteristics like gender.

European Research Council issues warning on AI's use in grant applications

19 Dec 2023 | News

AI | Digital | European Research Council | R&D Policy

Researchers who use AI in writing research proposals must take 'full and sole authorship responsibilities', says the ERC. Its 'robust' system can detect 'text similarities'

Is AI leading to a reproducibility crisis in science?

Scientists worry that ill-informed use of artificial intelligence is driving a deluge of unreliable or useless research.

ACADEMIC AWARDS, HONORS AND RECOGNITION:

1. ***Junior Research Fellowship*** award for two and half years (Completed on June 2002) sanctioned by Department of Science Technology, New Delhi.
2. ***CSIR-SRF fellowship*** award for three years (Completed on March 2006).
3. ***"Junior Scientist of the year 2003"*** by the National Environmental Science Academy, (NESA), New Delhi.
4. Awarded "**Best Paper**" at National Seminar on Algol Ecology held on 3 and 4th November 2012 at Chennai and given a cash award in recognition of the same.
5. ***Indira Priyadarshini Best Scientist Award for 2015-16 by the Bose Science Society, Pudukottai, Tamil Nadu.***
6. "***Adarsh Vidya SaraswatiRashtriya Puraskar***" award by The Global Management Council, Glacier Journal Research Foundation, Ahmadabad, Gujarat on 10th May 2016.
7. Name is cited in Asia/Pacific - **"Who's Who"** Rifacimento International, 15th Volume P 422.
8. "***Outstanding Scientist Award***" by International Institute Technical Teachers, Dehradun, on 22nd May, 2021.
9. ***"Dr. Sarvepalli Radhakrishnan Best Faculty Award"*** by Center for Professional Advancement Continuous Education, Vijayawada, Andra Pradesh. On 5th, September 2021.
10. ***"INDIA Prime Top 100 Professors award 2021" by*** **Fox Clues India Prime Awards, Chandigarh, Punjab 18th September 2021.**
11. ***"Eminent Scientist of the Year 2021"*** by the National Environmental Science Academy, (NESA), New Delhi on 13th December 2021.

12. Awarded by Fox Story India of ***'Top 50 Aspiring Authors & Researchers' 2022*** by Fox Story India in recognition and honor the torch-bearers of society in their Field.

13. Scholars Academic and Scientific Society (SAS Society) has recognized the contributions in academics and research and has Awarded as SAS **Fellow Membership (FSASS)** in 13th March 2023.

14. ***"Academic Excellence Award"*** 2022-2023 by the Centre for Internal Quality Assurance (CIQA), Karnataka State Open University, Mysore on 28-03-2023, Science Day Celebration at KSOU.

15. ***"C V Raman Prize 2023"*** for outstanding professional and Research Achievement in the field of Environmental Science by the Institute of Researchers, registered and recognized by the Ministry of MSME, Govt. of India, Kalpetta, Wayanad on 25-04-2023.

16. Name is cited in ***"Asian Admirable Achievers 2023"*** Rifacimento International, 11th Volume P 414.

17. ***"Dr. APJ Abdul Kalam Rashtriya Puraskar"*** award by The Global Management Council, Glacier Journal Research Foundation, Ahmadabad, Gujarat on17th August 2023.

18. Associate Member of Karnataka Science and Technology Academy (KSTA), Govt. of Karnataka, Bangalore on October 2023.

EMPLOYMENT HISTORY:

1. **Assistant Professor:** Department of Environmental Science, Karnataka State Open University, Manasagangotri, Mysore, Karnataka State, India: **October 2006-till** date .

   - Supervise 60 to 80-students programme; Institute devoted to Open Distance Learning in

     M. Sc., in Environmental Science, Certificate Programmes in Environmental Technology, Management and Solid Waste Management with Commonwealth of Learning, Vancouver, Canada collaboration: education/outreach
   - Teach graduate level courses.
   - Teach Post Graduate level courses

   Additional Responsibility: a) Project Director, National Mission on Education through Information and Communication Technology (NMEICT).

   b) **Co-Ordinator,** Virtual Laboratory, Nodal Center, KSOU, Mysore (from 19-11-2019 to 14-02-2023).

2. **Special Officer and Nodal Officer for UGC's Student Grievance Redressal Portal:** Examination Branch, Karnataka State Open University, Mysore from 16 -07-2019 to 21-01- 2020.
3. **Senior Research Fellow:** Sanctioned by Council of Scientific and Industrial Research, New Delhi, Working Place: Aquatic Microbial Ecology Research Laboratory, DoS in Zoology, University of Mysore, Manasagangotri, Mysore, Karnataka State, India: 2003

   – March, 2006.

   - Carried out research activity in the project entitled *"Spatial study of the Arkavathy and Suvarnavathy Lotic Ecosystems in Karnataka State".* Attempted to identify role of heterotrophic bacterial community in two different aquatic ecosystems and the factors controlling the important biopurification activity in lotic aquatic ecosystem and also provide technical support for the research program; manage external contracts; and conduct research on othermicrobial communities (Phytoplankton &Zooplankton).

4. **Junior Research Fellow**: Sanctioned by Department of Science & Technology, New Delhi.

   Working Place: Aquatic Microbial Ecology Research Laboratory, DoS in Zoology, University of Mysore, Manasagangotri, Mysore, Karnataka State, India: September 1999 – June, 2002.

   - Carried out research activity to understand the role of Heterotrophic bacteria, Phytoplankton and Zooplankton (microbial assemblages) in the functioning of "*microbial loop*" in the freshwater Aquatic Ecosystems.
   - Carried out Water quality analysis for two years to know the physico-chemical nature of the aquatic environment all of which probably influences the growth and physiology of microbial populations.
5. **EnvironmentalOfficer**: Bangalore Trade and Finance Corporation Distillery Unit, Hriyur, Chitradurga District, Karnataka State, India: August1998– March,1999.

   - Supervision of Primary (Anaerobic Digestion & Bio-methanization) and Secondary (Aerobic treatment by aerator and clarifier) Effluent Treatment Plant.
     - Effluent analysis (before and after treatment) for chemical parameters such as Total Volatile Acids, Chemical Oxygen Demand and maintain the efficiency in treatment process.

COURSES TAUGHT:

Environmental Sciences: Environmental Technology, Environmental Management, Solid Waste Management, Environmental Education, OSHA, and Environmental Studies

M. Sc., in Environmental Science

Microbiology: Microbial Ecology, Soil Microbiology, Environmental & Industrial Microbiology

Biotechnology: Industrial & Microbial Biotechnology.

AREA OF SPECIALIZATION:

- Aquatic Microbial Ecology
- Limnology
- Environmental pollution
- Environmental Law
- Conservation and Management
- Environmental Education
- Solid Waste Disposal and Management
- Wastewater Pollution and Solution
- Integrated Water Resource Management

RESEARCH PROJECTS COMPLETED:

- "Comparative analytical study of various types of yagna and its effect on environment with special reference to antimicrobial activity of airborne Microbes" (Co-PI), RGUHS sanctioned (2017-2019).
- Quality Enhancement in Distance Learning in Karnataka State Open University sponsored by Distance Education Council, New Delhi.
- Development of India Fact file on Open Distance Learning system (Sate wise) sponsored by Distance Education Council, New Delhi
- Spatial study of the Arkavathy and Suvarnavathy Lotic Ecosystems in Karnataka State (CSIR - Sponsored).
- Microbial Ecology of the River Cauvery and its Tributaries in Karnataka State (DST- GOI Sponsored)
- Limnological Study of Gopalaswamy Pond Chitradurga, Karnataka State (During PG)
- Extension Work – Use of pesticides and fertilizers in Shankaraghatta Village -a preliminary survey (During PG).

SCIENTIFIC PRESENTATIONS AND ABSTRASCTS PUBLISHED:

1 2000 **Harsha. T. S.** "Seasonal Study of Environmental and Microbial variables in the surface waters of Cauvery, Shimsha, Arkavathy, Suvarnavathy and Kapila rivers in Karnataka, India in National Symposium on Chronobiology held at Gulbarga University, Gulbarga, from October 13 to14,".

2 2001**Harsha.T.S.**"DeterminationofthewaterqualityoftheriverCauveryandi ts tributaries in Karnataka State, based on Specific Growth Rate of Bacterioplankton" in 42nd annual Conference of Association of Microbiologists of India (AMI), held at Gulbarga University, Gulbarga from 9th to 11th November.

3 2004 **Harsha. T. S.** "Effect of some Environmental variables on Abundance of Heterotrophic Bacteria in the surface waters of River Cauvery and its Tributaries in Karnataka State" in *XVII Annual International Conference on Recent Trends in Environmental Sciences, organized by National Environmental Science Academy, New Delhi,* from 23rd to 26th April.

4 2012., **Harsha T S** "Abundance, species composition, and distribution of Phyto and Zooplankton in river Cauvery and its four important tributaries in Karnataka State, India" in National Seminar on Algol Ecology on 3rd and 4th November 2012 held at Chennai.

5 2021., **Harsha T S** "Ozone (Conservation) – Past- PresentFuture: A Review " " in the 2 days International Conference on Promoting Environmental Technologies for Waste Management and Sustainable Development (WMSD-2021), Organized by National Environmental Science Academy (NESA), New Delhi In Collaboration with Bhubaneswar City Knowledge Innovation Cluster (BCKIC) on 12-13 December, 2021 held at Kalinga Institute of Industrial Technology, Bhubaneswar.

ORIENTATION/REFRESHER/SHORT-TERM PROGRAMME:

- Participatedin102nd UGC Sponsored Orientation Programme organized by UGC Academic Staff College, University of Mysore from 28.12.1013 to 24.01.2014 and obtained 'A' grade.
- Participated in 12th UGC Sponsored Refresher Course in Life Sciences organized by UGC- HRDC, University of Mysore from 03-11-2016 to 23.11.2016 and obtained 'A' grade.

- Participated in UGC Sponsored 1-Week Workshop on ICT organized by UGC-HRDC, University of Mysore from 07-03-2017 to 13.03.2017.
- Participated in National Workshop on Design and Development of Self Learning Materials for Distance and Online Learning (Virtual Mode), Organized by Staff Training and Research Institute of Distance Education IGNOU, New Delhi from 12-10-20 to 18-10-20.
- Participated in 14th UGC Sponsored Refresher Course in Life Sciences (Online) organized by UGC- HRDC, University of Mysore from 29-09-2021 to 12.10.2021 and obtained 'A' grade.

KEYNOTE AND SPECIAL LECTURES:

- Delivered keynote address on **, Microbial Loop: Concept and its applications in Aquatic Ecosystems"** at 5th National Conference on Natural Sciences held at Holy Cross College, Trichirapalli, Tamil Nadu in collaboration with Bose Science Society, Pudukottai, Tamil Nadu on 19th January 2016.

- Delivered key note address on **,Why Waste Water - a review. "** at One day National Seminar on **Current Issues and Challenges of Sustainable Water Resources Management (CICSWRM-2017)** on 22nd March 2017 organized by Dept. of Biotechnology, Mother Teresa Women's University, Kodaikanal-02.

- Delivered key note address on **,Environmental Clarence Procedure for Industrial Projects"** at One day Work Shop on Environmental Impact Assessment on 10th April, 2017 organized by Dept. of Civil Engineering, NMAM, Institute of Technology, Nitte.

- **Delivered Special lecture on "Challenges Forced by Development VS Environment" at** One Day Workshop for Law Students on Environmental Protection and Legal Enforcement Challenges" on 24-10-2019 Organised by Akhil Bharatiya Vidyarthi Parishad, Mysuru and District Legal Services Authority Bar Associaltion (R)Mysuru.

- Delivered Special lecture on "**Environmental Science: Concept and Importance in the Current Scenario"** at Student Induction Program" organized by University College of Engineering Technology (UCET), Vinoba Bhave University, Hazaribag, Jharkand on 20th January 2021 (Online).

- Delivered Special lecture on "**Effect of Emissions on Environment"** at TEQIP- III Sponsored 5-days Online Course on Advancement in the use of Alternative fuels in IC Engine organized by University College of Engineering Technology (UCET), Vinoba Bhave University, Hazaribag, Jharkand from 01st to 5th February 2021.

- Delivered Special lecture on "**E-waste Management in India"** at TEQIP-III Sponsored Two-week Virtual Short term course on "Research Trends in Electronics and Communication Engineering -2021" organized by Department of Electronics and Communication Engineering, University College of Engineering Technology (UCET), Vinoba Bhave University, Hazaribag, Jharkand from 8th to 19th February 2021.

- Delivered a talk on **"Reimagine, Recreate and Restoration of Ecosystem"** in "Higher Education Summit-2021(Online), Organized by International Institute of Technical Teachers (IITT), Dehradun, India on 25th May 2021.

- Delivered Special talk on **"Reimagine, Recreate and Restoration of Ecosystem"** on World Environmental Day Celebration organized by Environment and Conservation Cell and Dept. of Biotechnology, Mother Teresa Women's University, Kodaikanal-02

- Delivered Special Lecture on "**Effect of Emissions on Environment"** at AICTE Training and Learning Academy Online Elementary FDP on Alternative fuels in IC Engine organized by University College of Engineering Technology (UCET), Vinoba Bhave University, Hazaribag, Jharkand from 2nd 6th August, 2021.
- Delivered a Invited Talk on "**Microbial Loop: Concept and its applications in Aquatic Ecosystems"**

- Delivered a talk on ***"Challenges in Biomedical Waste Management: Pollution V/S Solutions",*** on 5th June 2003, the occasion of World Environmental Day Celebration Organized by Dept of Health System Management Studies, JSSAHER, Mysore.

WORKSHOPS/CONFERENCES ATTENDED:

- Two days Seminar on "*Biodiversity and Conservation*" on 26th and 27th March 1997, Sahyadri College, Shimoga.
- Two days National symposium on "Chronobiology" on 13 and 14 October 2000, organized by Department of Zoology, Gulbarga University, Gulbarga.

- One day Workshop on "Livestock and Environment" on 30th March 2001, organized by Department of Environmental Science, Bangalore University, Bangalore,
- National Workshop on"*Methods in Limnology*" on 16th to 22nd November 2003, at RKM, Vivekananda College, Chennai.
- National Workshop on "*Zooplankton*" from 5th to 10th July 2004, at the New College, Chennai.
- One day workshop on "*Personality Development at the International Leadership Institute of M/s. Infosys, Mysore"* on 15th February 2006, organized by the UGC- Academic Staff College, University of Mysore, Manasagangotri, Mysore.
- One day workshop on "*Recent Applications of Remote Sensing & GIS"* on 4th April 2006, at Department of Studies in Geology, University of Mysore, Manasagangotri, Mysore.
- National Conference on *"Quality Assurance in ODL Institutions"* on 3rd to 5th March 2007 at Karnataka State Open University, Mysore
- National Workshop on *"Research & Training in Distance Education"* from 19th to 21st August 2007, at BRAOU, Hyderabad organized by Staff Training & Research in Distance Education (STRIDE), IGNOU, New Delhi.
- One day Workshop on "*Production of Audio Lesson*" on 15th July 2008, organized by Karnataka State Open University, Mysore
- Six Days Workshop on "Basic *Audio-Video Production*" from 3rd November to 8th November, 2008, organized by Karnataka State Open University, Mysore in collaboration withElectronic MediaProduction Centre (EMPC),IGNOU,New Delhi.

- Seminar-cum -workshop on advancing ESD in Teacher Education from 19th to 21st March, 2009, at RV Teachers College, Bangalore organized by Centre for Environmental Education (CEE) Bangalore in collaboration with teacher training colleges in Bangalore and with support from NCTE, Bangalore.
- One day Workshop on "*Water and Waste Treatment*" on 9th May 2009, organized by Association of Consulting Civil Engineers (India), Mysore
- Orientation Programme on "Distance Education –New Trends" on 21 and 22 May, 2009, at Karnataka State Open University, Mysore organized by Distance Education Council, New Delhi and KSOU, Mysore.
- Three days Training on " Audio-Visual Learning Aid Development" held from 12th to 14th June 2010, at Electronic Multi Media Research Centre(EMMRC) , Mysore organized by Karnataka State Open University,
  Mysore
- One day National Conference on "*Information Literacy and Higher Education in Digital Environment*" held on 30th March 2011, organized by the Dept. of Studies in Library and Information Science, Karnataka State Open University, Mysore.
- Two days workshop on Development of Self Learning Material held on 2nd and 3rd June 2011, Organized by Karnataka State Open University, Mysore.
- Three Days International Conference on "*Open Distance Learning in Global environment: issues and challenges*" from September 21-23, 2011, Organized by Karnataka State Open University, Mysore.
- Two days' workshop on Development of Self Learning Material held on 7th and 8th October 2013, Organized by Karnataka State Open University, Mysore.
- One day workshop on "*Technology in Higher Education*" organized by University of Mysore in association with Karnataka Jnana Aayoga, Govt. of Karnataka on 7th Feb, 2015 at Sente Bhavan, University of Mysore, Mysore.

- Two days Regional Knowledge Conclave in South India for Colleges and Universities, Mysuru, held on September 6 and 7th, 2018, organized by Centre for Science and Environment (CSE), New Delhi.
- One day workshop on "Choice Based Credit System" held on 19th July 2019, Organized by Karnataka State Open University, Mysore.
- One-week National Workshop on Design and Development of Self Learning Materials for Distance and Online Learning

RESPONSIBILITIES CARRIED OUT TILL DATE:

- Served as Chairman, Dept of Environmental Science, KSOU from Feb 17th, 2015- Feb 16th 2017.
- Worked as Co-ordinator for Faculty Development Programme for UG teachers in the subjects Biochemistry, Biotechnology and Microbiology in KSOU funded by VGST, DST, GOK, Bangalore
- Written Self Learning Material for Environmental Studies/Sciences, Environmental Microbiology, Environmental Biotechnologyand Nutrition and Health Education.
- Worked as Chief Superintendent for PG/UG/Diploma/Certificate Examinations of Karnataka State Open University.
- Worked as Coordinator for Evaluation of PG/UG/Diploma/Certificate Examinations of Karnataka State Open University.
- Delivered many special lectures in universities, colleges and schools on Environmental issues.
- Served as Joint-secretary, Association of Microbiologist of India-Mysore Chapter, CFTRI for the year2013-14
- Served as secretary, Association of Microbiologist of India-Mysore Chapter, CFTRI for the year 2014-16.
- Served as Special Officer in the Examination Branch and Nodal Officer for UGC- Students Grievance Portal from 16 -07-2019 to 21-01-2020.

ADVISORY BOARD MEMBER:

1. **BIOINFO -Environment and Pollution Journal**
2. **BIOINFO- Aquatic Ecosystem**
3. **Glacier Journal Research Foundation, Ahmadabad, Gujarat**
4. **Edwin Group of Journals, Madhya Pradesh, India**

M.SC., DISSERTATION EVALUATOR:

1. **Department of Environmental Sciences, University of Agricultural Sciences, Bangalore**

PH.D THESIS ADJUDICATOR:

1. **Madras University, Chennai.**
2. **Mother Theresa University, Kodaikanal.**

VISITING FELLOW:

- JSS ACADEMY OF HIGHER EDUCATION AND RESEARCH, SRI SHIVARATHREESHWARA NAGARA, MYSORE
- PBMMPGC, KRS ROAD, MYSORE

MEMBERSHIP (IN SCIENTIFIC ORGANIZATION):

SECRETARY: ASSOCIATIONOFMICROBIOLOGISTOFINDIA-MYSORECHAPTER FOR THE YEAR 2014-2016

1}. Life Member, National Environmental Sciences Academy, New Delhi
2} Life Member, Indian Science Congress Association, Kolkata.
3}.Life Member, Indian Association for Aquatic Biologists, Hyderabad, AP
4}.Life Member, Association of Microbiologist of India, New Delhi
5}. Associate Member, Krishnamurthy Institute of Algology, Chennai, Tamil Nadu
6} Associate Member, Karnataka Science and Technology Academy, GOK, Bangalore.

ACADEMIC MEMBERSHIP:

1}. **Member**, Doctoral Committee in Environmental Sciences, JSSAHER, Mysore

2}. **External Member** (Expert in ODL),CIQA, JSSAHER, Mysore

3}. **Member**, Board of Examination in Environmental Sciences, Yuvarajal's College, Mysore

4}. **Expert Member**, Dept. Of Biotechnology, Mother Teresa Women's University, Kodaikanal

5} **External Expert Member** (Subject), Research Advisory Committee, JSSAHER, Mysore

OTHERS:

- Good working knowledge of modern computing facilities, viz. most of the Word processing packages, graphic packages like Sigma Plot (Jendel, USA), Corel Draw 12 and Statistical packages like SPSS. 12.05 (Statistical Package for Social Sciences, Chicago, USA), etc.

(T S Harsha)

Citation. Metrics…impact factor

ಹೊಸ ಚಿಗುರು ಹಳೆ ಬೇರು ಕೂಡಿರಲು ಮರಸೊಬಗು ।
ಹೊಸಯುಕ್ತಿ ಹಳೆತತ್ತ್ವದೊಡಗೂಡೆ ಧರ್ಮ ॥
ಋಷಿವಾಕ್ಯದೊಡನೆ ವಿಜ್ಞಾನ ಕಲೆ ಮೇಳವಿಸೆ ।
ಜಸವು ಜನಜೀವನಕೆ –ಮಂಕುತಿಮ್ಮ ॥ (೫೨೨)

ಹೊಸದಾಗಿ ಚಿಗುರು ಬರುವುದು ಹಳೆಯ ಬೇರಿನಿಂದಲೇ ಅಲ್ಲವೇ? ಅದರಿಂದಲೇ ಗಿಡ, ಮರ ಸೊಗಸಾಗಿ ಕಾಣುತ್ತದೆ. ಹಾಗೆಯೇ ನಮ್ಮಲ್ಲಿ ಬುದ್ಧಿಶಕ್ತಿ ಬೆಳೆದು ಅದರ ಹರಹು ವಿಸ್ತಾರವಾಗುತ್ತಿದೆ. ಜನರು ತಿಳಿದುಕೊಳ್ಳಬೇಕಾದ ಸಂಗತಿಗಳೂ, ಹೊಸದಾಗಿ ವಿಮರ್ಶಿಸಬೇಕಾದ ಸೂಕ್ಷ್ಮಗಳೂ, ಹೊಸದಾಗಿ ಪರಿಹರಿಸಬೇಕಾದ ಸಮಸ್ಯೆಗಳೂ ದಿನೇ ದಿನೇ ಹೆಚ್ಚಾಗುತ್ತಿದೆ. ಹೀಗೆ ನಮ್ಮ ಆಂತರಂಗಜೀವಿತದ ಮೂಲ ವಿಚಾರಗಳು ಸಾರ್ವಕಾಲಿಕವಾದವು. ಅವು ಎಷ್ಟೇ ಪುರಾತನವೋ ಅಷ್ಟೇ ನೂತನವೂ ಹೌದು. ಅದನ್ನು ಕುರಿತ ಪ್ರಾಚೀನದೃಷ್ಟಿಯನ್ನು ಅಧುನಿಕದೃಷ್ಟಿಯೊಡನೆ ಸಮನ್ವಯಗೊಳಿಸುವುದೇ ನಮಗಿರುವ ಕರ್ತವ್ಯ. ಋಷಿವಾಕ್ಯ ಹೇಳುವ ಹಳೆಯ ತತ್ತ್ವದೊಡನೆ ನಮ್ಮ ಹೊಸ ಯುಕ್ತಿಗಳು ಕಲ್ಪಿಸಿರುವ ವಿಜ್ಞಾನಕಲೆ ಮುಂತಾದವುಗಳೊಡನೆ ಸಮನ್ವಯಗೊಳಿಸಿ ಈಗಿನ ಧರ್ಮವನ್ನು ನಾವು ನಿರ್ಣಯಿಸಿಕೊಳ್ಳಬೇಕು. ಇದರಿಂದ ಜನಜೀವನಕ್ಕೆ ಒಳ್ಳೆಯದಾಗುತ್ತದೆ. ಯಶಸ್ಸು ಬರುತ್ತದೆ.

ಕೃಪೆ: ಮಂಕುತಿಮ್ಮನ ಕಗ್ಗ ತಾತ್ಪರ್ಯ – ಪ್ರೀಕಾಂತ್. ಕಗ್ಗಕ್ಕೊಂದು ಕೈಪಿಡಿ – ಡಿ.ಆರ್.ವೆಂಕಟರಮಣಸ್ http://totaryaggu.blogspot.com

Emerging trends in Research

- Writing Skills in research articles.
- Selection of Journals
- Appropriate title
- Language Editing
- Plagiarism
- Time period
- API
- CAS

Introduction

- A naturalist's life would be happy one if he had only to observe and never to write (Charles Darwin)
- In science, no matter how spectacular the results are, the work is not completed until the results are published.
- Let's explore the main steps from rough manuscript to published paper.

Contents

From an idea

by way of rules

to the published paper

- kinds of scientific written communication
- scientific writing in general
- IMRaD format
- paper organization
- paper writing
- paper submission
- the editing process
- proof-reading
- … and pointers to reading

Scientific written communication

- Reports
- Theses or dissertations
- Journal articles
- Books and book chapters
- Technical manuals/users guides
- Research or grant proposals
- Slide presentations
- Posters

Scientific writing in general

- Subject
- Purpose
  - to exchange the scientific/academic knowledge
  - to ask and answer specific questions
- Audience
  - scientists and those interested in the subject
  - a publisher or an editor

”IMRaD” format

- Introduction
- Methods
- Results and
- Discussion

- What problem was studied? What others and you did? Your study area.
- How do you did it?
- What did you find out?
- What do your findings mean?... Combine /conclusion/summary and future plans

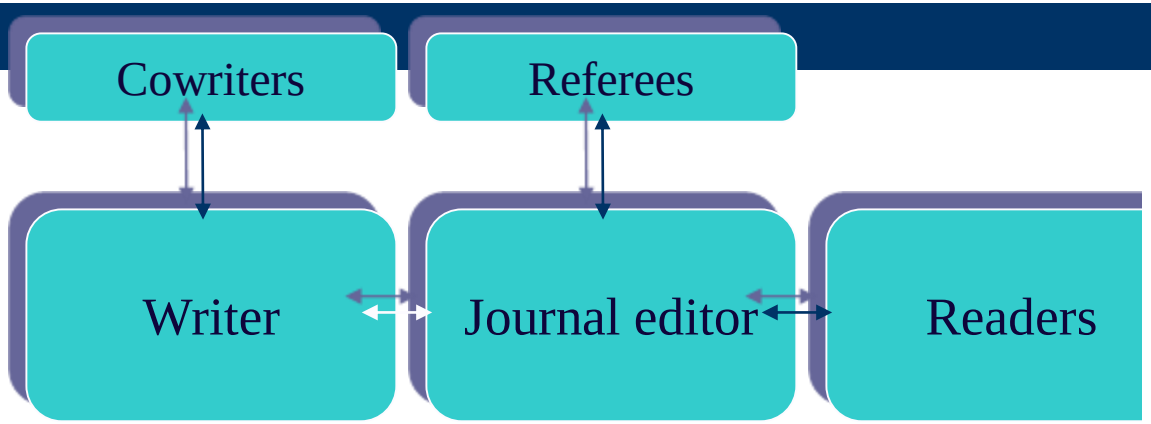
Other types of journal papers

- Review
- Technical note
- Letter to the editor
- State-of-the-Art
- Short Communication

Example of other types of articles, including technical notes or data briefs:

- https://www.agu.org/publications

Steps in scientific journal writing



"Welcome to the co-author's party!
You're number twenty-one!"

Paper organization

- Introduction
  - call attention to the specific subject, define the problem
  - provide background and present the results of other studies (literature review)
  - list the structure of your research project and what you plan to present in your paper

Reading a scientific article isn't the same as reading a detective story. We want to know from the start that the butler did it (Ratnoff, 1981)

Paper organization

- Methods
  - complete information of materials and methods used, conditions present, actions, experimental design, etc.
  - this section usually has subheadings; when possible match those to be used in Results
  - enough information must be given so that the models/experiments can be reproduced
  - ask a colleague if he/she can follow the methodology

Paper organization

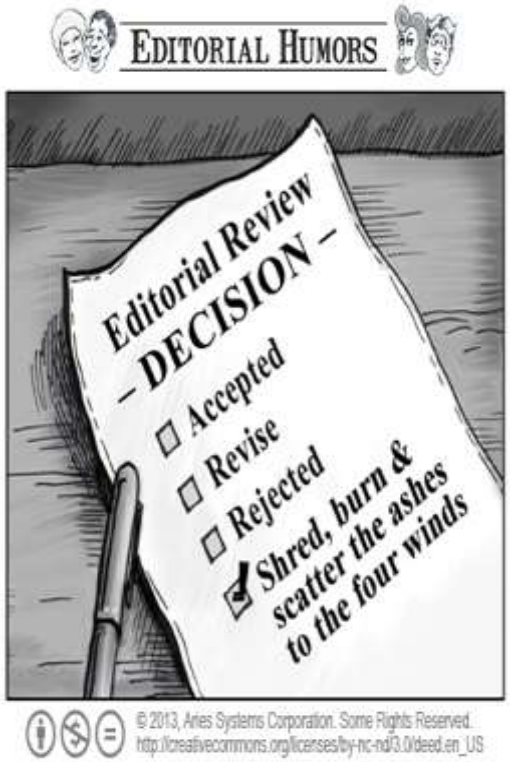
- Results
  - display of data with logical development showing how your findings satisfy your objectives
  - where possible give illustrative examples and compare those with known results from literature
  - use tables and figures
  - *the fool collects facts; the wise man selects them* (J. W. Powell, 1888)

Paper organization

- Discussion
  - the hardest section to write
  - discuss, without just repeating the Results
  - show the relationship among observed facts

- Conclusion or Summary
  - state your conclusion(s) as clearly as possible
  - summarize evidence for each conclusion
  - end with a short statement regarding the significance of your work

A rough draft perhaps but ….



© 2013, Aries Systems Corporation. Some Rights Reserved.
http://creativecommons.org/licenses/by-nc-nd/3.0/deed.en_US

- Will you have co-authors?
- Which journal to submit your manuscript?
- How soon will it be published?
- How to deal with editors?

Journals - Publishers

- Professional societies
  - AAG
  - AGU
  - URISA
  - ESA
  - AFS
- Professional publishers
  - Elsevier
  - Pergamon Press
  - Springer Verlag
  - J Wiley & Sons
  - Kluwer Academic Publishing
  - Blackwell
  - Taylor & Francis
  - Academic Press

Where to submit the manuscript

- The prestige factor
- The circulation factor
- The frequency factor
- The audience factor
- What is the publisher's practice w/libraries?
  - Will they have access to the journal for reasonable price???

Journal Citation Reports

- jcrweb.com

Information for New Users

Welcome to the Journal Citation Reports on the Web (JCR Web). JCR Web provides easy access to data that helps you evaluate and compare scholarly journals. Please read the overview sections (see the Table of Contents on the left) for information about what the JCR is and how it can be used.

Refer to the JCR Home Page help for information on selecting a database and a query option.

The JCR Web, like the JCR on CD product, is an essential, comprehensive, and unique resource tool for journal evaluation, using citation data drawn from over 8,400 journals from over 3,000 publishers worldwide.

The JCR is the *only* source of citation data on journals, and includes virtually all specialties in the areas of science, technology, and social sciences. The JCR can show you the:

- highest impact journals
- most frequently used journals
- hottest journals
- largest journals

Please refer to the Using the JCR to Find... section in the Table of Contents on the left for a list of tasks you can perform using JCR Web.

Please refer to the JCR Web Pages section of the Table of Contents on the left for a list and a flowchart of the web pages at this site.

Note: JCR Web is best viewed at a display resolution of 800 x 600 or higher.

Documentation version 1.0

Paper writing

- Write a rough outline first, fill it in
- A rough draft is ready
- Select the journal and read Instructions to Authors (manuscript requirements: style in headings, the system for citations, figures and tables, etc.)
- Write the final manuscript
- Write or refine your abstract
- Carefully choose keywords (increases success with e-databases and search engines)

The final draft

- **Front Matter**
  - Title (fewest possible words that describe the contents)
  - Author's (co-authors) name and address
  - Abstract (miniversion of the paper, no citations)
  - Keywords
- **Article Body (IMRaD)**
  - Introduction
  - Methods
  - Results
  - Discussion/Conclusion
- **End Matter**
  - Acknowledgment (technical help and financial assistance)
  - References (EndNote has style guides)
  - Appendices

Abstracts

- Descriptive abstract
  - or topical abstract, describes the contents but contains too little substance and detail
- Informative abstract
  - self-explanatory report on a scientific investigation (research objectives for conducting the investigation, the basic method used, and the results and significant conclusions) - 200 to 250 words
- Extended abstract (conference proceedings)
- Don’t ignore those keywords!

Ethics of scientific writing

- Avoid dual publication
- Don’t use the work of others without appropriate attribution
- List only those co-authors who contributed substantially to the work

Final submission

- In-house reviews required?
- Submit the paper to the journal's editor (only to one journal)
  - Hard-copy of manuscript (usually three or more copies)
  - Disk of the same version
    - Text: Word, Word Perfect, TeX/LaTeX, etc.
    - Figures: tif, gif, postscript, etc
  - E-Journal submission

Checklist for referees

Studies in Earth Science
CONFIDENTIAL REVIEWER'S REPORT

1. Is the subject of the paper consistent with the scope of the journal?	YES	NO
2. As far as you know, has this material been published before in English?	YES	NO
3. Does the scientific content justify the space it will occupy?	YES	NO
4. Can any parts of the paper be shortened or omitted without loss of scientific content?	YES	NO
5. Are any errors of fact or logic contained?	YES	NO
6. Are all figures necessary?	YES	NO
7. If the paper contains graphs and tables based on the same data, is it necessary to include both?	YES	NO
8. Does the abstract (normally 50-150 words) bring out the main points of the paper?	YES	NO
9. Is the title suitable and adequate?	YES	NO
10. Are the literature references adequate?	YES	NO
11. What is your overall recommendation?	YES	NO

____ PUBLISH AS SUBMITTED ____ DO NOT PUBLISH

____ PUBLISH WITH MAJOR REVISION ____ PUBLISH WITH MINOR REVISION

COMMENTS: Please use a separate sheet to expand on the above and to suggest changes that you feel would improve the manuscript, in particluar with regard to its length.

Why This Topic?

- Research budgets are shrinking everywhere.
- Researchers are being forced to seek external funding
- But writing a good research grant proposal is not easy.
- To help you gain insight into the way decision-makers assess and evaluate research proposals.

Grants: *Some Basics*

- Grants are sums of money awarded to finance particular activities and not to be paid back.
- It is important to understand the goals of the funding bodies and their grant programs.
- Decisions are made on the applicant's ability to fit the proposed research activities to the interests of the funding body.

Current Funding Opportunities

Funding available for India collaborative research projects:

- ICSSR
- DBT
- DST-SERB
- CSIR
- UGC
- ICMR
- ICPR (Indian Council of Philosophical Research)
- MHRD
- MOEF&CC
- VGST

……many more

Seek answers to the following questions:

- What are the current trends?
- What are the current limitations and restrictions?
- What subject areas were awarded funding recently?
- What are the future plans of the funder?
- Who are the decision-makers/assessors?
- What review processes do they follow?
- What are the deadlines for submission?
- How long will the process take?
- What is the proper way to approach them?
- How many people apply each year and what percentage get grants?
- Most answers can be found on the funding body's website, research guide, annual report & future plans.

Some points to remember

- Funding bodies look for good researchers.
- Think of them as potential investors in you and your ideas.
- You must ‘sell’ your idea: Be enthusiastic about the work!
- Why should they give a grant? See it from the funder’s point of view.
- Remember that you are NOT begging.
- You have ideas, they have money.

- You and the funders are both professionals coming together for a specific purpose.
- Get to know relevant people in the funding body.
- Get help of finance office on matters relating to staff costs, travel, overheads etc.
- Seek professional advice on confidentiality, possible restrictions on publications, liabilities and disputes etc.

Approaching the Proposal

Always remember:

- Your case will be read by one or two experts in your field but others in the judgement panel won't be experts. *You must write for their benefit too.*
- Ask lots of people to help you improve your proposal.
- Make sure the first page acts as a *stand-alone* summary of the entire proposal.

Major Criteria: *Questions to be Answered*

- What the objectives of the project?
- What will be the outcomes?
- Does the proposal address a well-formulated problem?
- Is it a research problem or just a routine application of a known technique?
- Is it an important problem, whose solution will have useful effects?
- Is special funding necessary to solve the problem or to solve it quickly enough?
- Do the proposers have a good idea on which to base their work?
- Does the proposal explain clearly what work will be done?
- Is there evidence that the proposers know about relevant work that others have done?
- Do the proposers have a good track record, both of doing good research and of publishing it?
- What are the implications for policy and practice? How will these be taken up?

Secondary Criteria

- An applicant with existing funding may be favoured due to evidence of a good track record.
- Also priority is given to new researchers in the field.
- Funders generally prefer to offer a reasonable balance of support for different research areas.
- Evidence of industrial interest in the proposal and its potential for future exploitation will count in favour.

Common Shortcomings

- It is not clear which research questions are being addressed by the proposal.
- The questions being addressed are ill-formed.
- It is not clear why the questions are worth addressing.
- The proposal is just a routine application of a known technique.
- Industry ought to be doing it instead.
- There is no evidence that the proposers will succeed where others have failed.
- A new idea is claimed but insufficient technical details are given.
- The proposers seem unaware of related research.
- The proposed research has already been done.
- The proposal is badly presented or incomprehensible.
- The proposers seem to be attempting too much for the funding requested and/or the time-scale envisaged.
- The proposal is too expensive for the probable gain.
- The proposers institution should be funding it.

Writing Grant Application - Formal Structure

Essential Contents:

- Statement of the problem.
- Summary of current developments in the field.
- Statement of what is new about the project.
- Indication of the extent to which the research builds on previous work by you and by others?
- In certain cases, assurance that you are aware of existing work in the field despite no exhaustive literature review being available.

Methods: *Questions to be answered*

- What methods will be applied to achieve the aims? *The methodology must be described in detail and clearly related to the research questions.*
- Are the chosen methods sufficiently rigorous to produce clear answers?
- What is the timetable? *This must be realistic.*

Ethical Aspects

- Make sure your proposal addresses relevant ethical considerations.

Evaluation

- How will you measure the success of your project?
- Distinguish between monitoring & evaluation. *Monitoring is part of the project management while evaluation is formal assessment of the outcome of a project.*

Dissemination: *Questions to be answered*

- What audience should be targeted to achieve the maximum impact?
- How might this audience best be reached?
- What is the budget for dissemination?

Personnel

- Explain the staffing requirements in detail and ensure that this make sense.
- It is essential to provide brief details of the relevant qualifications and experience of the staff.
- To minimise expenses, the plan should include the phasing out of staff whenever their tasks are completed.

Budget

- The application should include an itemised budget setting out the costs year by year.
- A cost justification for each item should be given.
- The budget should be exhaustive.
- If additional funding from other sources is sought then this should be made clear.

Timing

- The individual tasks should be sequenced logically and allocated realistic durations.
- Detailed reasoning should be given for the task sequence and durations.

Revising Your Proposal

- Seek regular feedback from readers as soon as possible during the development of the proposal, allowing time to receive responses.
- Bear in mind that strong grant proposals take a long time to develop, so plan well ahead to ensure meeting the deadline.

Some Advice

- Do not feel ashamed or embarrassed about asking for money or promoting yourself.
- If you never ask for the money, it will never be offered.
- If at first you don’t succeed, try and try again.
- Learn from feedback regarding a rejected proposal.
- Be positive!

Success in getting Project

- Inter- departmental collaboration
- Inter- disciplinary collaboration
- Inter- Institute collaboration
- Inter- University collaboration
- Industrial –University collaboration
- Institutional Funding
- International collaboration

Good luck with your research proposals!

Thank you.

St. Philomena's College (Autonomous)
Bannimantap, Mysore

6 - Day Faculty Development Programme on
"Empowering Educators: Advanced Research Methodologies and Strategies for High-Impact Publications"

an IQAC initiative

Prof. Dr. G.S. Premakumara,
Professor of Economics,
PG Centre, Mandya

09 January 2025

Day 4
"Research Methodology and Design"

INSTITUTION'S INNOVATION COUNCIL

CV of Dr. Premakumara, G.S.
Professor of Economics, Dept of Economics
Sir M.V. PG Centre, University of Mysore, Mandya

Working since 1999…….

Awards and Works:

1. UGC Research Award 2012-14, New Delhi
2. IUC Associate, IIAS Shimla 2014-16
3. Best Paper Award in International Conference at Jaipur 2013
4. Highly Commanded Paper Award in International Conference at Chiang Mai, Thailand 2014
5. Best Researcher in Applied Econometrics by University of Mysore 2017
6. Association with Indian Institute of Science (IISc) Bangalore
7. Association with Indian Association for Canadian Studies
8. Association with Chiang Mai University, Chiang Mai, Thailand
9. GOK honor for best of works 2012
10. Member, Planning Commission of India Chair, UOM
11. Principal Investigator, ICSSR, Major Project
12. Worked for WRI (Washington DC) on 'Clean Energy Project'

Ph.D:

- Awarded Ph.D for working on 'Power Sector Reforms'
- Successfully guided for 13 scholars for their Ph.D award
- Successfully guided for 18 scholars for their M.Phil award

Books:

- Power Sector Restructuring and Reforms in Karnataka (Germany)
- Gender Mainstreaming (USA)
- Dictionary of Economics and Commerce (Mysore)
- Commercial Banks (Mysore)

Research Articles and Conferences:

- In Journals: 78+3
- In Edited Books: 19+2
- International Conferences: 38
- National Seminars and Conferences: 100+

Special Lectures:

- 100+ talks were delivered on research, econometrics, current issues at various institutions in India and abroad

Capabilities:

- Expert in Data Analysis
- Expert in Model Building and Interpretation of Results
- Expert in Handling Software; SPSS, E-Views, Gretl and others

Parametric and Non-Parametric Techniques for Research Analysis

Presentation

Basic Idea of Research

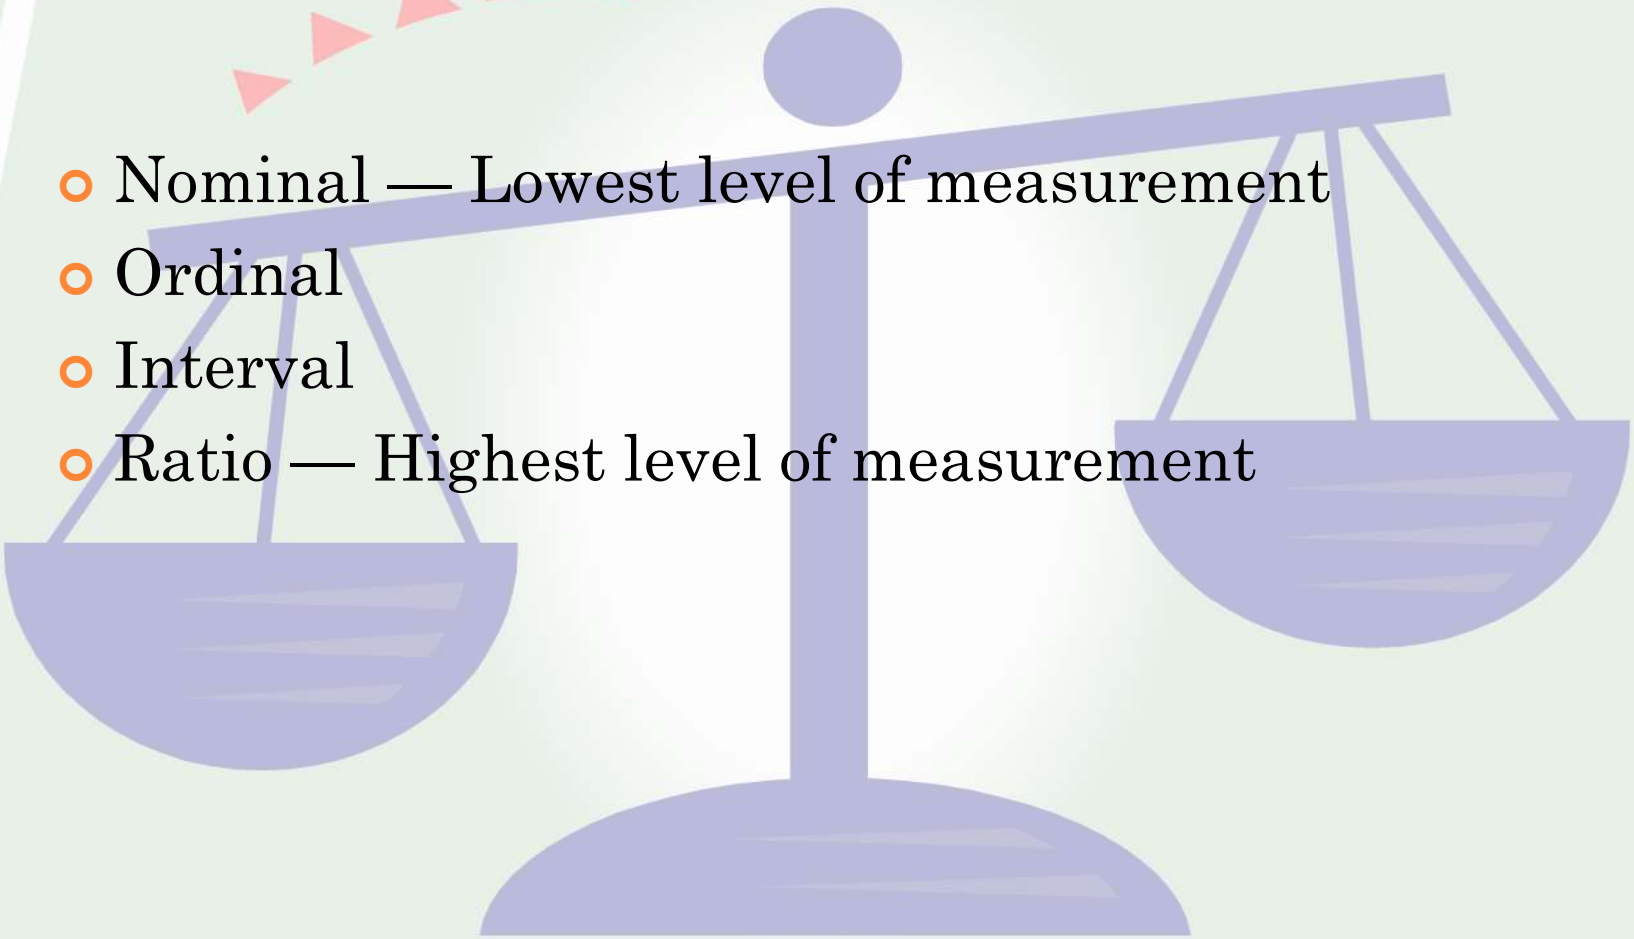
- Proving or Disproving an argument
- How to Prove?.....Proof…!

- Two types of proofs in research
- 1. Previous research works
- 2. Data……..

- What data?....Sources of Data, Types of Data, Properties of Data or **Scale of Data**
- Sufficiency of Data: Adequacy

Data Analytics:
Data - Knowledge – Decision Making

Levels of Data Measurement



- Nominal — Lowest level of measurement
- Ordinal
- Interval
- Ratio — Highest level of measurement

Nominal Level Data

- Numbers are used to classify or categorize

  Example: Employment Classification

  - 1 for Educator
  - 2 for Construction Worker
  - 3 for Manufacturing Worker

  Example: Ethnicity

  - 1 for African-American
  - 2 for Anglo-American
  - 3 for Hispanic-American
  - 4 for Oriental-American

Ordinal Level Data

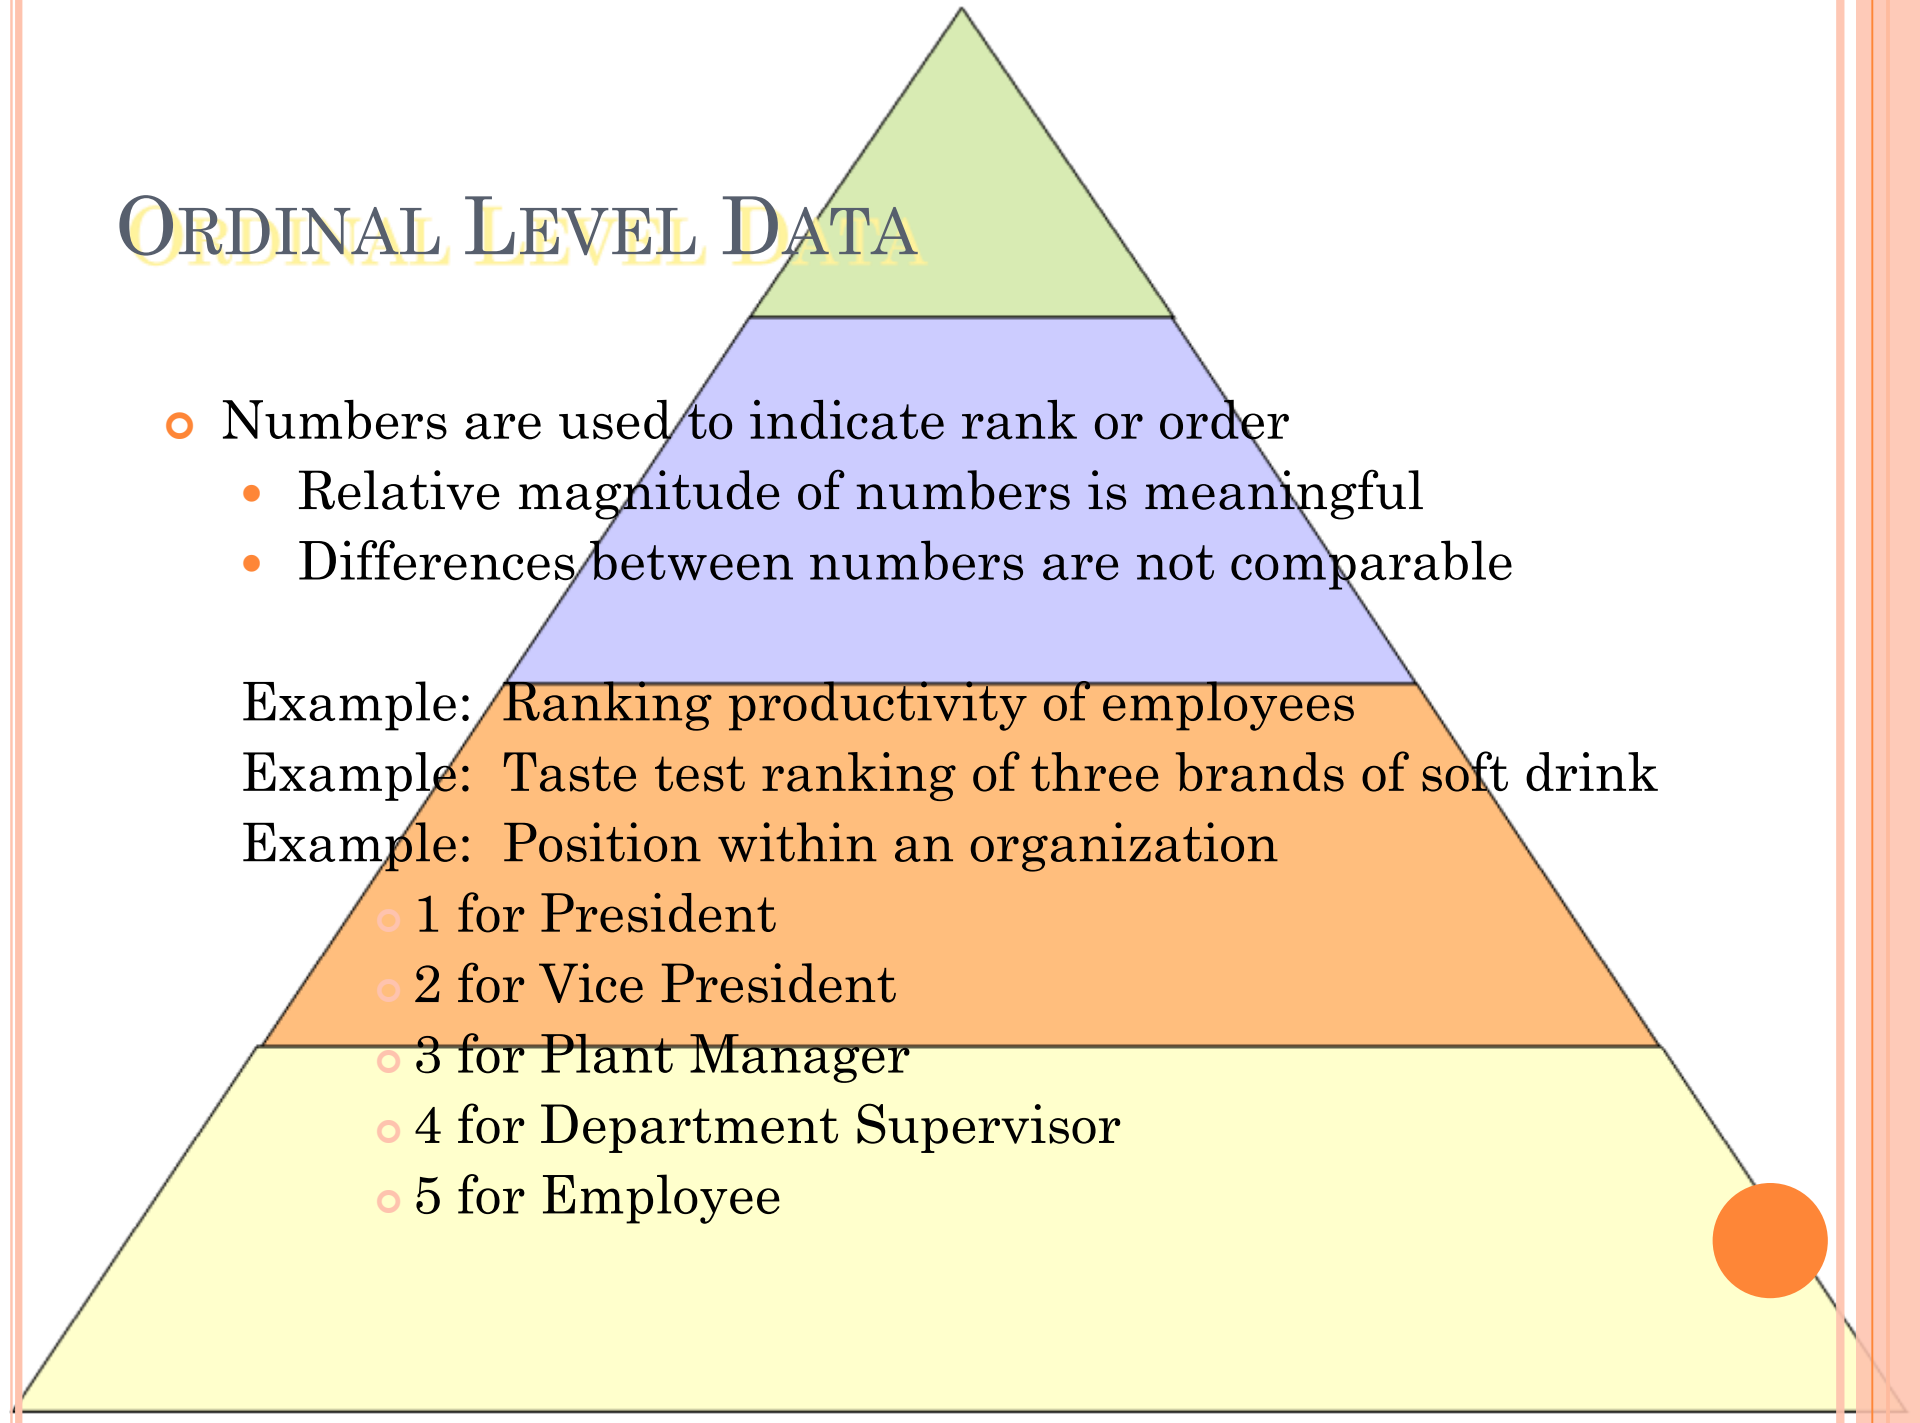
- Numbers are used to indicate rank or order
  - Relative magnitude of numbers is meaningful
  - Differences between numbers are not comparable

Example: Ranking productivity of employees

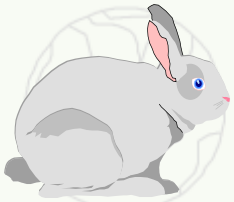
Example: Taste test ranking of three brands of soft drink

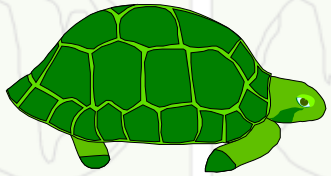
Example: Position within an organization

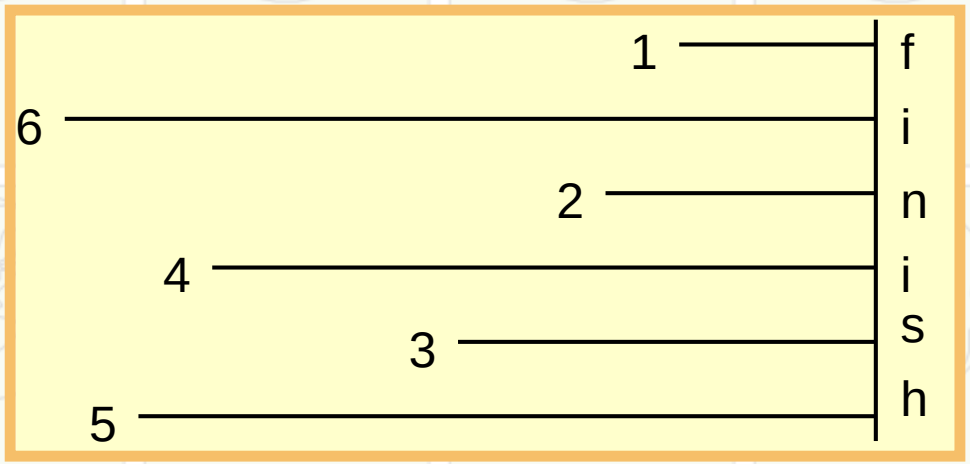
- 1 for President
- 2 for Vice President
- 3 for Plant Manager
- 4 for Department Supervisor
- 5 for Employee



Example of Ordinal Measurement

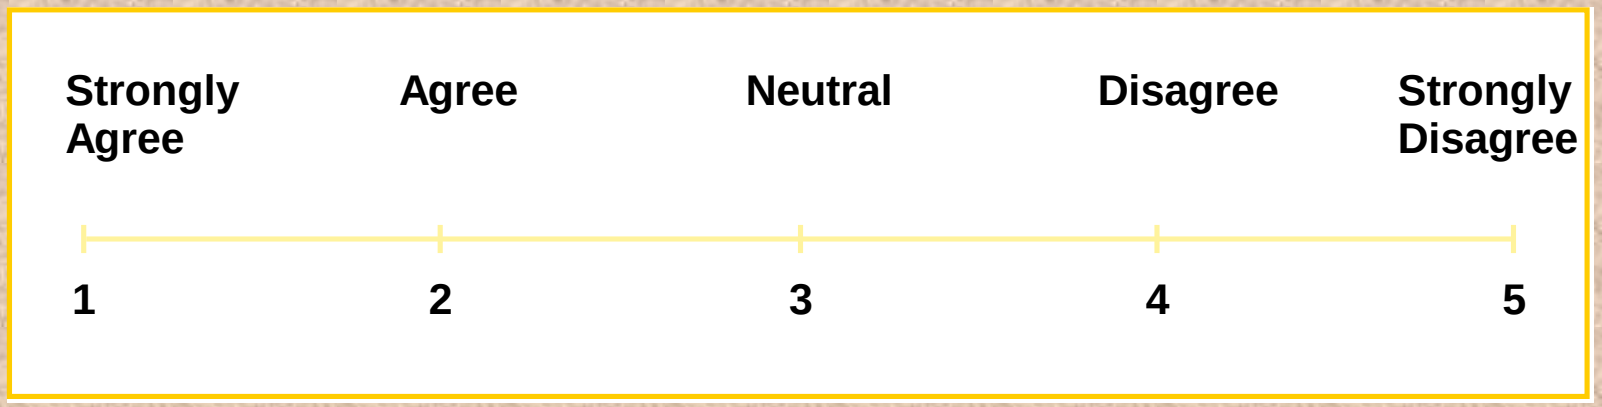






Ordinal Data

Faculty and staff should receive preferential treatment for parking space.



Interval Level Data

- Distances between consecutive integers are equal
  - Relative magnitude of numbers is meaningful
  - Differences between numbers are comparable
  - Location of origin, zero, is arbitrary

Example: Fahrenheit Temperature

Example: Calendar Time

Ratio Level Data

- Highest level of measurement
  - Relative magnitude of numbers is meaningful
  - Differences between numbers are comparable
  - Location of origin, zero, is absolute (natural)

Examples: Height, Weight, and Volume

Example: Monetary Variables, such as Profit and Loss, Revenues, and Expenses

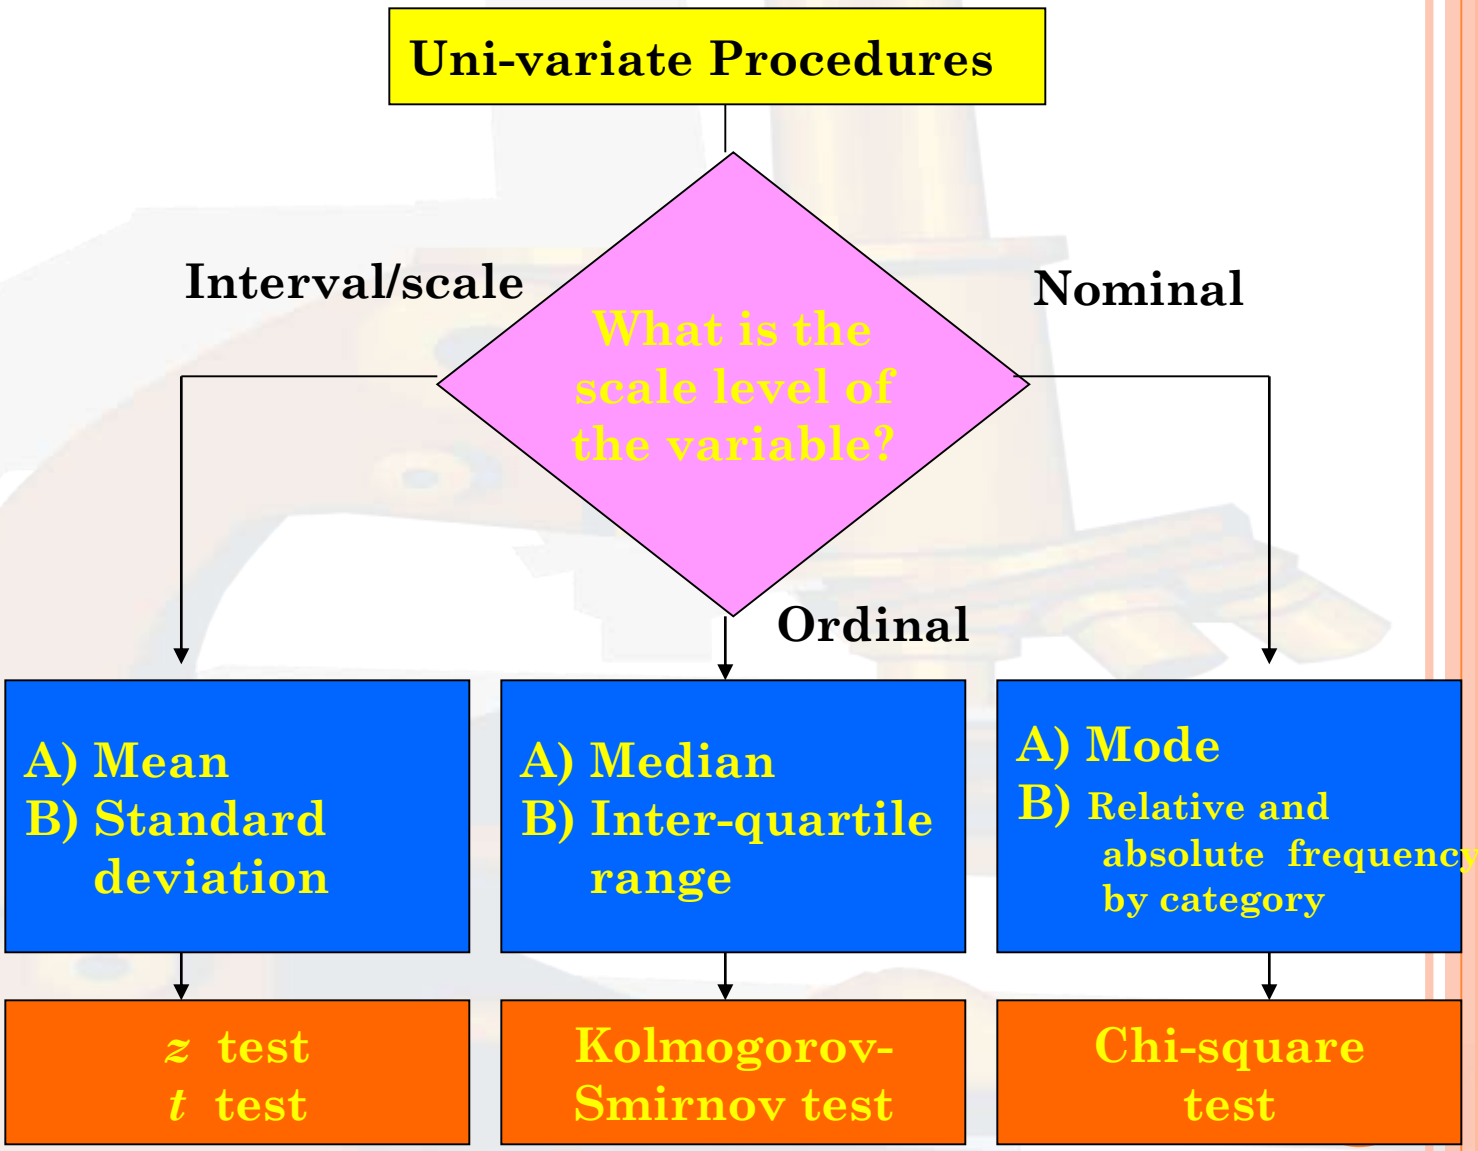
Example: Financial ratios, such as P/E Ratio, Inventory Turnover, and Quick Ratio.

Is data sufficient for giving proofs

- Two types of empirical analyses
- 1. Descriptive Analysis
  - Presents status of phenomenon ---- what is what
  - - Descriptive statistics…
  - …….Mean, Deviation, Correlation, Index……
- 2. Analytical Analysis
  - Gives tested proof for arguments……..
  - - Inferential statistics…..
  - **Mean difference,** Relations, Impacts, Processes, Associations and distributions
  - It also includes econometric analysis

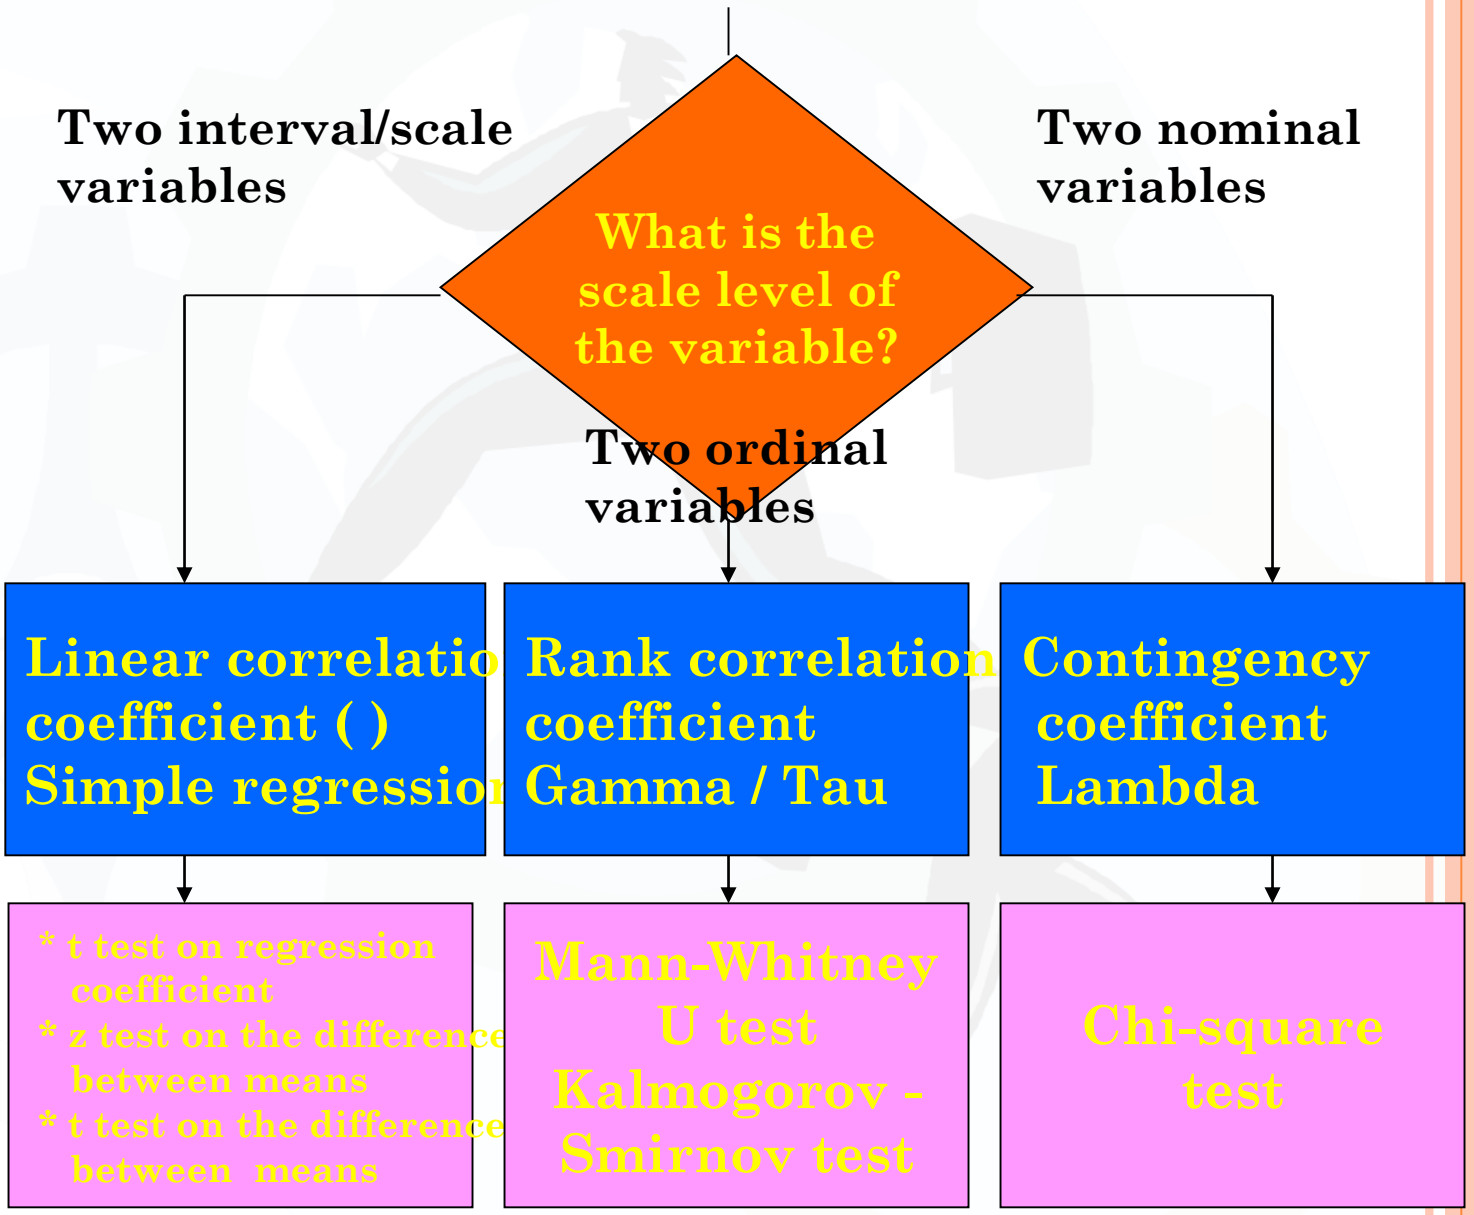
  - Each has many tests and these are basis for formulation of hypotheses

OVERVIEW OF UNIVARIATE DATA ANALYSIS PROCEDURES



1. Descriptive
   a) Central tendency
   b) Dispersion
2. Inferential

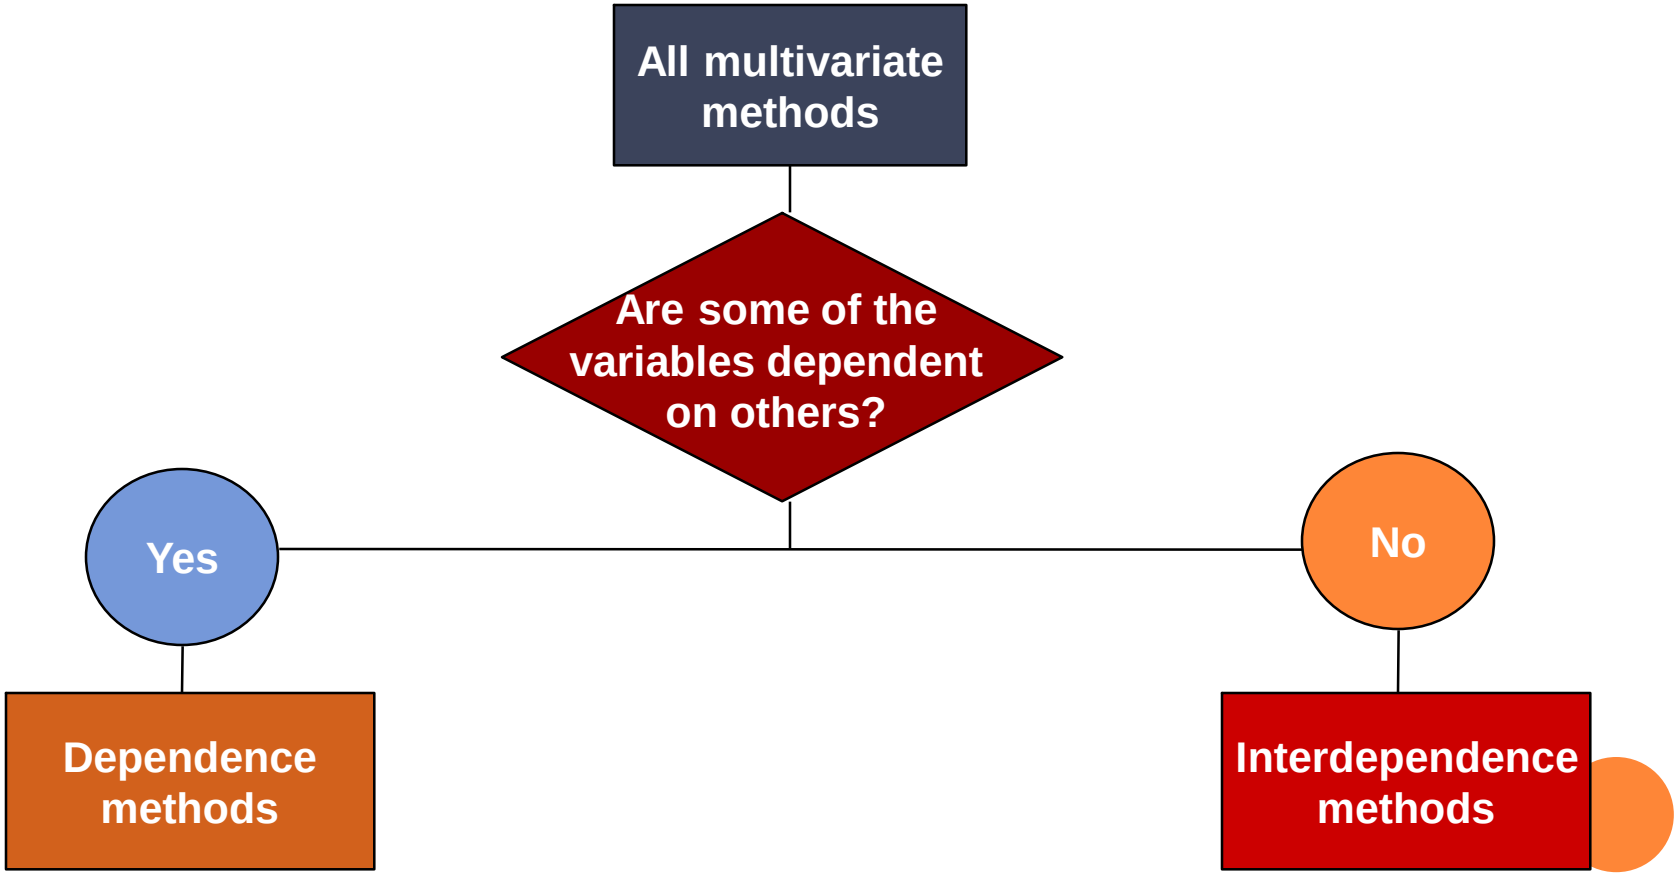
BIVARIATE DATA ANALYSIS PROCEDURES



Multivariate Analysis Methods

- Two general types of MVA technique
  - Analysis of dependence
    - Where one (or more) variables are dependent variables, to be explained or predicted by others
    - dependent (criterion) variables and independent (predictor) variables are present
      - E.g. Multiple regression, MANOVA , Conanical Correlation
  - Analysis of interdependence
    - No variables thought of as “dependent”
    - Look at the relationships among variables, objects or cases
    - variables are interrelated without designating some dependent and others independent
      - E.g. cluster analysis, factor analysis

A Classification of Selected Multivariate Methods



What is hypothesis?

- A tentative statement made based on the sample against the population

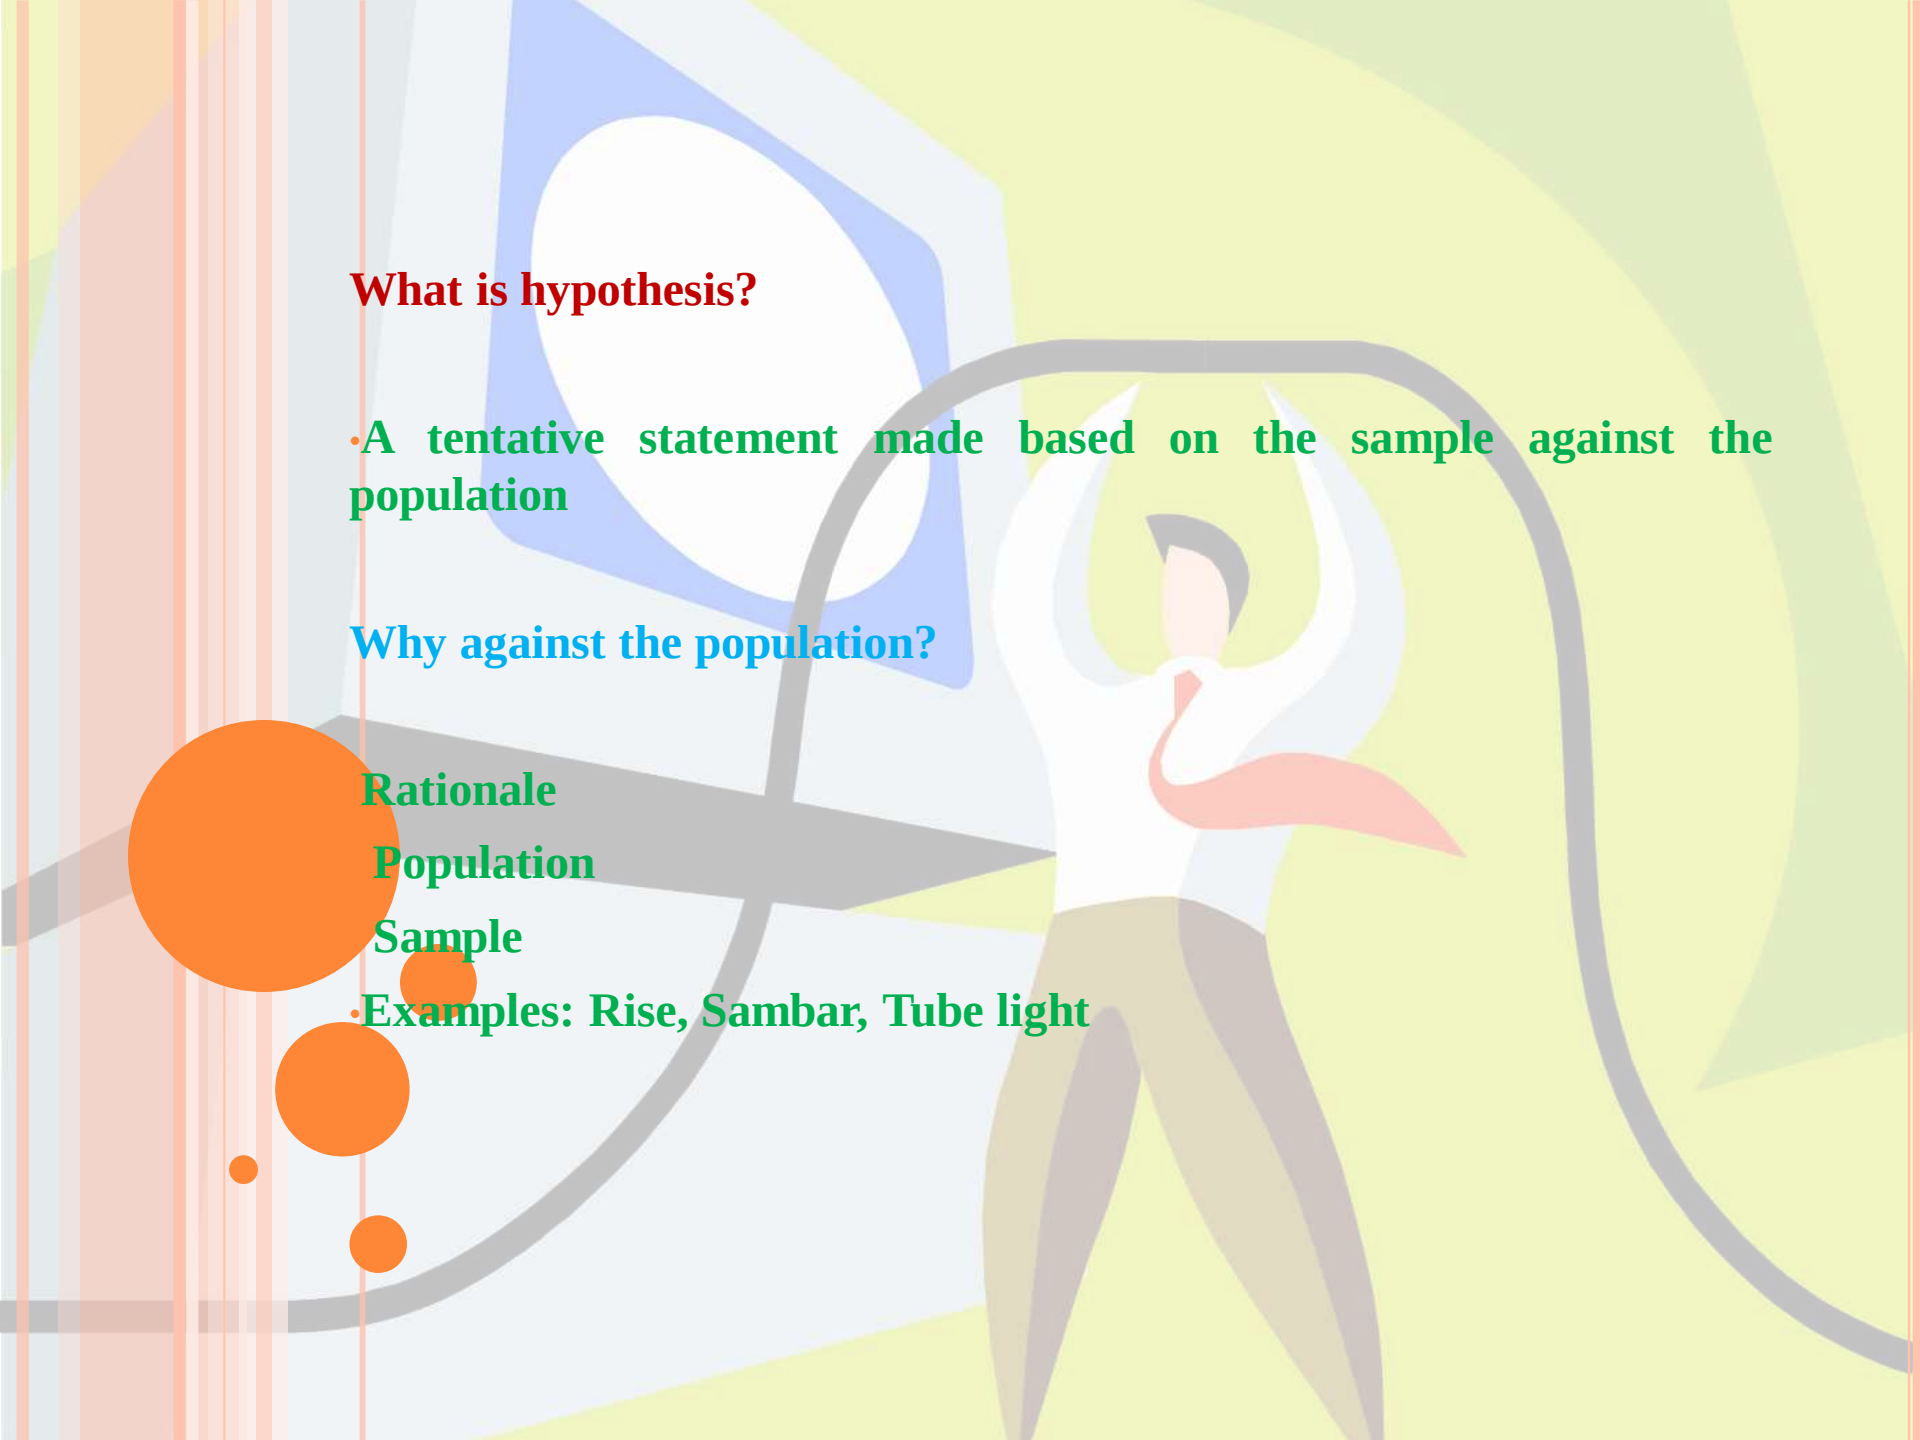
Why against the population?

Rationale

Population

Sample

- Examples: Rise, Sambar, Tube light



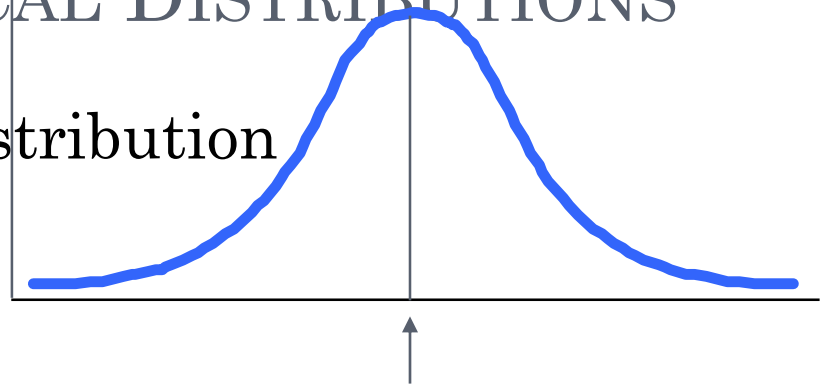
Type I and Type II Error

- Type I: Reject the null hypothesis when it is true……ok
- Type II: Accept the null hypothesis when it is false ……serious problem
- We always test the null hypothesis

- Theoretical foundation……..100 times 5 mistakes
- Probability and Level of Significance ……usually 5 percent
- Three Important things:
  - Data, Distributions and testing procedure

THEORETICAL DISTRIBUTIONS

- Normal Distribution



- Z or t Distributions …..Parametric, Mean
- F Distribution……..Parametric, Variance
- Chi-Square Distribution…..Non-parametric

Steps in Hypothesis Testing

- 1. Formulation of Hypothesis
- 2. Data……Distribution
- 3. Test Criteria……level of significance, tail, df
- 4. Computing test statistic
- 5. Comparison and interpretation
- 6. Drawing Inferences and Policy Suggestions
- 7. Decision Making

Circumstances and Hypothesis Testing

- Comparing sample with Population

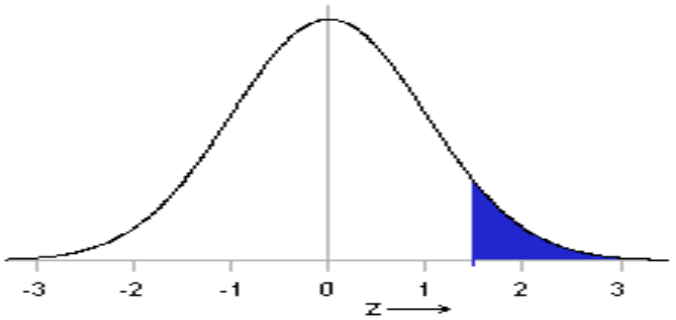
  - Examples: .....profit, income, expenditure, etc

    * One sample t-test

One sample t-test

- Hypothesis testing is designed to detect *significant differences*: differences that did *not* occur by random chance.
- In the "one sample" case: we compare a random sample to a population.
- compare a sample statistic to a population parameter to see if there is a *significant difference or not*.

One sample t-test



Population Mean

$\mu = 5.6$

Population

Sample

Sample Mean $x = 5.1$

Problem:

- Whether, the rate of profit of food processing companies is on par with national average
- Hypothesis:
- H0 : there is no significant difference between average profit of food processing companies and national average
- H1 : there is significant difference between average profit of food processing companies and national average

Test criteria: 5 percent level of significance, and two tail test

Data……Numeric ……see excel sheet.

Sampling Techniques

Dr. Premakumara G.S
Sr. Assistant Professor of Economics
University of Mysore, Mysore
UGC Research Awardee, IUC – Associate, IIAS Shimla
Email: gspremakumara@gmail.com

Primary Data

- Important things
  - Selection of Study area: Justification
  - Sample Size: Variance/ sq of SE
  - Selection of Sample
  - Means of collection
    - Questionnaire, Schedule, Camera, observation, films, records,
  - Sampling Methods:

    -Probability sampling; simple, stratified, systematic random

    - cluster, area sampling, multistage, proportional, double

    -Non probability sampling:

    convenience, purposive, quota

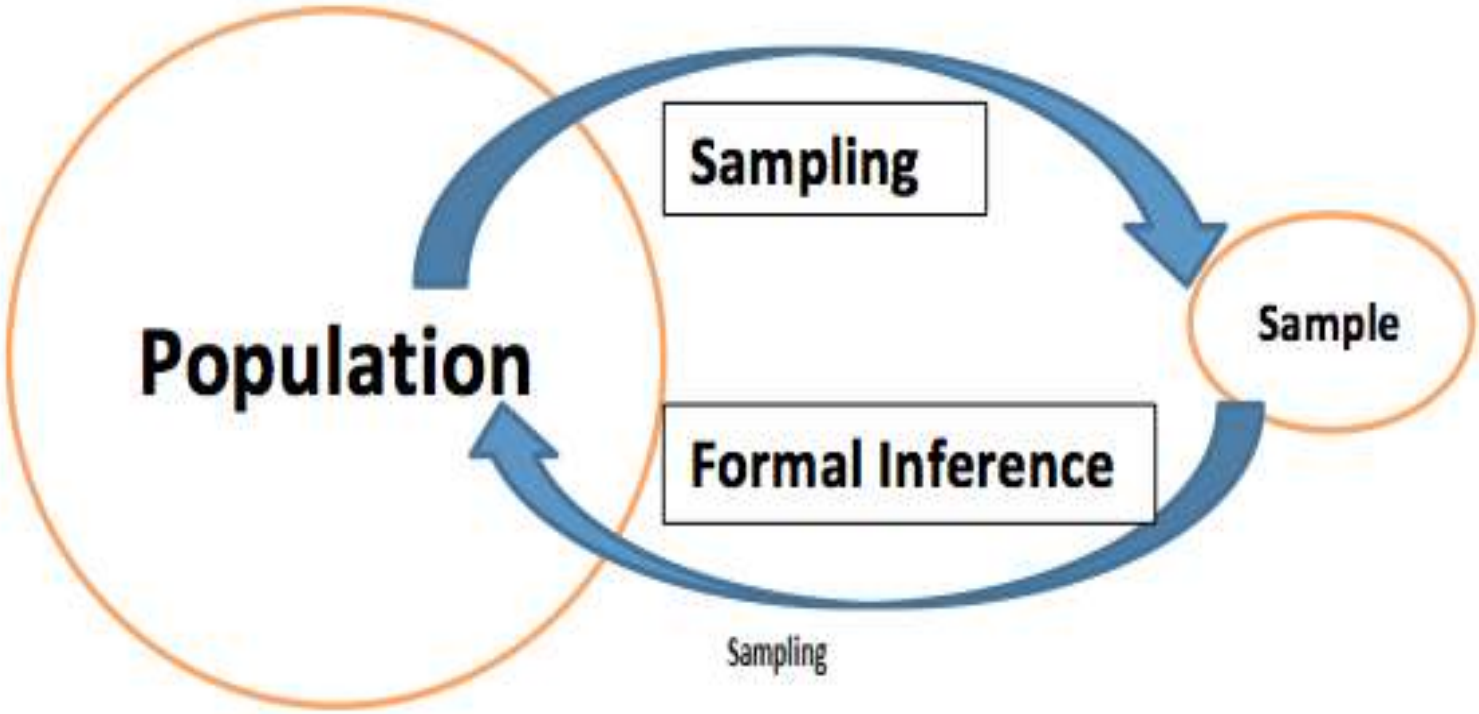
Census Sample

- A census study occurs if the entire population is very small or it is reasonable to include the entire population (for other reasons).

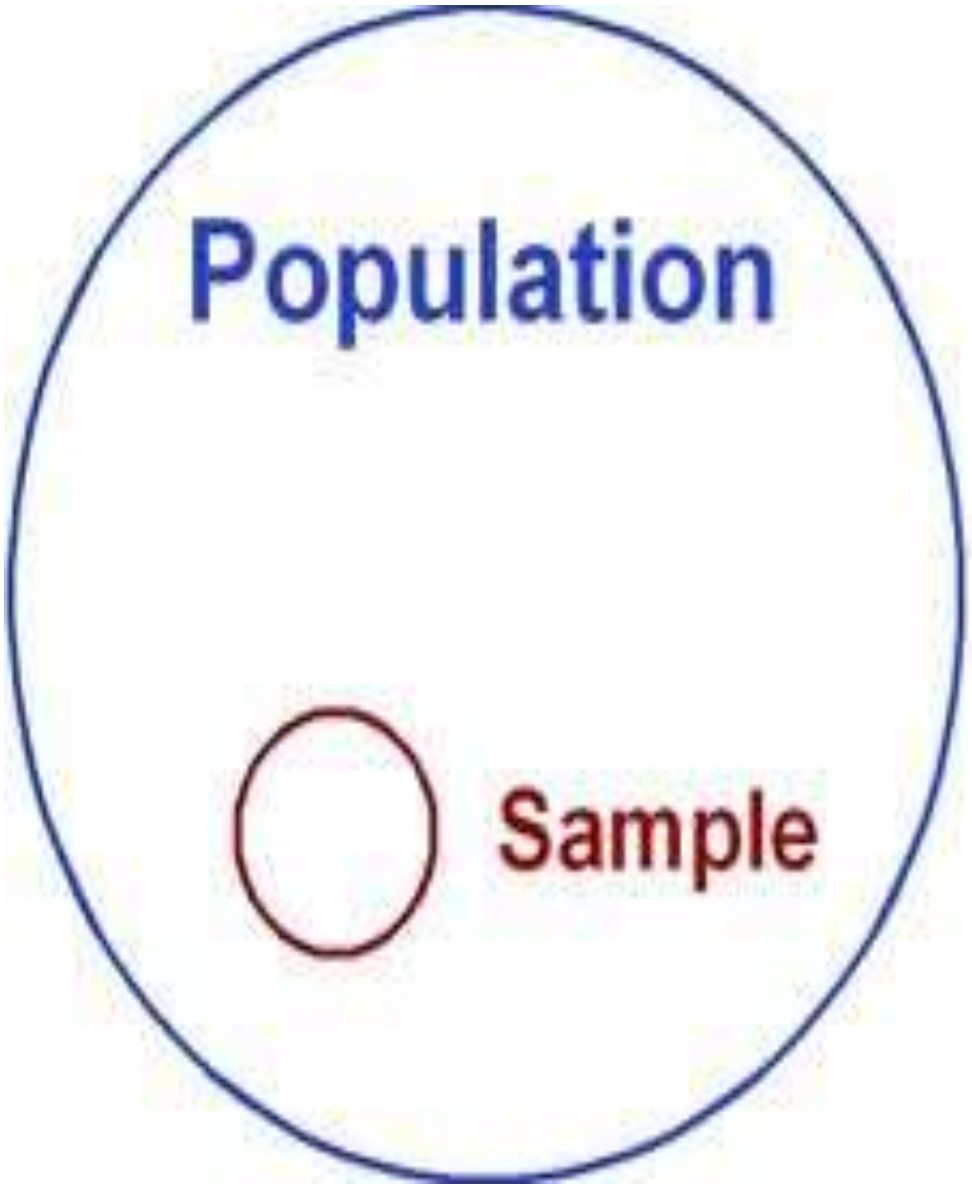
- It is called a census sample because data is gathered on every member of the population.

Why sample?

- The population of interest is usually too large to attempt to survey all of its members.
- A carefully chosen sample can be used to represent the population.
  - The sample reflects the characteristics of the population from which it is drawn.



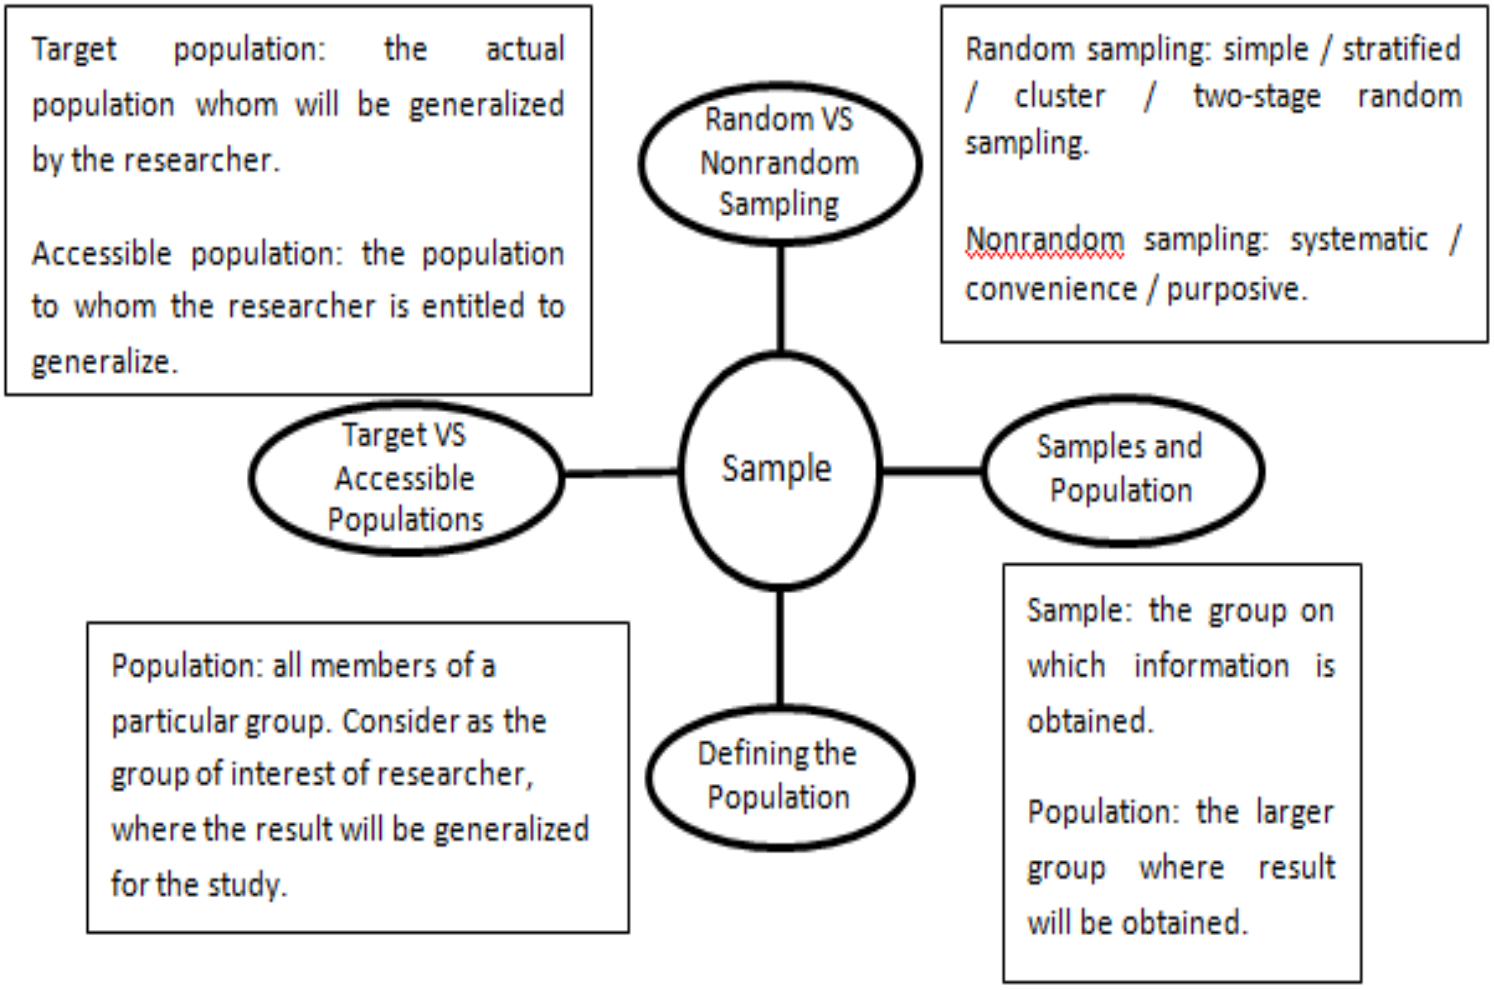
Sampling
Population
Sample
Formal Inference
Sampling



Population
Sample

Sampling

The term **sampling** is defined as the process of selecting the individuals who will participate (via observation, questionnaire or interview) in a research study.



Probability versus Nonprobability

- **Probability Samples:** each member of the population has a known non-zero probability of being selected
  - Methods include random sampling, systematic sampling, and stratified sampling.
- **Nonprobability Samples:** members are selected from the population in some nonrandom manner
  - Methods include convenience sampling, judgment sampling, quota sampling, and snowball sampling

Random Sampling

Random sampling is the purest form of probability sampling.

- Each member of the population has an equal and known chance of being selected.

- When there are very large populations, it is often 'difficult' to identify every member of the population, so the pool of available subjects becomes biased.

Systematic Sampling

- **Systematic sampling** is often used instead of random sampling. It is also called an Nth name selection technique.
- After the required sample size has been calculated, every Nth record is selected from a list of population members.
- As long as the list does not contain any hidden order, this sampling method is as good as the random sampling method.
- Its only advantage over the random sampling technique is simplicity (and possibly cost effectiveness).

Stratified Sampling

- **Stratified sampling** is commonly used probability method that is superior to random sampling because it reduces sampling error.
- A stratum is a subset of the population that share at least one common characteristic; such as males and females.
  - Identify relevant stratums and their actual representation in the population.
  - Random sampling is then used to select a *sufficient* number of subjects from each stratum.
  - Stratified sampling is often used when one or more of the stratums in the population have a low incidence relative to the other stratums.

Cluster Sampling

- Cluster Sample: a probability sample in which each sampling unit is a collection of elements.
- Effective under the following conditions:
  - A good sampling frame is not available or costly, while a frame listing clusters is easily obtained
  - The cost of obtaining observations increases as the distance separating the elements increases
- Examples of clusters:
  - City blocks – political or geographical
  - Housing units – college students
  - Hospitals – illnesses
  - Automobile – set of four tires

Convenience Sampling

- **Convenience sampling** is used in exploratory research where the researcher is interested in getting an inexpensive approximation.
- The sample is selected because they are convenient.
- It is a nonprobability method.
  - Often used during preliminary research efforts to get an estimate without incurring the cost or time required to select a random sample

Judgment Sampling

- **Judgment sampling** is a common nonprobability method.
- The sample is selected based upon judgment.
  - an extension of convenience sampling
- When using this method, the researcher must be confident that the chosen sample is truly representative of the entire population.

Quota Sampling

- **Quota sampling** is the nonprobability equivalent of stratified sampling.
  - First identify the stratums and their proportions as they are represented in the population
  - Then convenience or judgment sampling is used to select the required number of subjects from each stratum.

Snowball Sampling

- **Snowball sampling** is a special nonprobability method used when the desired sample characteristic is rare.
- It may be extremely difficult or cost prohibitive to locate respondents in these situations.
- This technique relies on referrals from initial subjects to generate additional subjects.
- It lowers search costs; however, it introduces bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

Sampling Techniques and Sample Size Determination

Introduction:

Research is the scientific pursuit of finding truth. It is also understood from the literature that research is the proof giving process. The proof given for research argument should be based on valid and tested data. The test, generally called hypotheses testing procedure. A hypothesis testing has followed standard theoretical and probability distributions. The common tests like, t, F and chi-square are based on their respective distribution. Accordingly, the data being used for any test should be collected scientifically with high confidence and lesser margin of errors. Having said this, sampling techniques and sample size determination play important role in collection of data.

It is also important to note that, for a researcher complete enumeration of population is not possible due to lack or time and resources. Hence, researcher draws inferences about the population based on sample. To draw the inferences, the sample should sufficiently represent the population characters. It is because; the researcher explains the unknown population parameters with the known sample statistics. Therefore, sampling refers to selection of adequate, representative and non-repeated samples from population with appropriate scientific methods. Accordingly, in the present article, an attempt has been made to explain the scientific procedures of sampling and sample size determination.

Steps for Sampling:

The following steps are followed to select the samples.

1. Define Target Population
2. Select Sampling Frame
3. Select Sampling Technique
4. Determine Sample Size
5. Collection and Process Data
6. Presence of Data

Define Target Population:

As mentioned earlier, it is important that the sample selected be representative of the population from which it is taken so that inferences about the population are the best that they can be. The population should be defined in connection with the objectives of the study. A

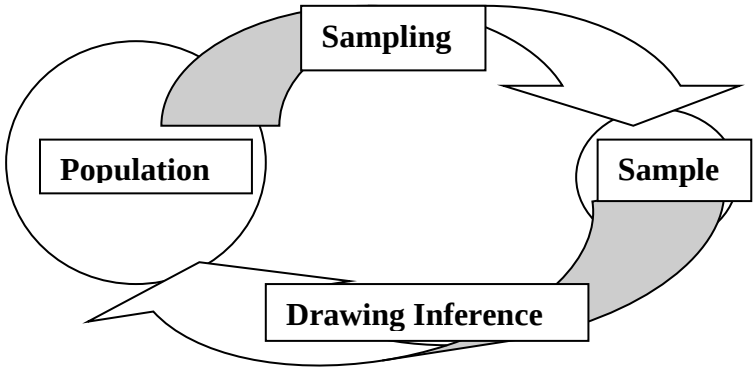
census study occurs if the entire population is very small, or it is reasonable to include the entire population. It is called a census sample because data is gathered on every member of the population. The population is a universal set and sample is a sub-set of universal set. The entire set of cases from which researcher sample is drawn in called the population. Since, researchers neither have time nor the resources to analysis the entire population so they apply sampling technique to reduce the number of cases. The first stage in the sampling process is to clearly define target population. Population is commonly related to the number of people living in a particular country. Based on the objectives of the study the targeted population will be determined. The targeted population is smaller than the general population, for example: If a study is concerned about farmers, all farmers are the representatives of the population. However, the targeted population is concerned about the type of farmers and the location of farmers. To be specific, the paddy growing farmers in the state of Karnataka in India is the targeted population. In this case, the targeted population has reduced from globe to India, India to Karnataka and only paddy growing farmers. Therefore, specification of target population is important in understanding the contour of present study.

Select Sampling Frame:

A sampling frame is a list of the actual cases from which sample will be drawn. The sampling frame must be representative of the population. However, in most of the cases or times, listing of actual cases in the targeted population may be difficult. In this situation, knowing the characteristics of targeted population and the population size (sub-sets of population like, male and female) is sufficient.

Select Sampling Technique:

Selection of each unit of sample from the targeted population is called sampling. And how each sample will be selected is explained by the sampling technique. The following figure shows the relationship between population and sample and process of sampling.



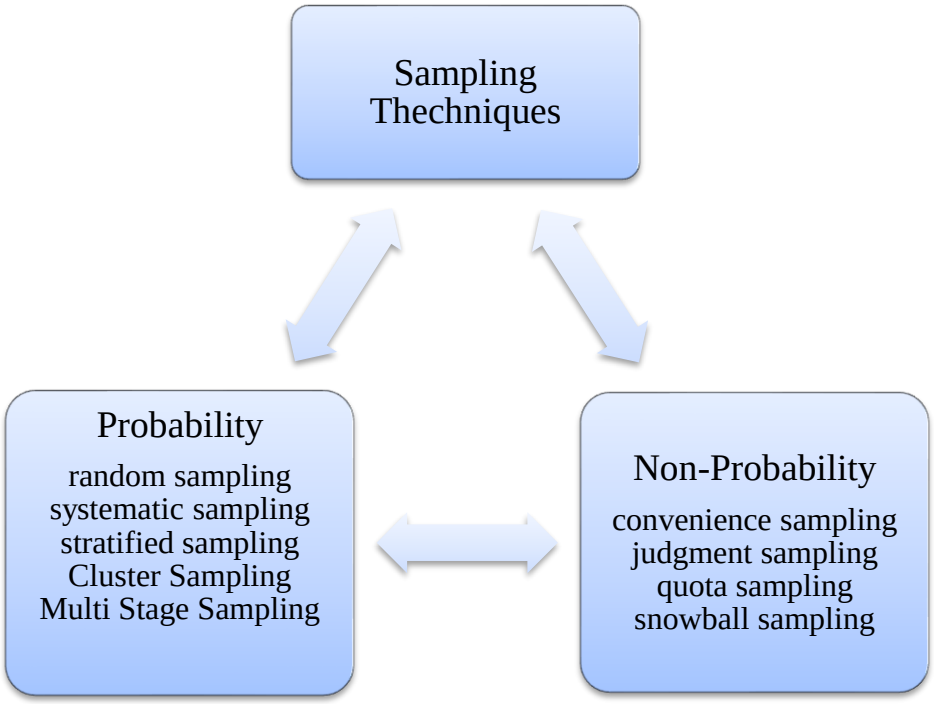
The above figure clearly explains that samples are taken from population or targeted population or sample frame and it is known as sampling. The inferences have been drawn based on samples and these inferences are generalization of population characteristics.

Broadly, sampling techniques have been divided into two groups, namely;

- **Probability Sampling Techniques**
- **Non-probability Sampling Techniques**

Generally speaking, the probability sampling techniques are used for hypotheses testing. The data collected by using non-probability techniques cannot be used for hypotheses testing. It is because; all the tests are being used standard probability distribution.

The group of techniques included under probability and non-probability are shown in the following chart



Probability Sampling:

Under the probability sampling each member of the population has a known non-zero probability of being selected. Each member of the population has equal chance to become sample. The probability sampling completely represents population.

Random sampling:

Random sampling is the purest form of probability sampling. Each member of the population has an equal and known chance of being selected. When there are very large populations, it is often 'difficult' to identify every member of the population, so the pool of available subjects becomes biased. In some studies, such as surveys by personal interviews, the costs of obtaining the sample can be high if the units are geographically widely scattered. The standard errors of estimators can be high. However, as there are no restrictions in the selection of samples, it is the largely used sampling technique. Most importantly, this method is easy to do and fair representative of population.

In the simple random sampling, the probability of being a sample depends on the size of the population and size of the sample. If the population is 10,000 and the sample size is 384, then the probability of each member in the population being sample is 384/10000 = 0.038.

In the random sampling without replacement each member of the population has a varying probability of being selected as a sample.

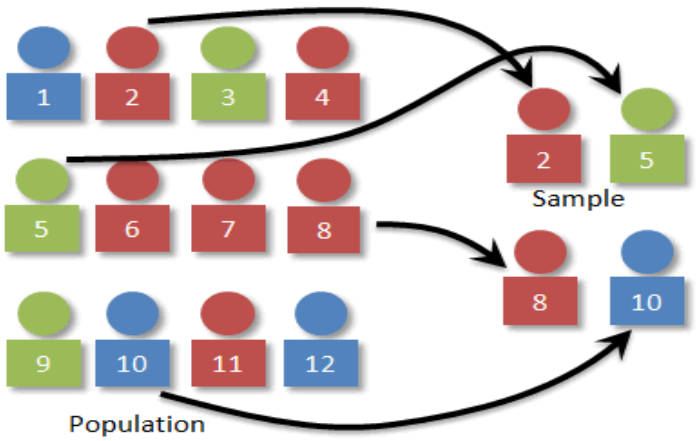
The probability of selection of the first sample = 1/N = 1/10000 = 0.0001

The probability of selection of the second sample = 1/ (N-1) = 1/9999 = 0.00010001

The probability of selection of the 384th sample = 1/ (N-1) = 1/9999 = 0.00010398

It has been cleared from the above probability calculation that the probability of selection of samples in the large population will not much change. However, in the small population it makes the difference.

The following chart shows the selection of samples from the population.



Systematic Random Sampling Method:

Systematic random sampling is a modified version of simple random sampling method. A specific system or mechanism will be introduced in this method to select the sample. Systematic sampling is often used instead of random sampling. It is also called an N^{th} name selection technique. After the required sample size has been calculated, every N^{th} record is selected from a list of population members. As long as the list does not contain any hidden order, this sampling method is as good as the random sampling method. Its only advantage over the random sampling technique is simplicity and possibly cost effectiveness.

Two methods are used in the selection of samples:

1. From a population of 100 members, 12 samples are to be selected. A starting number is picked first; for example 5. Then an interval is picked; for example 8, so every eighth member in the population is selected to produce 5, 13, 21, 29, 37, 45, 53, 61, 69, 77, 85, and 97.
2. The sample size is identified as 30. The total number of the population is divided by the sample size to obtain the sampling fraction. This is used as the constant difference between the data items.

The following chart shows the selection of samples from the population.

Stratified Sampling Technique:

Stratified sampling is commonly used probability method that is superior to random sampling because it reduces sampling error. A stratum is a subset of the population that share

at least one common characteristic; such as males and females. Under the stratified sampling, the population will be reconstructed or divided into meaningful stratums (parts) and then simple random sampling will be used for selection of samples.

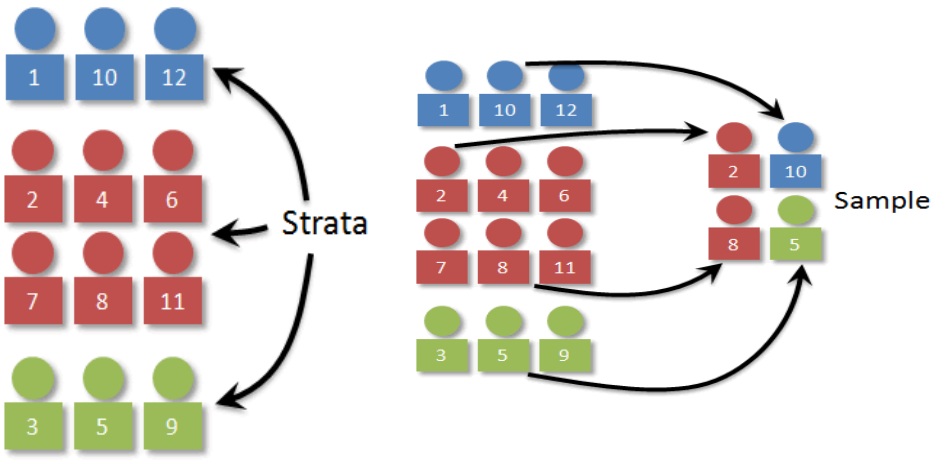
In the stratified random sampling most important things are; Identify relevant stratums and their actual representation in the population. Random sampling is then used to select a *sufficient* number of subjects from each stratum. Stratified sampling is often used when one or more of the stratums in the population have a low incidence relative to the other stratums.

Procedure of selection of samples from the population:

A stratified sample is obtained by taking samples from each stratum or sub-group of a population.

- Each stratum is represented proportionally according to its incidence in the population.
- Each stratum must be ***non-overlapping*** as overlapping subgroups will mean some members of the population will have higher chances of being selected.
- Most common strata are age, gender, socio-economic status, religion, nationality, educational attainment.
- Simple Random Sampling is done within the strata.

The following chart shows the selection of samples from the strata of population.



Cluster Sampling Technique:

Cluster sampling is used when the population has "natural" but relatively homogeneous (similar) groups. It is often used in market research surveys. The total population is divided into these groups (or clusters). Once the clusters have been identified the simple random sampling can be used for selection of samples.

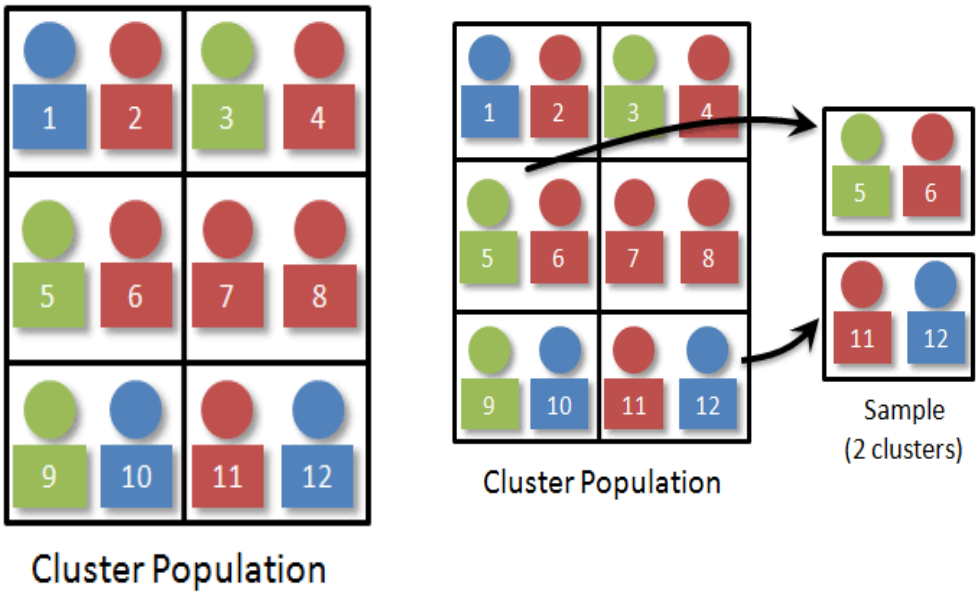
The cluster sampling is very effective under the following conditions:

- A good sampling frame is not available or costly, while a frame listing clusters is easily obtained.
- The cost of obtaining observations increases as the distance separating the elements increases

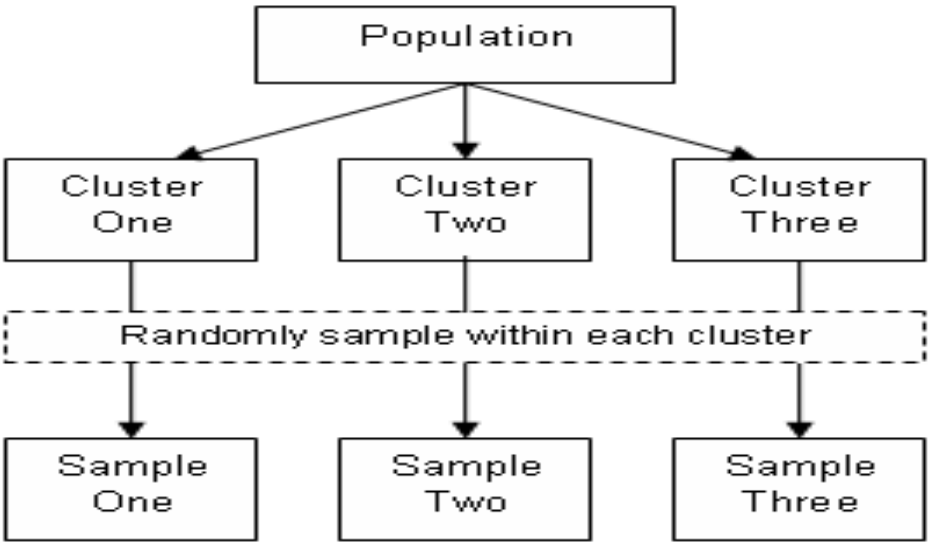
Some examples of clusters are given below:

- City blocks – political or geographical
- Housing units – college students
- Hospitals – illnesses
- Automobile – set of four tires

The following chart shows the selection of samples from the strata of population.



The following chart also shows the selection of samples using cluster method.



Multi-Stage Sampling:

The multi stage sampling has been used when the area of research is too large like covering the entire nation. In this case, size of the sample frame is very large and it consumes more time and resources. In such a situation multi stage sampling will reduce the cost and time of survey. The multi stage sampling helps to design the smaller sample frame. This sampling technique uses more than one stage for survey.

The multi stage sampling can be performed as illustrated below;

- When the researcher is intended to conduct the national level study, then identify the regions based on their convergence and divergence characteristics. For example: South, North, East, West and Centre.
- From each region, select one or two states as a representative of the region.
- From each state, select one or two districts as representative of state.
- From each district, select one or two taluks as representative of district
- The same procedure can be continued until the last stratum is identified.
- Select the desired samples from the last strata.

Non Probability Sampling:

The name the sampling itself clears that these sampling techniques are not based on any probability. Samples are being selected from the population in some nonrandom or non-probability manner. Each member of the population may or may not have chance being selected as sample. There will be a specific reason or intension to select a sample. Therefore,

these techniques are called non-probability sampling techniques. Non probability sampling is often associated with case study research design and qualitative research. To be specific, case studies tend to focus on small samples and are intended to examine a real life phenomenon, not to make statistical inferences in relation to the wider population.

Convenience sampling:

Convenience sampling is used in exploratory research where the researcher is interested in getting an inexpensive approximation. Typically, convenience sampling tends to be a favoured sampling technique among students as it is inexpensive and an easy option compared to other sampling techniques. Under this sampling, the sample is being selected because they are convenient. It is a non-probability method. Often, this technique is being used during preliminary research efforts to get an estimate without incurring the cost or time required to select a random sample.

Judgment Sampling:

Judgment sampling is also known as purposive sampling because; researcher will have specific reason or purpose to select a sample. Judgment sampling is a most commonly used non-probability method. The sample is selected based upon judgment. This method is an extension of convenience sampling. The condition for using this method is that the researcher must be confident that the chosen sample is truly representative of the entire population.

Quota Sampling:

Quota sampling is a non random sampling technique and it is equivalent of stratified sampling in which participants are chosen on the basis of predetermined characteristics so that the total sample will have the same distribution of characteristics as the wider population.

Steps for selection of samples;

- First identify the stratums and their proportions as they are represented in the population.
- Then convenience or judgment sampling is used to select the required number of subjects from each stratum.

Snowball Sampling:

Snowball sampling is a special non-probability method used when the desired sample characteristic is rare. It may be extremely difficult or cost prohibitive to locate respondents in these situations. This technique relies on referrals from initial subjects to generate additional subjects. It lowers search costs; however, it introduces bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

Sample Size Determination:

Sample size determination is an important step in primary data collection. The samples selected should be adequate and sufficient to draw the inferences about the population with high confidence and less margin of error. There are two types of sample sizes: relative and absolute sample size. The relative sample size is the sample proportionate to the population. The absolute sample size is based on accuracy and margin of error. Two step procedures have been adopted to determine the sample size.

Step 1: Sample size determination for large population;

The following formula has been used to determine sample size for large population.

$$\mathbf{S= \{Z^2 * [p * (1-p)]\}/E^2}$$

S = Sample size for infinite population (minimum of large population is 10000)

Z = Z-score

Z – Score is determined based on confidence level in Z-Distribution. The Z value for different confidence level is readily available in standard research methodology or statistical text books. As an example: the Z value at 95% of confidence level is 1.96.

P = Population proportion

Population proportion is also known as expected population. The expectation refers to the population having certain characteristics. As P increases, the value of 1-P will decrease. Accordingly, the maximum P value may be considered is 50 percent. Most of the previous studies have used 50% which is equal to 0.50.

E = Margin of Error

Margin of error is the probability of committing mistakes or type I error.

Given the conditions the following table explains the selection of samples in a large population with different confidence level, expected population and margin of error.

Sample Size in a Large Population

Confidence	Z-Score	Z^2	P	1-P	p*1-p	E	E^2	**Samples**
90	1.645	2.706	0.1	0.9	**0.09**	0.1	0.01	**24**
90	1.645	2.706	0.2	0.8	**0.16**	0.1	0.01	**43**
90	1.645	2.706	0.3	0.7	**0.21**	0.1	0.01	**57**
90	1.645	2.706	0.4	0.6	**0.24**	0.1	0.01	**65**
90	1.645	2.706	0.5	0.5	**0.25**	0.1	0.01	**68**
Confidence	Z-Score	Z^2	P	1-P	p*1-p	E	E^2	**Samples**
95	1.96	3.842	0.1	0.9	**0.09**	0.05	0.0025	**138**
95	1.96	3.842	0.2	0.8	**0.16**	0.05	0.0025	**246**
95	1.96	3.842	0.3	0.7	**0.21**	0.05	0.0025	**323**
95	1.96	3.842	0.4	0.6	**0.24**	0.05	0.0025	**369**
95	1.96	3.842	0.5	0.5	**0.25**	0.05	0.0025	**384**
Confidence	Z-Score	Z^2	P	1-P	p*1-p	E	E^2	**Samples**
99	2.576	6.636	0.1	0.9	**0.09**	0.01	0.0001	**5972**
99	2.576	6.636	0.2	0.8	**0.16**	0.01	0.0001	**10617**
99	2.576	6.636	0.3	0.7	**0.21**	0.01	0.0001	**13935**
99	2.576	6.636	0.4	0.6	**0.24**	0.01	0.0001	**15926**
99	2.576	6.636	0.5	0.5	**0.25**	0.01	0.0001	**16589**

Note: 1. The formula for large population has used for estimation. 2. Hypotheses testing generally being conducted at 1, 5 and 10% level of significance. If a hypotheses testing are conducting at 5% level of significance, then the sample size has to be determined at 95 % level of confidence and so on. 3. In the above table P has been representatively taken and it can be any number between 0 and 1. 4. E has taken in corresponding to confidence level.

Step 2: Sample size determination for finite population;

The second step has been used when the population is know and finite. Once the sample size is determined for the large sample, it has to be adjusted to know population.

The following formula has been used to determine sample size for finite population. It is also known as adjusting sample to known population.

AS = {(s)/ [1+(s-1)/p)]}

AS = Adjusted Sample

S = Minimum Sample in Large population

P = Population size

Sample Size for Finite Population

P = 0.50 or 50%		**P = 0.50 or 50%**		**P = 0.50 or 50%**	
At 90% of Confidence		**At 95% of Confidence**		**At 99% of Confidence**	
Z-Score	1.645	Z-Score	1.96	Z-Score	2.576
Z-Square	2.706025	Z-Square	3.8416	Z-Square	6.635776
Expected P	0.5	Expected P	0.5	Expected P	0.5
1-p	0.5	1-p	0.5	1-p	0.5
p*1-p	**0.25**	**p*1-p**	**0.25**	**p*1-p**	**0.25**
Error	0.1	Error	0.05	Error	0.01
E-square	0.01	E-square	0.0025	E-square	0.0001
Sample for Large Population	**67.65**		**384.16**		**16589.44**
For the given sample for large population, the corresponding sample size for finite population					
Finite Population	Adjusted Sample	Finite Population	Adjusted Sample	Finite Population	Adjusted Sample
10	8.71	10	9.75	10	9.99
25	18.25	25	23.47	25	24.96
50	28.75	50	44.24	50	49.85
75	35.57	75	62.75	75	74.66
100	40.35	100	79.35	100	99.40
200	50.55	200	131.53	200	197.62
300	55.20	300	168.45	300	294.67
400	57.86	400	195.96	400	390.58
500	59.59	500	217.25	500	485.37
1000	63.36	1000	277.54	1000	943.15
2000	65.44	2000	322.26	2000	1784.82
3000	66.16	3000	340.55	3000	2540.57
4000	66.53	4000	350.50	4000	3222.90
5000	66.75	5000	356.75	5000	3842.03
10000	67.20	10000	369.95	10000	6239.11
100000	67.60	100000	382.69	100000	14228.94
1000000	67.65	1000000	384.01	1000000	16318.72

Note: 1. The formula for large population and finite population have used for estimation. 2. Values are computed in excel sheet using both the formulas.

Collection and Process Data:

In the fifth step researcher will collect the data by using questionnaire or schedule. The collected data may be input in the excel sheet for processing. It is always suggested to

input data in excel sheet as we can transfer the data to any software like, SPSS, E-views and others.

Presentation of Data:

Presenting data in a meaningful way according to the objectives of the study is purely depending upon the skill and capability of researcher. The descriptive and inferential statistics can be used for the data.

Conclusion:

The present paper has mainly explained the sampling and sample size determination. Probability and non-probability sampling techniques have discussed in the paper. The study has suggested to use probability sampling if researcher is intended to testing the hypotheses. The process of sample size determination for both large and finite population has explained with illustration. The researcher can determine the sample size, if known the confidence level, population proportion and margin of error by using the formulas.

Date of Birth 12-02-1981 (Twelve February Nineteen Eighty One)

Experience

a) Junior Research Fellow 03-03-2006 to 06-02-2008
b) College Librarian 08-02-2008 to 06-03-2014
c) College Librarian (Senior Scale) 07-03-2014 to 06-03-2019
d) College Librarian (Selection Grade) 07-03-2019 to 06-03-2022
e) College Librarian (S Selection Grade) 06-03-2022 to Till Date

Academic Qualifications

Sl. No.	Examination passed (starting with Post-Graduation Exams)	University/ Institutions	Month & Year	Class Obtained
1.	MLISc	University of Mysore	June 2004	First Class with distinction
2.	UGC-NET (JRF)	University Grant Commission	2005	
3.	B.A.	University of Mysore	April 2002	First Class
4.	Ph D.	University of Mysore	November 2011	Topic of Research: Content Analysis of Indian Library Web sites: A Study

Teaching Experience

- Taught technology for information management (Practicum) to MLISc 3rd semester during the year 2007-2008

Academic distinctions

- Serving as **Associate Editor** (Volunteer) - **The Directory of Open Access Journal** (**DOAJ**) (Since February 2023- to till date)

- I have an ***h-Index* of 12**. My research papers published in various scholarly journals and meetings have received 368 citations (based on **Google Scholar**, as on 31-07-2024) so far. One of my articles entitled "**Web 2.0 Features in University Library Websites**" published in *The Electronic Library* of Emerald Group Publishing in 2010 has been cited 292 times so far.

- Serving as a Joint Secretary, Mysore University Information and Library Science Alumni Network (MILAN), Mysore for the period of 2023-2025.

- Won third KELPO best research paper award 2015 for the research article "***Re-Examining the location of web objects: A study of library websites***" by the Kerala Library Professionals' Organization, Kerala in 2015.

- Served as Public Relation Officer of Mysore Librarians and Information Scientists Association (MyLISA), Mysore for the period of 2013-15.

- Highly Commanded 2011 Indian LIS Research fund award for the Research Proposal***"Use of social network sites and its effect on students of engineering colleges in Mysore city: An exploratory study"*** by Emerald Group Publishing Limited, UK.

- Awarded UGC Junior Research Fellowship for pursuing full-time research in Library and Information Science in 2005

- Awarded cash prize from S.B.R.R. Mahajana First Grade College for securing highest marks in History examination in BA at the University level.

Membership for academic bodies

- Karnataka State College Librarians Association (KSCLA)- Life Member
- Mysore Librarians and Information Scientists Association (MyLISA) -Life Member
- Mysore University Information and Library Science Alumni Network (MILAN)-Life Member

- What is Publication Ethics?
- Why UGC Introduced UGC-CARE?
- Unethical Publication Practices
  - Authorship
  - Plagiarism
  - Conflict of Interest
  - Research Fraud
- Predatory Journals & Fake Journal Metrics
- Importance of Ethical Research &Publication Practice
- Open Science (Preprints) – New Publishing Models

3

What is Publication Ethics?

"the principles and standards associated with the process of publishing the results of scientific research or scholarly work in general.

These include such requirements as giving the appropriate credit and authorship status to those who have earned it; ensuring that appropriate citations are given to ideas, methodology, or findings from another study; not submitting the same article to more than one journal simultaneously; and not submitting results for republication without indicating that they have already been published elsewhere"

Why UGC Introduced Consortium for Academic and Research Ethics (UGC-CARE)

GENERAL ARTICLE

India's scientific publication in predatory journals: need for regulating quality of Indian science and education

G. S. Seethapathy, J. U. Santhosh Kumar and A. S. Hareesha*

Nature Index analysis 2014 rates India at the 13th place for its high-

How does UGC identify predatory journals?

'UGC's regulations on minimum qualifications for appointments of teachers and other academic staff in universities and colleges and measures for the maintenance of standards in higher education 2010' introduced Academic Performance Indicators (API) for tenure promotions for teachers working in universities and colleges. However, after API came into existence in 2010, there is an upsurge in the number of journals published in India. As API became the major criterion for appointments and tenure promotions, the number of research papers published by teachers working in universities and colleges across India has also seen a huge increase. The ISSN (International Standard Serial Number) numbered journals have started to make their entry in large numbers. ISSN is in no way the criterion for determining the quality of journals. It is merely a standard for identifying the number of journals published in a country or worldwide. On what basis did UGC consider ISSN as one of the criteria for determining the quality of the journals for assigning more points?

What is interesting and more important here is that, because of the UGC guidelines for publishing research papers in ISSN numbered journals, many predatory journals/publishers have come up, publishing articles without proper peer-review process. A recent letter published in *Current Science*[1] has shown that many of the articles published in these journals are merely copy–paste work (plagiarized ones). The list of predatory publishers/journals prepared by Jeffrey Beall, a librarian at the University of Colorado, USA, prompts us to think seriously about the growing number of predatory publishers and journals. A cursory look at the list of predatory publishers/journals available at http://scholarlyoa.com/publi-

Abstract

Purpose – By distorting the peer review process, predatory journals lure researchers and collect article processing charges (APCs) to earn income, thereby threatening clinical decisions. This study aims to identifying the characteristics of predatory publishing in the dermatology literature.

Design/methodology/approach – The authors used Kscien's list to detect dermatology-related predatory journals. Bibliometric parameters were analyzed at the level of journals, publishers, documents and authors.

Findings – Sixty-one potential predatory dermatology publishers published 4,164 articles in 57 journals from 2000 to 2020, with most publishers claiming to be located in the United States. Most journals were 1–5 years old. Six journals were indexed in PubMed, two in Scopus and 43 in Google Scholar (GS). The average APC was 1,049 USD. Skin, patient, cutaneous, psoriasis, dermatitis and acne were the most frequently used keywords in the article's title. A total of 1,146 articles in GS received 4,725 citations. More than half of the journals had <10 citations. Also, 318 articles in Web of Science were contaminated by the most cited articles and 4.49% of the

10

1. Authorship

An author is someone who has made a significant contribution to the work reported: in terms of research conception or design, or acquisition of data, or the analysis and interpretation of data.

11

When Authorship Should be Given

According to the ICMJE following criteria should be met to be credited as an author

- Substantial contribution to the study conception and design, data acquisition, analysis, and interpretation.
- Drafting or revising the article for intellectual content
- Approval of the final version.
- Agreement to be accountable for all aspects of the work related to the accuracy or integrity of any part of the work.

12

Authorship Pattern

- First Author
  - One who conceptualizes the study and contributes immensely in every aspects of the research process (study design, data acquisitions, analysis, interpretations and writing the manuscript)
- Co-Authors
  - Those who significantly contributes to the research work and in preparing the manuscript
- Corresponding Author
  - One who takes responsibility for the manuscript during the submission, peer review and production process. All communication from submission to publication will be with the corresponding author.

13

CRediT (Contribution Roles Taxonomy)

- **Conceptualization**
- **Data Curation**
- **Formal Analysis**
- **Funding Acquisition**
- **Investigation**
- **Methodology**
- **Project Administration**
- **Resource**
- **Software**
- **Supervision**
- **Validation**
- **Visualization**
- **Writing – Original Draft Preparation**
- **Writing – Review & Editing**

An example of an Authors' Contribution statement using CRediT with degree of contribution:

Pierro Asara: review and editing (equal). **Kerys Jones**: Conceptualization (lead); writing – original draft (lead); formal analysis (lead); writing – review and editing (equal). **Elisha Roberto**: Software (lead); writing – review and editing (equal). **Hebei Wang**: Methodology (lead); writing – review and editing (equal). **Jinnie Wu**: Conceptualization (supporting); Writing – original draft (supporting); Writing – review and editing (equal).

Indian Publications on SARS-CoV-2: A bibliometric study of WHO COVID-19 database

Vasantha Raju N [a,*], S.B. Patil [b]

[a] Government First Grade College, Talakadu, Karnataka, India
[b] Department of Library & Information Science, Shivaji University, Kolhapur, Maharashtra,

Funding

The author(s) received no financial support for the study.

Author contributions

Idea and study design: Vasantha Raju N., and Patil S.B; Data collection and draft writing: Vasantha Raju N.; Revision and Finalization: Done by Both the Authors.

Declaration of competing interest

The authors declare that there is no conflict of interest.

15

Unethical Authorship Practices

- **Guest Authorship**

authorship based solely on an expectation that inclusion of a particular name will improve the chances that the study will be published or increase the perceived status of the publication

- **Gift Authorship**

An author is added to a paper when they have not actually made a contribution to the work, perhaps to reward a collaborator, return a favour, or for some other gain. Including PhD supervisor or HoD, etc.

-

- **Ghost Authorship**

This usually refers to professional writers (often paid by commercial sponsors) whose role is not acknowledged.

16

2. Plagiarism

One of the most common types of research misconduct

"The practice of taking someone else's work or ideas and passing them off as one's own"

- The Oxford English Dictionary

- Derived from a Latin word " Plagiarius"
  - Meaning 'kidnapper'

17

According to the Merriam-Webster online dictionary, to "plagiarize" means:

- to steal and pass off (the ideas or words of another) as one's own
- to use (another's production) without crediting the source
- to commit literary theft
- to present as new and original an idea or product derived from an existing source

Plagiarism is nothing but an act of fraud. It involves both stealing someone else's work and lying about it afterward.

18

Common Types of Plagiarism

- ✓ **Complete plagiarism:** Submit another authors work in your name
- ✓ **Source-based plagiarism:** Reference an incorrect or non-existent source
- ✓ **Direct plagiarism:** Copy text from another document word-to-word
- ✓ **Self or auto plagiarism:** Reuse a major part of your own work without attribution
- ✓ **Paraphrasing plagiarism:** Make minor changes and use others' writing
- ✓ **Mosaic plagiarism:** Interlay someone else's phrases or text within your work.
- ✓ **Accidental plagiarism:** Unintentional paraphrasing or copying due to neglect
- ✓ **Inaccurate authorship:** Authorship instead of acknowledgment to contributors and vice versa

- UGC's Efforts in Curbing the Menace of Plagiarism

UNIVERSITY GRANTS COMMISSION

NOTIFICATION

UNIVERSITY GRANTS COMMISSION (PROMOTION OF ACADEMIC INTEGRITY AND PREVENTION OF PLAGIARISM IN HIGHER EDUCATIONAL INSTITUTIONS) REGULATIONS, 2018

New Delhi, the 23rd July, 2018

SELF-PLAGIARISM

In the interests of Indian academia, to promote Indian research among the nations, and to ensure credibility and quality, from time to time the UGC has instituted various measures. In its efforts to curb plagiarism the y and Prevention of work does not acquire h global standards of n Ethics (COPE), the

out adequate citation and original for any known as 'self-

(ii) Text-recycling/self-plagiarism includes:

- republishing the same paper already published elsewhere *without due and full citation*;
- publishing smaller/excerpted work from a longer and previous *without due and full citations* in order to show a larger number of publications;
- reusing data already used in a published work, or communicated for publication, in another work *without due and full citation*;
- breaking up a longer/larger study into smaller sections and publishing them as altogether new work *without due and full citation*;
- paraphrasing one's own previously published work *without due and full citation* of the original.

20

UGC's Penalties in case of plagiarism in academic and research publications

- **Level 0 : Similarities up to 10%** - Minor similarities no penalty
- **Level 1: Similarities above 10% to 40%**
  - Shall be asked to withdraw the manuscript
- **Level 2 : Similarities above 40% to 60%**
  - Shall be asked to withdraw manuscript.
  - Shall be denied a right to one annual increment.
  - Shall not be allowed to be a supervisor to any new Master's, M.Phil., Ph.D. Student/scholar for a period of two years.
- **Level 3: Similarities above 60 %**
  - Shall be asked to withdraw manuscript.
  - Shall be denied a right to two successive annual increments.
  - Shall not be allowed to be a supervisor to any new Master's, M.Phil., Ph.D. Student/scholar for a period of three years.

21

- **Simultaneous Submissions**
  - Submitting same manuscript in same or different language(s) to one or more than one journal at the same time.
- **Duplication/Redundant Publications**
  - Duplicate publication is a form of redundant publication where the same article is published more than once, without acknowledging the first publication.
- **Salami (Slicing) Publications**
  - Slicing single study into multiple fragments and develop multiple papers out of it and submit it.

These practices are prevalent in Indian academia for lack of awareness on publication ethics and pressure to publish

22

3. Conflict of Interest (Competing Interest)

Conflict of interest exist in research when an individual (author, investigator, editor and reviewer) has a specific interest, that could affect his/her impartiality or maliciously influence his/her action.

1. **Identifying information.**
2. **The work under consideration for publication.**

This section asks for information about the work that you have submitted for publication. The time frame fo… work itself, from the initial conception and planning to the present. The requested information is about res… either directly or indirectly (via your institution), to enable you to complete the work. Checking "No" means… without receiving any financial support from any third party -- that is, the work was supported by funds fro… pays your salary and that institution did not receive third-party funds with which to pay you. If you or your … from a third party to support the work, such as a government granting agency, charitable foundation or co… "Yes".

3. **Relevant financial activities outside the submitted work.**

This section asks about your financial relationships with entities in the bio-medical arena that could be perc… give the appearance of potentially influencing, what you wrote in the submitted work. You should disclose… that could be considered broadly relevant to the work. For example, if your article is about testing an epid… (EGFR) antagonist in lung cancer, you should report all associations with entities pursuing diagnostic or the… in general, not just in the area of EGFR or lung cancer.

Report all sources of revenue paid (or promised to be paid) directly to you or your institution on your behal… submission of the work. This should include all monies from sources with relevance to the submitted work, … entity that sponsored the research. Please note that your interactions with the work's sponsor that are outs… should also be listed here. If there is any question, it is usually better to disclose a relationship than not to …

For grants you have received for work outside the submitted work, you should disclose support ONLY fro…

Section 1. Identifying Information

1. Given Name (First Name)	2. Surname (Last Name)	3. Date
N	Vasantha Raju	17-June-2020

4. Are you the corresponding author? ☑ Yes ☐ No

5. Manuscript Title
Indian Publications on SARS-CoV-2: A Bibliometric Study of WHO COVID-19 Database

6. Manuscript Identifying Number (if you know it)

Section 2. The Work Under Consideration for Publication

Did you or your institution **at any time** receive payment or services from a third party (government, commercial, private foundation, etc.) for any aspect of the submitted work (including but not limited to grants, data monitoring board, study design, manuscript preparation, statistical analysis, etc.)?

Are there any relevant conflicts of interest? ☐ Yes ☑ No

ADD

Section 3. Relevant financial activities outside the submitted work.

Place a check in the appropriate boxes in the table to indicate whether you have financial relationships (regardless of amount of compensation) with entities as described in the instructions. Use one line for each entity; add as many lines as you need by clicking the "Add +" box. You should report relationships that were **present during the 36 months prior to publication.**

Are there any relevant conflicts of interest? ☐ Yes ☑ No

ADD

Section 4. Intellectual Property -- Patents & Copyrights

Do you have any patents, whether planned, pending or issued, broadly relevant to the work? ☐ Yes ☑ No

24

4. Research Frauds

- Fabrication
  - Making up research data and results, and recording or reporting them
- Falsification
  - manipulating research materials, images, data, equipment, or processes, or changing or omitting data or results such that the research is not accurately represented in the research record.

AI & Publication Ethics

Table 5. Recommendations from COPE, ICMJE, and CSE on the use of AI tools in scholarly publishing

Topic	COPE	ICMJE	CSE
AI and authorship	AI tools cannot be listed as authors	AI technologies cannot be listed as authors	AI tools should not be listed as authors
AI use and transparency/ responsibility	Authors are fully responsible for the content of their manuscript, even those parts produced by an AI tool, and are thus liable for any breach of publication ethics. Transparency of processes must ensure technical robustness and rigorous data governance.	Humans are responsible for any submitted material that included the use of AI-assisted technologies. Authors should carefully review and edit the result because AI can generate authoritative-sounding output that can be incorrect, incomplete, or biased.	Authors must be accountable for all aspects of a manuscript, including the accuracy of the content that was created with the assistance of AI, the absence of plagiarism, and for appropriate attributions of such sources.
AI and disclose	Authors who use AI tools in the writing of a manuscript, production of images or graphical elements of the paper, or in the collection and analysis of data, must be transparent in disclosing in the Materials and Methods (or similar section) of the paper how the AI tool was used and which tool was used.	Authors who use such technology should describe, in both the cover letter and the submitted work in the appropriate section if applicable, how they used it. For example, if AI was used for writing assistance, describe this in the acknowledgment section. If AI was used for data collection, analysis, or figure generation, authors should describe this use in the methods.	Authors should disclose usage of AI tools and machine learning tools such as ChatGPT, Chatbots, and Large Language Models (LLM). CSE recommends that journals ask authors to attest at initial submission and revision to the usage of AI and describe its use in either a submission question or in the cover letter. Journals may want to ask for the technical specifications (name, version, model) of the LLM or AI and the method of the application (query structure, syntax).
AI and editors/peer-reviewers	AI chatbots pose for journal editors, including issues with plagiarism detection. It suggests the application of human judgment and suitable software to overcome these challenges.	Reviewers must maintain the confidentiality of the manuscript as outlined above, which may prohibit the uploading of the manuscript to software or other AI technologies where confidentiality cannot be assured. Reviewers must request permission from the journal prior to using AI technology to facilitate their review. Reviewers should be aware that AI can generate authoritative-sounding output that can be incorrect, incomplete, or biased. Editors should be aware that using AI technology in the processing of manuscripts may violate confidentiality.	

AI = artificial intelligence, COPE = Committee on Publication Ethics, ICMJE = International Committee of Medical Journal Editors, CSE = Council of Science Editors.

Why Our Manuscripts Gets Rejected In (Good) Academic Journals
Reasons & Suggestions for Improvements

Reasons	Suggestions for Improvement
Research Question & Scope	
• Weak Research Question • Lack of Novelty and a Significant Theoretical Contributions to the Field	• Be familiar with extant research & Key Unanswered Questions • Clearly Articulate Research Questions
Literature Review	
• Failing to Situate the paper in past literature • Incomplete literature search • Lack of References • Outdated Literature Review	• Conduct thorough literature review • Situate paper within existing literature • Clearly show the contributions to the field

34 Source: Teixeira da Silva, J. A., & Nazarovets, M. (2025). Rejected papers in academic publishing: Turning negatives into positives to maximize paper acceptance. *Learned Publishing*, *38*(1), e1649.

Reason	Suggestions
Manuscript Structure and Clarity	
• Poor & confusing introductions • Poor language & style • Poorly written manuscript • Excessive length • Incorrect formatting • Non-academic style of writing • Quality of figures not suitable for publication	• Provide clear and concise introductions • Use engage and modern style • Follow journals formatting guidelines • Ensure manuscript is concise
Methodology	
• Poor Study Design • Inadequate & Improper Methodology • Lack of Evaluation in Innovation Papers • Design Errors	• Provide detailed method section • Use robust data analysis • Include comparative studies and replications

35 Source: Teixeira da Silva, J. A., & Nazarovets, M. (2025). Rejected papers in academic publishing: Turning negatives into positives to maximize paper acceptance. *Learned Publishing*, *38*(1), e1649.

Reason	Suggestions
Results & Data Analysis	
• Inadequate presentations of results • Poor statistical analysis • Failure to present results clearly and systematically • Misinterpreted and erroneous data	• Restate each hypothesis and present results clearly • Use tables to summarize results • Avoid overly complex analysis
Discussion & Conclusions	
• Unwarranted conclusions • Conclusions not supported by data • Insufficient discussion • Fail to articulate contributions to theory, empirical evidence and practice	• Clearly articulate theoretical, empirical and practical contributions • Discuss limitations and directions for future research

36 Source: Teixeira da Silva, J. A., & Nazarovets, M. (2025). Rejected papers in academic publishing: Turning negatives into positives to maximize paper acceptance. *Learned Publishing*, *38*(1), e1649.

Reason	Suggestions
Ethical & Procedural Compliance	
• Plagiarism •Self-Plagiarism • Infringement of ethical principles • Simultaneous submissions to another journal • Unclear an institutional review board approval • A conflict of interest statement missing • Informed consent of subjects not taken • Salami slicing of data	• Ensure originality and proper citations • Adhere to ethical guidelines • Submit to one journal at a time • Maintain anonymity in review
Journal-specific Issues	
• Non-adherence to journal's instructions • Inappropriate journal selection • Topic outside of journal aims and scope	• Follow journal's specific guidelines • Ensure manuscript aligns with journal's scope by reviewing guidelines and previous publications

37 Source: Teixeira da Silva, J. A., & Nazarovets, M. (2025). Rejected papers in academic publishing: Turning negatives into positives to maximize paper acceptance. *Learned Publishing*, *38*(1), e1649.

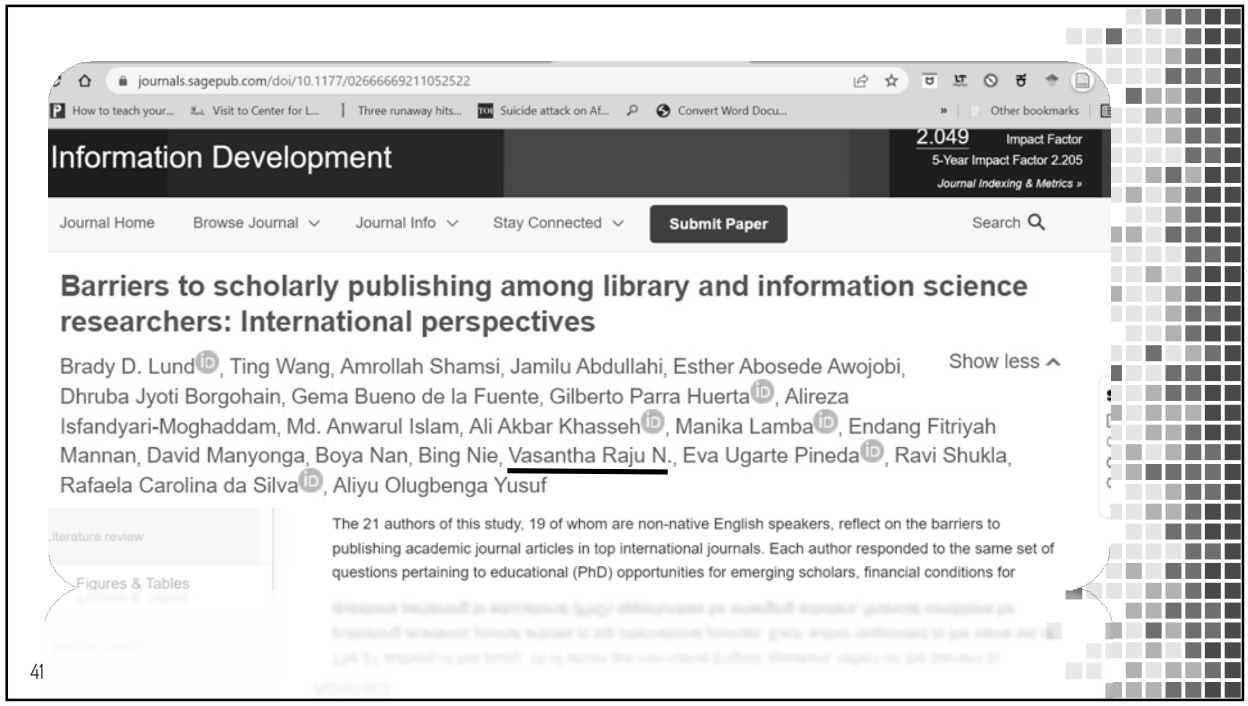
Barriers in Scholarly Publishing & How to Overcome this by adopting Ethical Publication Practices Using Open Science Platforms

40



41

Barriers Faced in Publishing in Top LIS Journals

Barrier	Frequency
Language Barriers	12
Lack of Research Funding	10
Popular Topics Can Vary Among Countries	4
Inadequate Wages for Researchers	3
Strict Journal Guidelines	3
Lack of Research Experience	2
Lack of Knowledge About Research Methods	2
Lack of Incentives for Publishing	2
Lack of Mentorship	1
Timing Constraints	1
Publication Costs	1
Lack of Internet Access	1

- There are many factors that have caused challenges in my experience, including:
  - Access to subscribed e-resources e.g., journals, conference proceedings listed in SCOPUS and WoS.
  - Lack of research culture inside and outside organizations
  - Lack of scientific writing workshops
  - Lack of essentials skills of English writing
  - Limited research projects/ funding supports in the library field
  - No mentoring facilities
  - No incentives for publishing in good ranking journals
  - Lack of Statistical Skills

47

Difference Between Preprints and Traditional Scholarly Publications

Table 1. Brief Explanation of the Differences Between Preprints and Traditional Research Papers

Characteristics	Preprints	Traditional Research Papers
Speed (ie, time from submission to availability)	Instantaneous, posted online usually within 48 h of submission	Usually weeks to months
Access	Free, open	Depends; often subscription and/or paywall. Many journals are making articles temporarily free during the COVID-19 pandemic period
Peer review	Typically no external peer review before posting Mechanism for open peer review (comments, social media, direct e-mail)	Peer reviewed by 2-4 reviewers typically in addition to editorial team; quality may vary
Trustworthiness	High variance; depends on authors since manuscript only undergo a quality check prior to being posted	Varies; Peer review and editorial process often, but far from always, picks up errors
Other aspects	Can mitigate "scooping"; allows citation of early work in grant applications

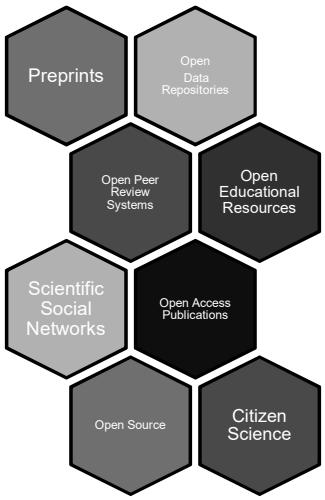
56

- **Publish/Deposit your research in open platforms such as preprints**
- **Create awareness on the potential advantage of posting preprints among teaching community**
- **Share Preprint related resources/ Tool Kits (e.g., ASAPbio (Accelerating Science and Publication in biology)**
- **Share your research data through open data repository platforms (e.g., figshare, Zenodo, dataverse, GitHub, etc.)**
- **Have your own ORCID and Other researcher ID (Google Scholar Profile, Scopus Author ID, WoS Research ID)**
- **Encourage Open Science Policies at local/state /country level**

57

- Open Science Platforms



58

- Open Data Repositories

Open research data refers to the data underpinning scientific research results that has no restrictions on its access, enabling anyone to access it.

St. Philomena's College (Autonomous)
Bannimantap, Mysore

6 - Day Faculty Development Programme on
"Empowering Educators: Advanced Research Methodologies and Strategies for High-Impact Publications"

an IQAC initiative

Prof. Dr. Lancy D' Souza,
Professor & Head,
Department of Psychology,
Maharaja's College, Mysore

11 January 2025

Day 6
"Data Collection and Analysis"

INSTITUTION'S INNOVATION COUNCIL

BRIEF CV

DR. LANCY D'SOUZA, PROFESSOR OF PSYCHOLOGY

Dr Lancy D'Souza was graduated in B.Sc from Mangalore University, later continued his post graduation in University of Mysore in Psychology. He obtained his Ph.D degree from the University from Mysore. He has obtained diploma in Bio-diversity from the Inuyama University, Kyoto. Later he joined as a lecturer at Maharaja's College, University of Mysore, Mysuru. At present he is working as a Professor of Psychology, Maharaja's College, Mysuru. Dr. Lancy D'Souza is serving as board of studies and board of examinations in several universities and autonomous colleges of few states.

Dr Lancy D'Souza has extensively worked on shyness as thrust area of research. Also, he is working on addiction to social media and sleep quality on students of both professional and non-professional courses. Dr. Lancy D'Souza has already published 250 articles in national and International journals. He is in the editorial board of 7 journals. He has edited 4 books on emerging trends in behavioral sciences. He has successfully guided 34 students for doctoral degree (Psychology, Criminology and Forensic Sciences) including foreign students, one candidate for post-doctoral degree and 25 students in M Phil degree. At present he is guiding 12 students for doctoral degree.

He is the recipient of prestigious IPA President's Gold medal award in the year 2017 for excellence in Psychology. He has been awarded best paper awards both in National and International conferences along with his co-authors. Along with his team he has developed PUBG Addiction Test (PAT) first time in the world. He has also developed tools on shyness assessment test (SAT), couple shyness questionnaire (CSQ), Shyness Subtypes questionnaire (SSQ), Life skills questionnaire (LSQ) and health & criminality proneness questionnaire (HCPQ).

Dr. D'Souza has visited more than 35 countries including France, Switzerland, United Kingdom, Germany, Japan, Australia, Iran, Netherlands, Africa, Russia and Malaysia. He has participated in several national and International conferences and presented papers /chaired sessions too. He was the principal investigator of UGC funded project on Shyness. He is the statistical/research consultant for several institutes in Karnataka and other states.

DATA ANALYSIS AND STATISTICAL TOOLS

By
Dr. Lancy D'Souza
Maharaja's College
University of Mysore

Data

- Categorical
- Numerical

SCALES OF MEASURMENT

- Nominal
- Ordinal
- Interval
- Ratio

Types

- Descriptive vs predictive vs Inferential
- Parametric vs non parametric
- Univariate vs multivariate
- Basic vs applied

Types of descriptive statistics…

1. Graphical representations
2. Measures of central tendency
3. Measures of variability
4. Measures of relationship
5. Others-Sten, T scores, Z scores

Types of graphical displays

- **Bar diagram/column diagram/Hisrogram**
- **Frequency polygon/Line diagram**
- **Cumulative percentage graph (Ogive)**
- **Pie chart**
- **Scatter diagram**
- **Pictograms**
- **Area Graphs**
- **Other types**

2. Measures of central tendency…

- **Mean**
- **Median**
- **Mode**
- **Geometric mean**
- **Harmonic mean**

METHODS OF MEASURING VARIABILITY

- Range
- Quartile Deviation
- Mean Deviation (Average deviation)
- Standard Deviation
- Variance
- Standard Error (SE)
- Co-variance

Role of statistics in Sample size

- Justify your sample size using any specific formula based on type of study
- Observational/cross sectional
- Interventional
- Survey research

Hypothesis Formulation

- Null hypothesis
- Alternative hypothesis
- Directional hypothesis

Examples

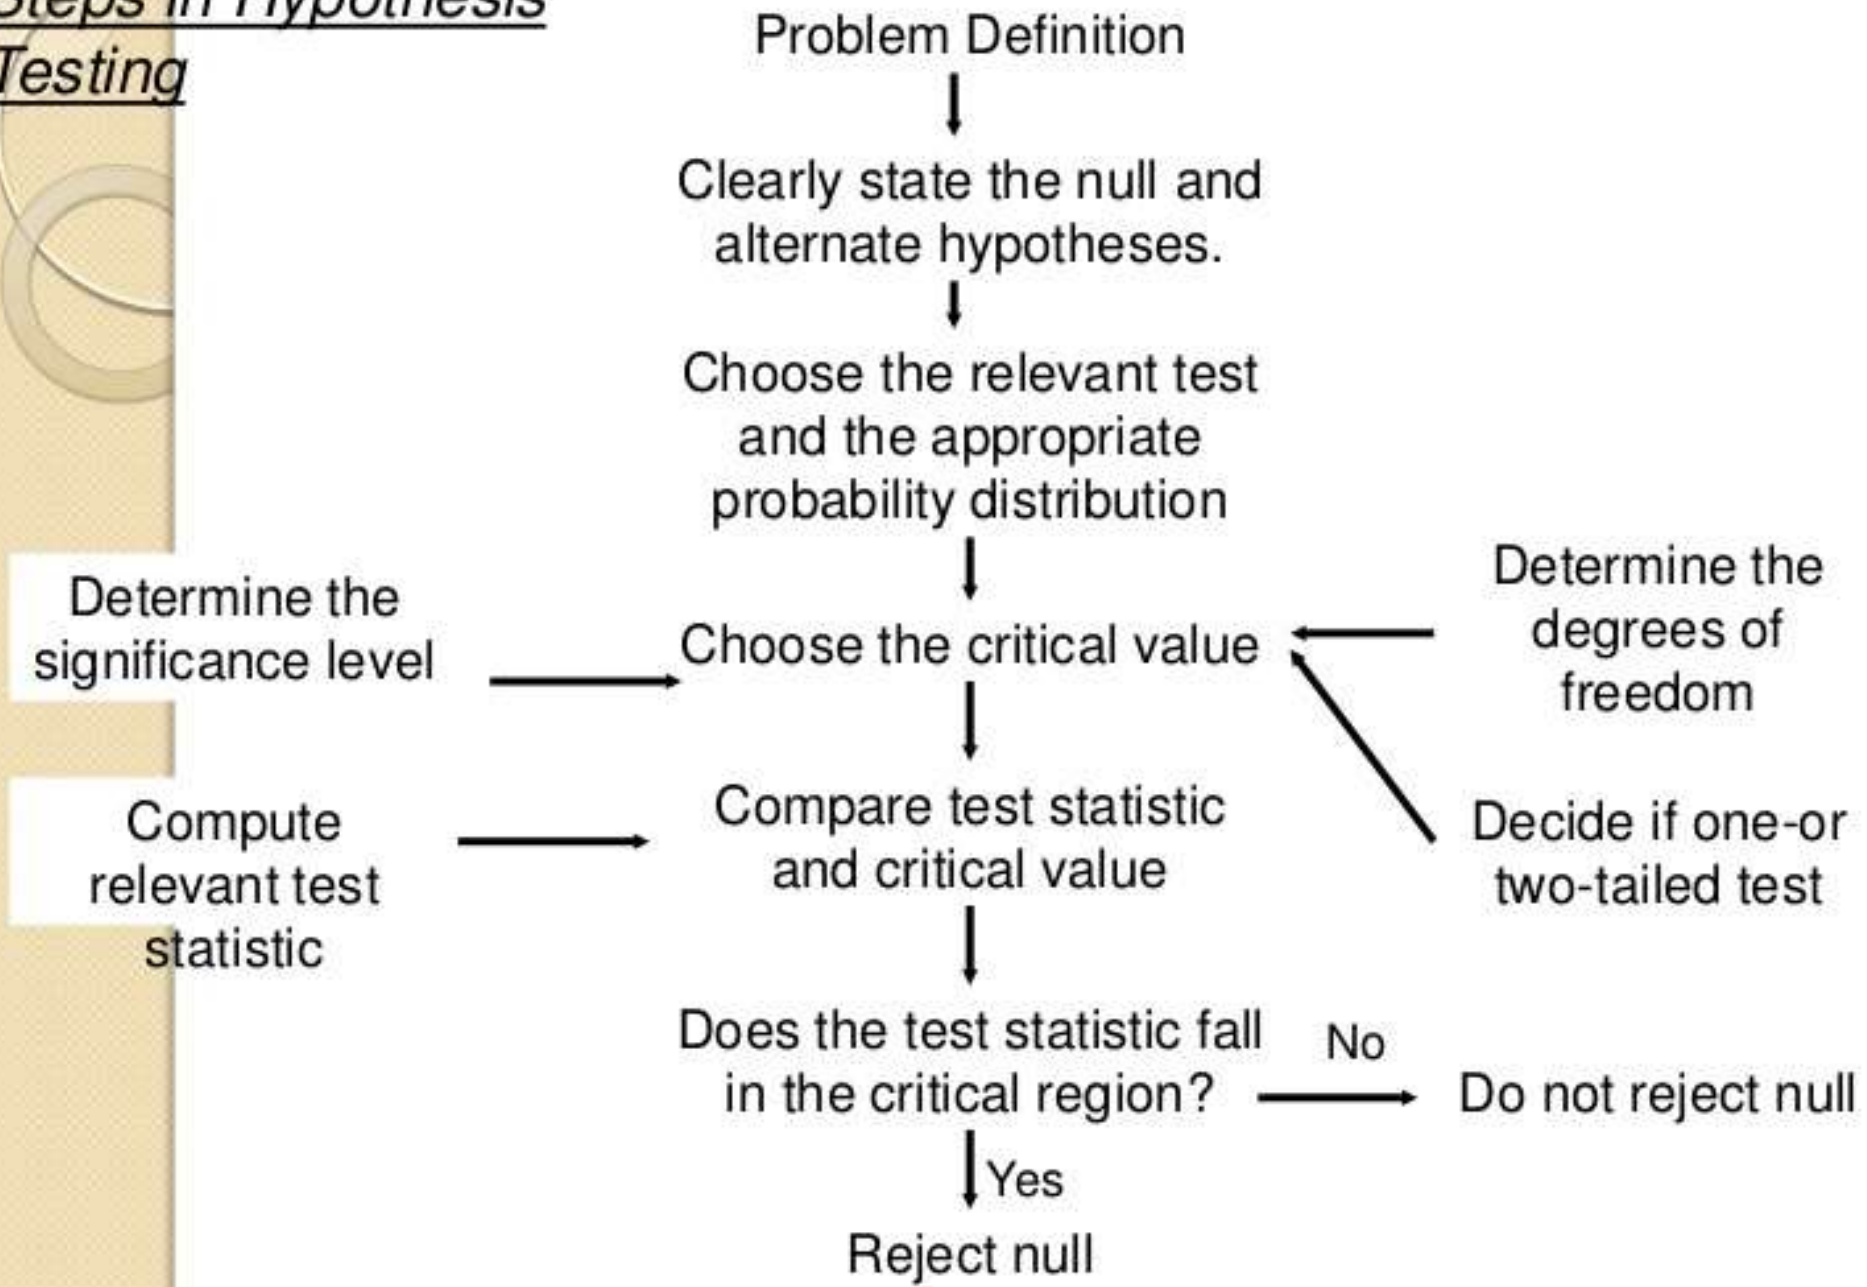
Type	Difference based	Relationship based
Null	Male and female students do not differ significantly in their extent of usage of library services	Number of hours of mobile usage and use of library services are not significantly related to each other
Alternative	Male and female students differ significantly in their extent usage of library services	Number of hours of mobile usage and use of library services are significantly related to each other
Directional	Female students use significantly more library services than male students	Higher the mobile usage, significantly, lesser the use of library services **Or** Number of hours of mobile usage and use of library services are negatively and significantly related to each other

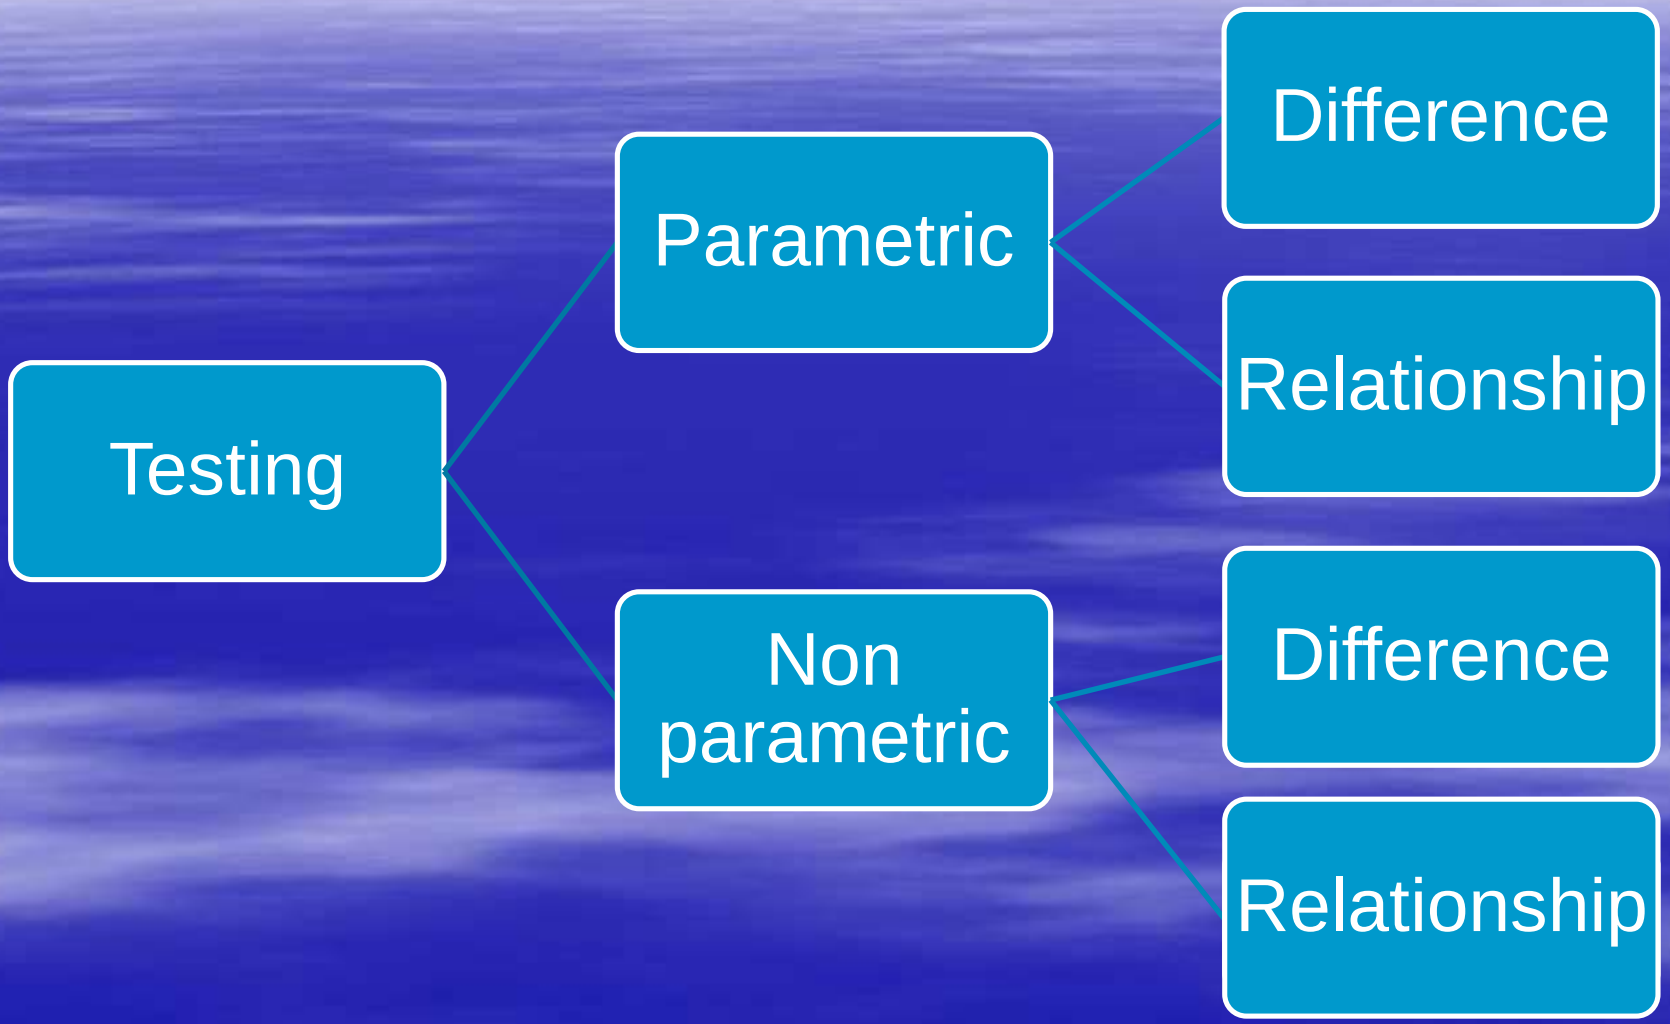
ANALYSIS OF DATA

- Before you subject the quantitative data for analysis subject to normality check

- 1. Shapiro-Wilk test (N<50)
- 2. Kolmogorov-Smirnov test (N>50)

Steps in Hypothesis Testing





Testing
Parametric
Non parametric
Difference
Relationship
Difference
Relationship

Consider

-what kind of data you have –categorical or numerical ?

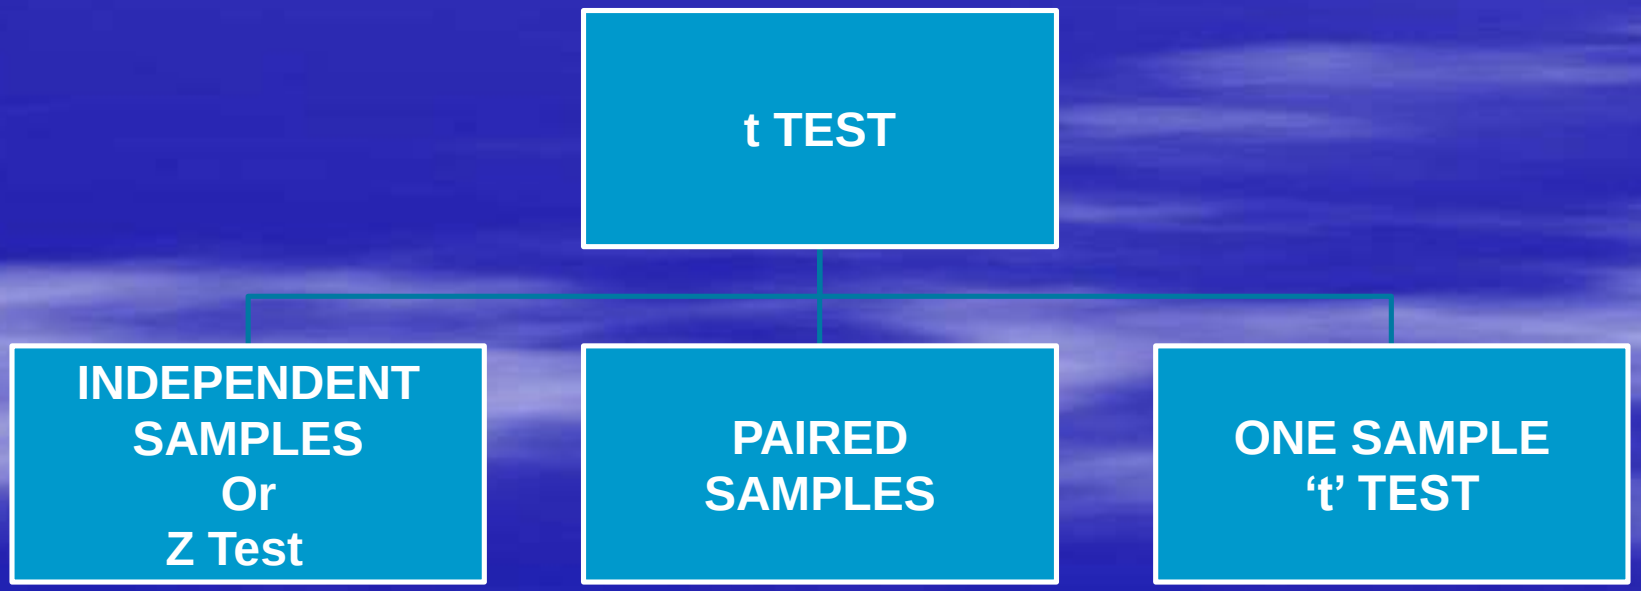
-What is required – difference or relationship

-What type of statistics you would opt –
parametric or non parametric

-Statistics- manual or software ? Or outsource ?

-Normality check?

Parametric
DIFFERENCE BASED TESTS
TWO GROUPS



More than 2 groups

- ANOVA
- -ONE WAY
- -UNIVARIATE ANOVA
- -MULTI VARIATE ANOVA
- -REPEATED MEASURE ANOVA

- ANCOVA

POST HOC TESTS

--LSD

-DUNCAN’S MULTIPLE RANGE TEST

-SCHEFFE’S HSD

-TUKEY’S POST HOC TEST

-BONFERRONI

-DUNNET’S

Parametric
RELATIONSHIP BASED TESTS

- CORRELATION Pearson's product moment
- PARTIAL CORRELATION

- REGRESSION

REGRESSION

SIMPLE MULTIPLE

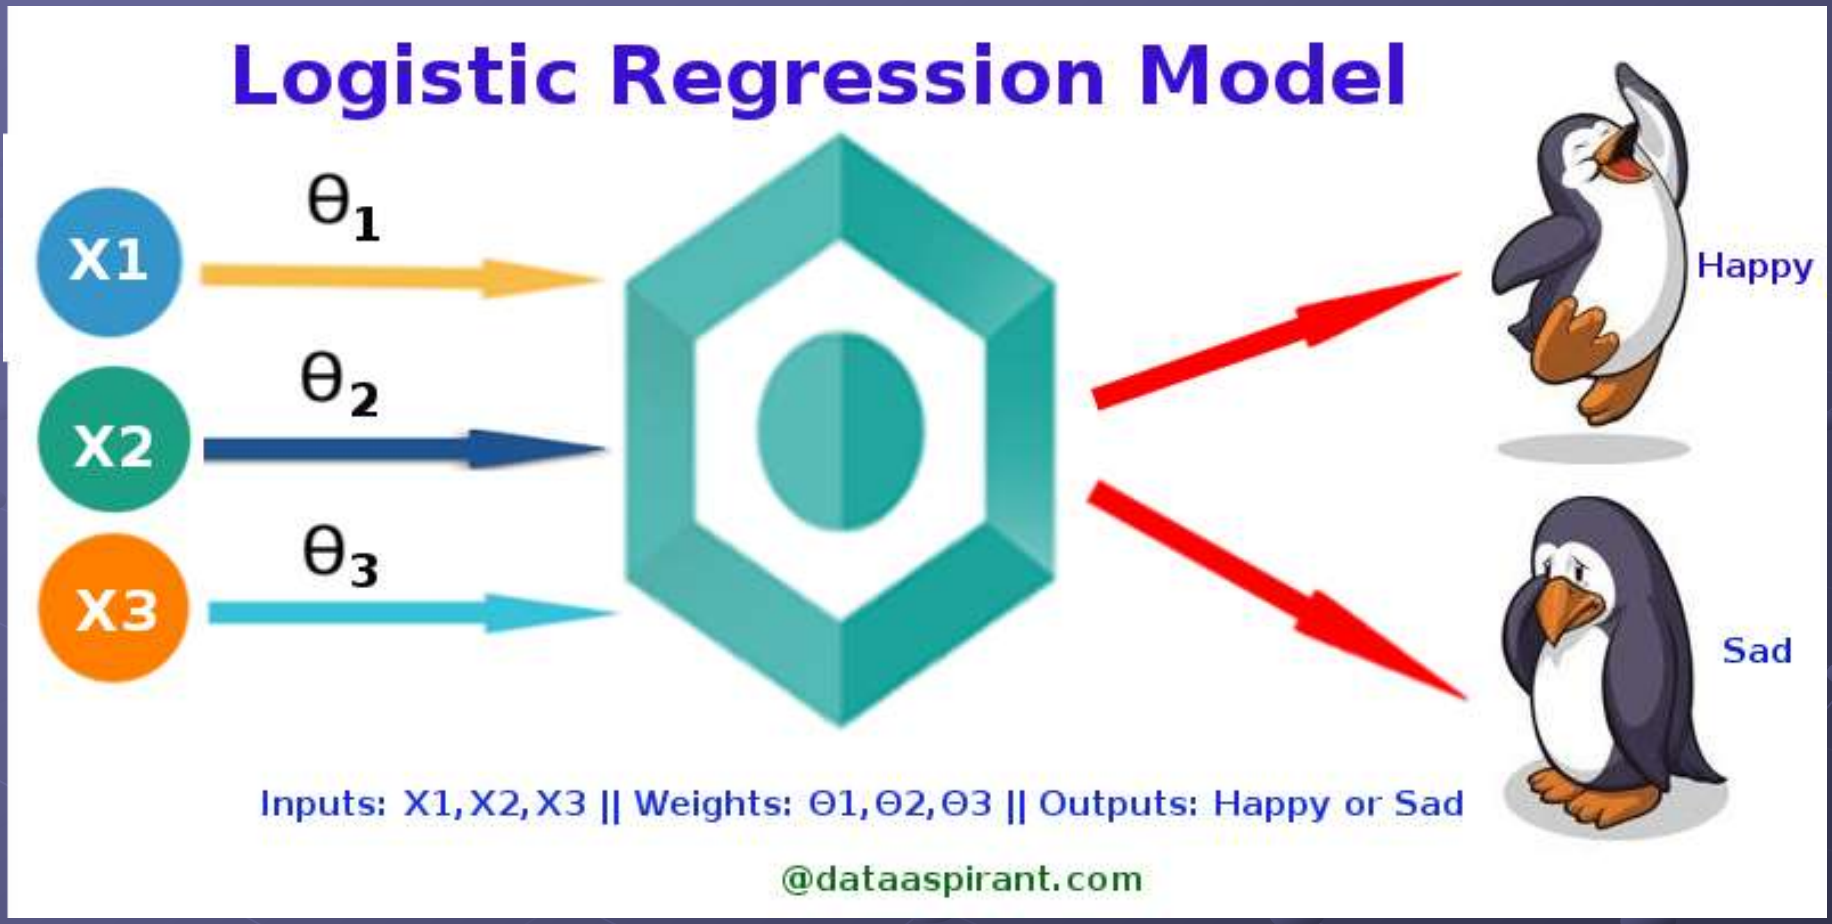
NON-PARAMETRIC DIFFERENCE BASED TESTS

-Chi-square test
-Mann-Whitney U test
-Wilcoxon Signed rank Test
-Kruskal Wallis One-way ANOVA

RELATIONSHIP BASED TESTS (NON-PARAMETRIC)

-Spearman's Rank difference correlation
-Contingency co-efficient test
-Cramer's V

-Regressions
-Binomial and Multinomial Logistic regressions

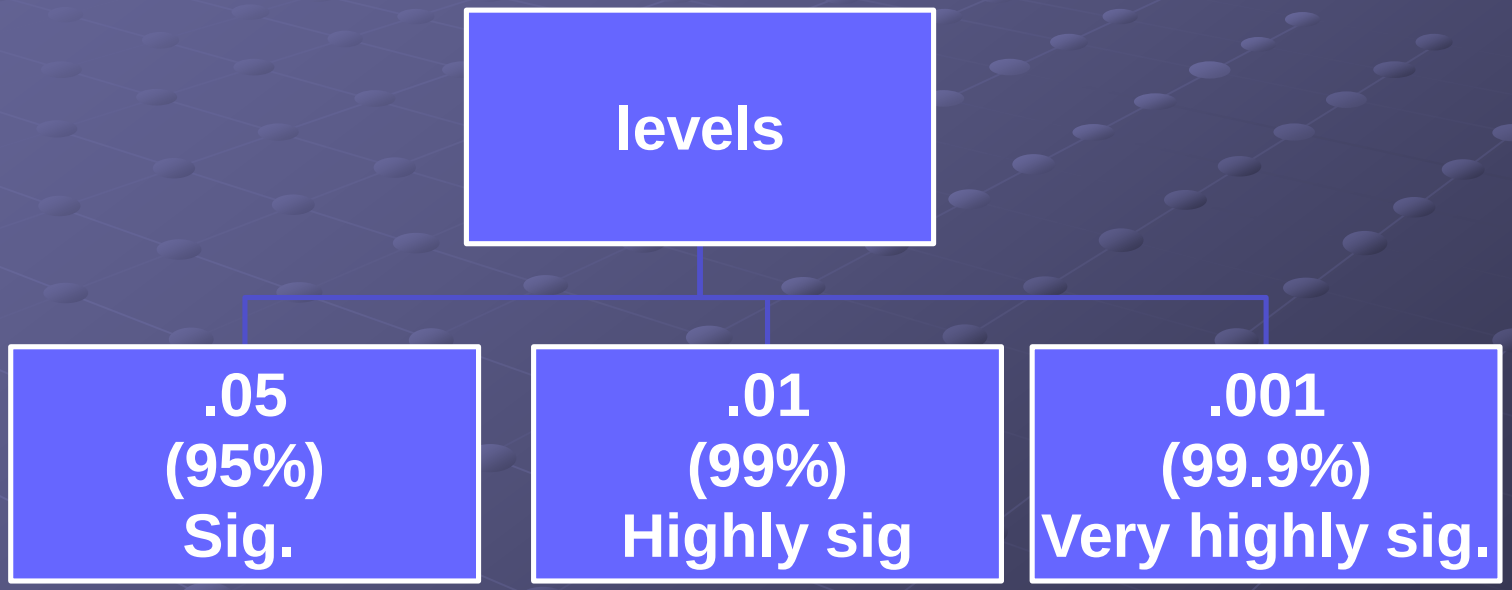


Logistic Regression Model
X1
X2
X3
θ1
θ2
θ3
Happy
Sad
Inputs: X1, X2, X3 || Weights: Θ1, Θ2, Θ3 || Outputs: Happy or Sad
@dataaspirant.com

Important considerations

- Before testing any data check for normality
- If the data is not following normality apply non-parametric tests even if data is parametric
- If data is less apply non-parametric tests even if data is parametric
- If data is less than 5, don’t apply any statistics, go only for descriptive statistics

Significance levels



Verification of the hypothesis

	Results	
Hypothesis	Significant	Non-significant
Null	Reject	Accept
Alternative/ Directional	Accept	Reject

Choosing Statistical Procedures

Measurement Scale of the Dependent Variable	One Independent Variable				Two Independent Variables	
	Two Levels		More than 2 Levels		Factorial Designs	
	Two Independent Groups	Two Dependent Groups	Multiple Independent Groups	Multiple Dependent Groups	Independent Groups	Dependent Groups
Interval or Ratio	Independent t-test	Dependent t-test	One-Way ANOVA	Repeated Measures ANOVA	Two -Factor ANOVA	Two-Factor ANOVA Repeated Measures
Ordinal	Mann-Whitney U	Wilcoxon	Kruskal-Wallis	Friedman		
Nominal	Chi-Square		Chi-Square		Chi-Square	

Error

Type I error is what happens when the tested hypothesis is falsely rejected. (It is when you say you found something, but that something is really an error.) A type I error is a false positive.

Type II error is what happens when a false tested hypothesis is not rejected (Hays, 1986). (It is when you don’t find something that is, in fact, there.) A type II error is a false negative.

Error

- Type-I error: **False Alarm** for a bogus effect
  - reject the null hypothesis when it is really true
- Type-II error: **Miss** a real effect
  - fail to reject our null hypothesis when it is really false
- Type-III error: :-)
  - lazy, incompetent, or willful ignorance of the truth

Examples of type I errors

- a test that shows a patient to have a disease when in fact the patient does not have the disease,
- a fire alarm going on indicating a fire when in fact there is no fire, or
- an experiment indicating that a medical treatment should cure a disease when in fact it does not.

Examples of type II errors

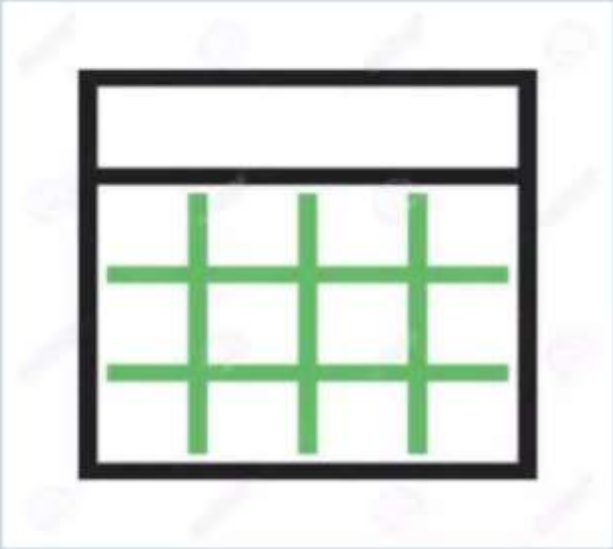
- a blood test failing to detect the disease it was designed to detect, in a patient who really has the disease;
- a fire breaking out and the fire alarm does not ring; or
- a clinical trial of a medical treatment failing to show that the treatment works when really it does

Results

- Use graphs and tables if appropriate, but also summarize main findings in the text.
- Do NOT discuss the results or speculate as to why something happened; that goes in the Discussion.
- Not necessarily have to include all the data gotten during the semester.
- Use appropriate methods of showing data.
- No need to manipulate the data.

Results (Tables/Graphs)

- If the data is presenting in a table or graph, include a title describing what's in the table
- For graphs, it should also labeled the x and y axes.
- No need to use a table or graph just to be "fancy".



Softwares for data analysis

- SPSS
- JASP
- Systat
- R and R studio
- Minitab
- NCSS
- Epistat
- Statview

THANK YOU

6 - Day Faculty Development Programme on
"Empowering Educators: Advanced Research Methodologies and Strategies for High-Impact Publications"

Valediction

Respected Faculty members,
Your feedback matters

11th January 2025

St. Philomena's College

(Autonomous), Mysore-15

Faculty Development Programme – 2025

SIX - Day Faculty Development Programme for the faculty members of UG & PG programmes Organized by the IQAC

A REPORT ON

THE SIX-DAY FACULTY DEVELOPMENT PROGRAMME (FDP) ON

"Empowering Educators : Advanced Research Methodologies and Strategies for High – Impact Publications"

DATE: ON 06th January 2025 – 11th January -2025

TIME - 02.00 PM to 04.30 PM

VENUE : COLLEGE AUDITORIUM

A REPORT ON THE SIX-DAY FACULTY DEVELOPMENT PROGRAMME (FDP) ON "Empowering Educators: Advanced Research Methodologies and Strategies for High – Impact Publications"

INTRODUCTION This report is submitted to present the details of the six - day FDP programme organized by the IQAC – Internal Quality Assurance Cell on 06th January to 11th January 2025, held in our college Auditorium.

ABOUT FDP The one week long FDP programme provided participants a comprehensive understanding of Research Methodology: Tools & Techniques and specially designed initiative aimed at equipping higher education teachers with the knowledge and skills required to excel in research and academic publishing. This programme was designed to be generic in nature for satisfying the needs of faculty pursuing their PhDs from academic institutions to provide them insights into cutting- edge research methodologies, data collection, design of experiments and statistical tools for analyzing data, strategies for crafting compelling manuscripts for top-tier journals also about the oral and written communication of research and dissemination the research outcome.

ABOUT PARTICIPANTS All the Research Scholars and academicians from different departments of the Undergraduate and Postgraduate programmes of St.Philomena's College (Autonomous), Mysore attended the FDP programme.

OBJECTIVES OF THE PROGRAMME

1. Improve Research skills.
2. To acquaint the participants about various software packages and tools available for simulation and data analysis.
3. To improve publication outcomes and empower educators.
4. To encourage networking and collaboration among educators to promote interdisciplinary research.

INAUGURAL SESSION

The Faculty Development Programme (FDP) commenced with an inaugural session organized by the Internal Quality Assurance Cell (IQAC), was conducted at the college auditorium. Dr. Deepa V, Co-coordinator, IQAC, Assistant Professor, Department of BBA, had played the role of Master of ceremony. The official inauguration was symbolized by watering of saplings – To Nurture the Growth of Faculty members by the Guest of Honor and the Speaker, Prof. Dr. Krishnaveni, Professor, Department of Studies in Physics, University Of Mysore, Rev. Dr. Lourdu Prasad Joseph, Rector, and Rev.Fr. Jnana Pragasam, Administrator, Rev. Fr. David Sagayaraj S, Assistant to Rector, Dr. Ravi J D Saldanha. Principal, Mr. M. Nagaraj Urs, Vice Principal (Administration), Mr. Ronald Prakash Cutinha, Vice Principal (Administration), Mr. A. Thomas Gunaseelan, Coordinator, IQAC.

Welcome Address

Mr. A. Thomas Gunaseelan, Coordinator, IQAC, delivered the welcome speech, setting the tone for the event.

Inaugural Address

The Rector - Rev. Dr. Lourdu Prasad Joseph delivered the inaugural address, welcoming participants to the FDP Programme. Emphasizing the importance of higher education, the Rector highlighted the need for innovative methodologies. The address also acknowledged the efforts of the Internal Quality Assurance Cell (IQAC) in organizing the event.

Introduction of Speaker

Dr. Sunil D' Souza, ICT Coordinator, Assistant Professor, Department of BCom, introduced the speaker, paving the way for the FDP's academic sessions.

DAY 1 – 06.01.2025

SESSION: 1

RESOURCE PERSON: PROF. DR. KRISHNAVENI, PROFESSOR, DEPARTMENT OF STUDIES IN PHYSICS, AND UNIVERSITY OF MYSORE.

TOPIC: "RESEARCH FOUNDATIONS AND LITERATURE REVIEW"

SALIENT FEATURES: INTRODUCTION TO RESEARCH PARADIGMS

*IDENTIFYING GAPS AND FRAMING RESEARCH QUESTIONS

*TOOLS FOR LITERATURE REVIEW (ZOTERO, MENDELEY, ETC).

On day 1, Prof. Dr. Krishnaveni, delivered session on introduction to research basics of research, objectives of research, scientific approach of research, significance of research, scope of research, various steps in conducting a research, various phases of research funding, research methodology etc. Prof. Dr. Krishnaveni discussed about how one can use efficiently scientific language of writing. Also gave information about Classification and Research foundation. Prof. Dr. Krishnaveni emphasized on theoretical framework, problem statement and objectives of research and Tools like Zotero and Mendeley are introduced to help manage references and streamline the literature review process. These tools simplify organizing large volumes of academic papers and citations, which are crucial for impactful research.

DAY 2 – 07.01.2025
SESSION: 2
RESOURCE PERSON: DR. MOHAMMED MINHAJ, DEAN- ACADEMICS, SDMIMD, MYSORE.
TOPIC: "HARNESSING AI FOR ADVANCING RESEARCH PRACTICES"
SALIENT FEATURES: ACCELERATING LITERATURE REVIEW AND MANAGEMENT RESEARCH DATA
***AI IN ADDRESSING PLAGIARISM AND AI ENHANCEDANALYSIS AND VISUALIZATION**
***REFERENCES AND CITATIONS- MANAGEMENT.**

On day 2, DR. MOHAMMED MINHAJ, delivered session on the use of Artificial Intelligence (AI) in research is emphasized as a modern necessity. AI can: Automate literature reviews. DR. MOHAMMED MINHAJ discussed about how one can use efficiently Detect and prevent plagiarism, Assist in data analysis and visualization. Participants learn how to integrate AI tools effectively into their research processes, which not only saves time but also improves the quality and accuracy of their work.

DAY 3 – 08.01.2025

SESSION: 3

RESOURCE PERSON: DR. HARSHA, CHAIRMAN, DEPARTMENT OF ENVIRONMENTAL SCIENCE, DIRECTOR (R&D) AND SPECIAL OFFICER –PHD CELL, KSOU, MYSORE.

TOPIC: "FUTURE RESEARCH DIRECTIONS AND COLLABORATION"

SALIENT FEATURES: EXPLORING INTE4RDISCIPLINARY AND COLLABORATIVE RESERCH OPPORTUNITIES

*EMERGING TRENDS IN ACADEMIC RESEARCH

*BEST PRACTICES FOR SUSTAINING RESEARCH PRODUCTIVITY.

On day 3, DR. HARSHA, delivered session on This session prepares participants for future challenges and opportunities in academia: Emphasis is placed on interdisciplinary research, which fosters innovation by combining knowledge from different fields.

DR. HARSHA discussed about how one can use efficiently scientific Insights into emerging trends such as sustainability, technology-driven studies, and data-driven decision-making are shared. Strategies for building collaborations across institutions and disciplines are explored to enhance the reach and impact of research.

DAY 4 – 09.01.2025

SESSION: 4

RESOURCE PERSON: PROF. DR. G.S. PREMAKUMARA, PROFESSOR, DOS IN ECONOMICS, SIR MV PG CENTRE, UOM, TUBINAKERE, MANDYA.

TOPIC: "RESEARCH METHODOLOGY AND DESIGN"

SALIENT FEATURES: UNDERSTANDING THE ANATOMY OF A RESEARCH PAPER

*WRITING EFFECTIVE ABSTRACTS, INTRODUCTIONS AND DISCUSSION

*MANAGING REFERENCE AND AVOIDING PLAGIARISM.

On day 4, PROF. DR. G.S. PREMAKUMARA, delivered session on Structuring and Writing a Research Paper Writing a well-structured research paper is essential for publication in reputed journals. This session helps participants: Understand the anatomy of a paper (e.g., abstract, introduction, methodology, results, and discussion). PROF. DR. G.S. PREMAKUMARA emphasized on Develop skills for writing clear and compelling abstracts, cohesive discussions, and concise conclusions. Address common issues such as plagiarism and manage references using citation software

DAY 5 – 10.01.2025

SESSION:5

RESOURCE PERSON: DR. VASANTHA RAJU N, PRINCIPAL (INCHARGE) & LIBRARIAN, GFGC, TALAKADU, MYSORE.

TOPIC: "PUBLICATION ETHICS AND NEW SCHOLARLY PUBLISING MODELS"

SALIENT FEATURES: HOW TO CHOOSE THE RIGHT JOURNAL (SCOPUS, WEB OF SCIENCE, UGC CARE)

***NAVIGATING THE PEER REVIEW PROCESS**

***STRATEGIES FOR ENHANCING ACCEPTANCE RATES.**

On day 5, DR.VASANTHA RAJU N , delivered session on Publication Ethics and Scholarly Publishing Models. This session focuses on ethical research and selecting the right platforms for publication. Topics include: Guidelines for identifying credible journals indexed in Scopus, Web of Science, or UGC CARE.

DR.VASANTHA RAJU N emphasized on Understanding predatory journals and avoiding unethical publishing practices. Strategies for navigating the peer-review process and increasing acceptance rates.

DAY 6 – 11.01.2025

SESSION: 6

RESOURCE PERSON: PROF. DR. LANCY D'SOUZA, PROFESSOR AND HEAD, DOS IN PSYCHOLOGY, MAHARAJA'S COLLEGE, MYSORE

TOPIC: "DATA COLLECTION AND ANALYSIS"

SALIENT FEATURES: SELECTING AND USING STAISTICAL TOOLS (SPSS, R, ETC)

*QUALITATIVE DATA ANALYSIS TECHNIQUES (THEMATIC ANALYSIS, NVIVO)

*DATA VISUALIZATION FOR RESEARCH PRESENTATION.

On day 6, PROF. DR. LANCY D'SOUZA, delivered session on Data Collection and Analysis. This session provides hands-on training in collecting, analyzing, and presenting data effectively. Statistical tools like SPSS and R are introduced to analyze quantitative data.

PROF. DR. LANCY D'SOUZA emphasized on Qualitative analysis methods, such as thematic analysis using NVivo, is taught. Participants also learn data visualization techniques to enhance the impact of research presentations.

Expected Outcomes:

1. IMPROVED RESEARCH SKILLS AND COMPETENCIES.

2. ENHANCED UNDERSTANDING OF RESEARCH METHODOLOGIES AND INNOVATIONS.

3. EFFECTIVE INTEGRATION OF TECHNOLOGY IN RESEARCH.

4. CONTRIBUTION TO THE DEVELOPMENT OF HIGH- IMPACT RESEARCH.

VALEDICTORY SESSION

The FDP was concluded with valedictory function on 11th January, 2025. In the Valedictory session, Prof. Dr. Lancy D'Souza, Professor and Head, DOS in Psychology, Maharaja's College, Mysore, Rev. Dr. Lourdu Prasad Joseph, Rector, and Rev.Fr. Jnana Pragasam, Administrator, Rev. Fr. David Sagayaraj S, Assistant to Rector, Dr. Ravi J D Saldanha. Principal, Mr. M. Nagaraj Urs, Vice Principal (Administration), Mr. Ronald Prakash Cutinha, Vice Principal (Administration), Mr. A. Thomas Gunaseelan, Coordinator, IQAC, Dr. Deepa V, Co-coordinator, IQAC, Assistant Professor, Department of BBA, were present. Mr. William Joseph, Assistant Professor, Head, Department of English, had played the role of Master of ceremony. The welcome speech was given by Rev. Sr. Angeline Vimal, Assistant Professor, Department of English and The valedictory speech was given by Rev. Dr. Lourdu Prasad Joseph, Rector, congratulated the Coordinators and Organizing Committee for successfully conducting FDP, he also appreciated the FDP theme. The vote of thanks was given Dr. Deepa V, Co-coordinator, IQAC, Assistant Professor, Department of BBA; she highlighted the immense contribution of the Organizing Committee members and experts. Feedback by the participants and All the participants were distributed with the participant certificates on successful completion of **SIX-DAY FACULTY DEVELOPMENT PROGRAMME (FDP) ON "Empowering Educators: Advanced Research Methodologies and Strategies for High – Impact Publications".**

Drafted by Dr. Yamuna. B. Raj, Assistant. Professor Department of Journalism and Mass Communication, St. Philomena's College, (Autonomous,) Mysore.
Photography by, Mr. Swamynathan. A, Office Section, St. Philomena's College, (Autonomous), Mysore.

FEEDBACK ANALYSIS

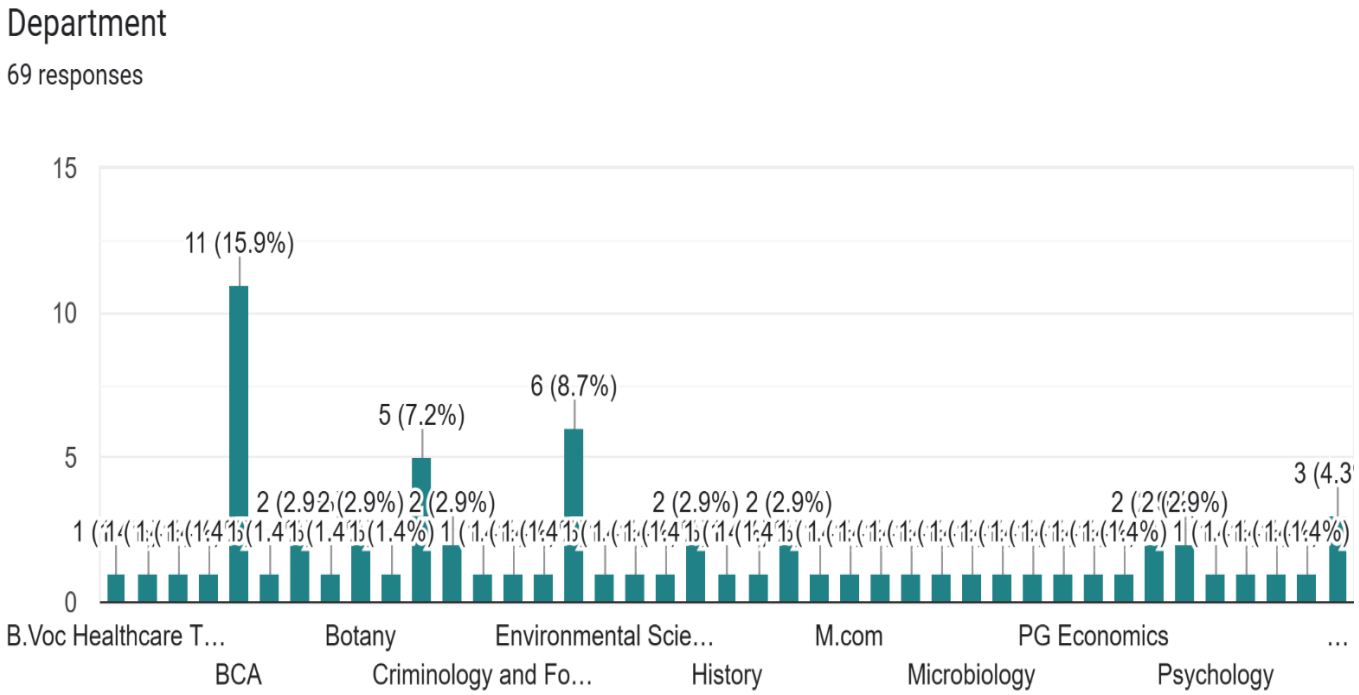
6 - Day – Faculty Development Programme (FDP) on "Empowering Educators: Advanced Research Methodologies and Strategies for High-Impact Publications"

This report presents a detailed analysis of the feedback collected during the 6-Day Faculty Development Programme (FDP) on **"Empowering Educators: Advanced Research Methodologies and Strategies for High-Impact Publications."** The primary objective of this analysis is to evaluate the effectiveness of various dimensions of the FDP, including its organization, relevance, presentation quality, and overall impact.

The feedback data was gathered from participants across multiple departments and roles, reflecting diverse perspectives. Ratings were collected on a standardized scale ranging from 1 (Poor) to 5 (Excellent) for the following key aspects:

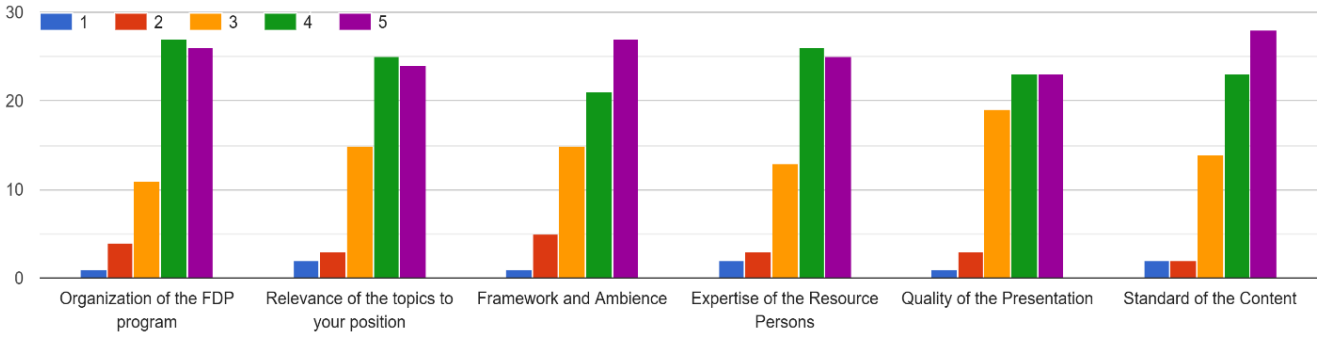
1. **Organization of the FDP Program:** Evaluates the systematic planning and execution of the sessions.
2. **Relevance of the Topics to Participants' Positions:** Measures how well the topics aligned with the participants' academic and professional needs.
3. **Framework and Ambience:** Assesses the learning environment and structural coherence of the program.
4. **Expertise of the Resource Persons:** Evaluates the knowledge, delivery, and engagement of the invited experts.
5. **Quality of the Presentations:** Reflects participants' perceptions of the clarity, structure, and delivery of the sessions.
6. **Standard of the Content:** Examines the depth, relevance, and comprehensiveness of the material covered.

This analysis aims to identify strengths, areas for improvement, and actionable recommendations to enhance future FDPs. The results highlight participant satisfaction levels, suggestions for customization, and opportunities for making the program more impactful and inclusive.



Analysis of the FDP programme:

Kindly respond to the following questions by selecting your choice in the response scale: 1. Poor 2. Satisfactory 3. Good 4. Very Good 5. Excellent



Category	1 (Poor)	2 (Satisfactory)	3 (Good)	4 (Very Good)	5 (Excellent)
Organization of the FDP program	3.3%	8.3%	13.3%	41.7%	33.3%
Relevance of the topics to your position	1.7%	6.7%	11.7%	36.7%	43.3%
Framework and Ambience	1.7%	5.0%	10.0%	40.0%	43.3%
Expertise of the Resource Persons	1.7%	3.3%	8.3%	36.7%	50.0%
Quality of the Presentation	1.7%	5.0%	10.0%	33.3%	50.0%
Standard of the Content	1.7%	5.0%	8.3%	33.3%	51.7%

Insights Based on Responses:

"Excellent" (5) is the most frequent rating in all categories, ranging from 33.3% to 51.7%, indicating a strong positive reception.

"Very Good" (4) also consistently receives high percentages, between 33.3% and 41.7%, demonstrating overall satisfaction.

Low ratings (1 and 2) collectively range between 1.7% and 8.3%, suggesting very few participants were dissatisfied.

Key Observations:

1. **Organization of the FDP Program**:
    - Majority of respondents rated this aspect as "Very Good" (4) and "Excellent" (5).
    - Only a small proportion rated it as "Poor" (1) or "Satisfactory" (2), indicating general satisfaction with the program's organization.
2. **Relevance of the Topics to Your Position**:
    - Ratings of "Very Good" and "Excellent" dominate, suggesting that the topics were highly relevant to participants.
    - A minimal number of "Poor" and "Satisfactory" ratings were recorded.
3. **Framework and Ambience**:
    - High ratings of "Very Good" (4) and "Excellent" (5) were observed, reflecting strong approval of the framework and ambience.
    - Lower ratings ("Poor" and "Satisfactory") were minimal, confirming positive participant experiences.

4. **Expertise of the Resource Persons**:
    - The highest ratings of "Very Good" and "Excellent" indicate that the resource persons were well regarded for their expertise.
    - Few "Poor" or "Satisfactory" ratings demonstrate a minimal level of dissatisfaction.
5. **Quality of the Presentation**:
    - Ratings again show a majority in the "Very Good" and "Excellent" categories, emphasizing participant satisfaction with presentation quality.
    - Lower ratings are infrequent, pointing to an overall positive reception.
6. **Standard of the Content**:
    - The highest number of "Excellent" ratings were recorded for this category, highlighting participant approval of the content's quality.
    - Ratings of "Poor" and "Satisfactory" are negligible.

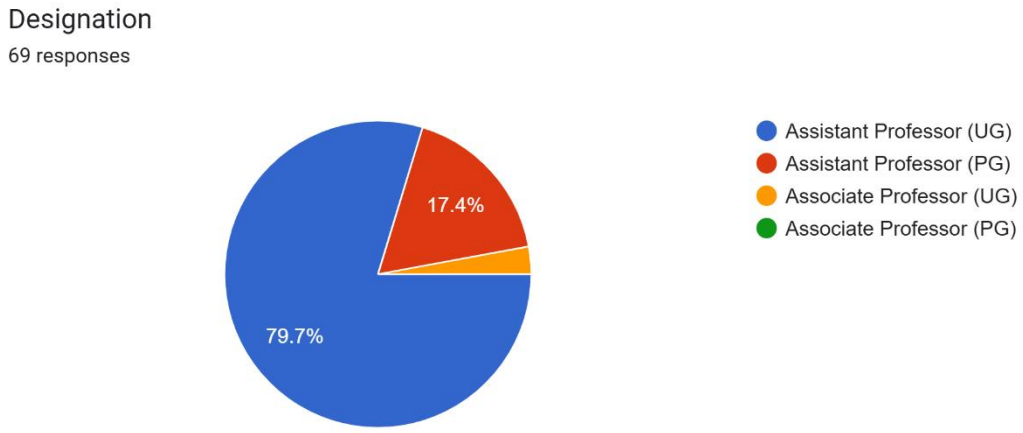
General Analysis:

- The feedback is overwhelmingly positive, with most ratings falling into the "Very Good" and "Excellent" categories across all parameters.
- The least positive feedback is seen in the categories of "Organization of the FDP Program" and "Framework and Ambience," though even here, the dissatisfaction is minimal.
- The program's strengths lie in the expertise of resource persons, quality of the presentation, and the standard of content, which received the highest "Excellent" ratings.

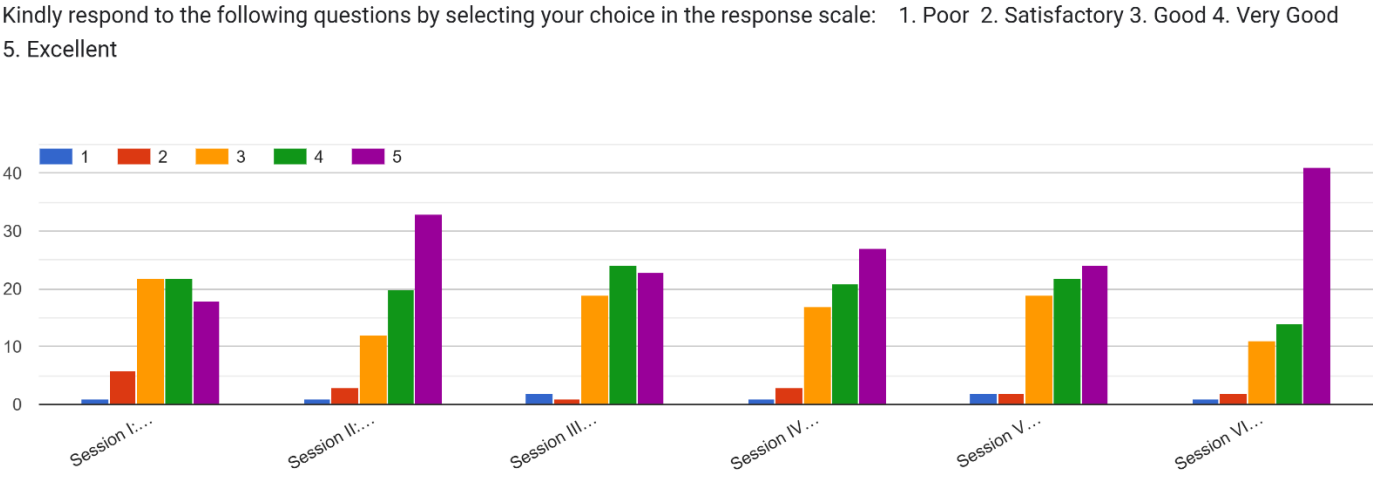
Recommendations:

1. **Focus on Continuous Improvement**: Maintain high standards in resource person selection, presentation quality, and content standard to retain participant satisfaction.
2. **Address Areas for Improvement**: Investigate the specific concerns behind the "Poor" and "Satisfactory" ratings for organization and framework/ambience to ensure all aspects meet expectations.
3. **Participant Engagement**: Gather qualitative feedback to understand specific areas where enhancements can be made.

Overall, the feedback suggests a highly successful FDP program with room for minor adjustments.



Analysis of the sessions conducted on various days:



Session I: Prof. Dr. Krishnaveni (06th January 2025)

- **Topic:** "Research Foundations and Literature Review"
- **Average Rating:**
    - The majority rated this session positively, with responses mostly in the range of "Good" to "Excellent."
- **Feedback Highlights:**
    - Participants found this session fundamental and essential for their understanding of research basics. Suggestions include ensuring the pace and content meet the needs of freshers and experienced faculty alike.

- **Insights:**
    - Maintaining a clear, structured approach in such sessions is critical for setting the foundation of the FDP.

Session II: Dr. Mohammed Minhaj (07th January 2025)

- **Topic:** "Harnessing AI for Advancing Research Practices"
- **Average Rating:**
    - Responses indicate this was among the most engaging sessions, with many ratings it "Very Good" or "Excellent."
- **Feedback Highlights:**
    - Participants appreciated the relevance of AI in research but suggested including more practical demonstrations.
- **Insights:**
    - Hands-on AI tools or interactive segments could make future sessions more impactful.

Session III: Dr. T. S. Harsha (08th January 2025)

- **Topic:** "Future Research Directions and Collaboration"
- **Average Rating:**
    - Ratings varied, with some participants finding it insightful and others suggesting more diverse content.
- **Feedback Highlights:**
    - Collaboration and future research directions were acknowledged as crucial but needed more real-world examples.
- **Insights:**
    - Incorporating case studies or success stories in collaborative research can provide clarity and inspiration.

Session IV: Prof. Dr. G.S. Premakumara (09th January 2025)

- **Topic:** "Research Methodology and Design"
- **Average Rating:**
    - Generally positive, with most participants finding it valuable.
- **Feedback Highlights:**

- A few participants mentioned that some aspects of the methodology were already familiar, indicating varied expertise levels in the audience.

- **Insights:**
  - Tailoring content depth to participant backgrounds can enhance engagement.

Session V: Dr. Vasantha Raju N. (10th January 2025)

- **Topic:** "Publication Ethics & New Scholarly Publishing Models"
- **Average Rating:**
  - Consistently high ratings, with "Very Good" and "Excellent" dominating.
- **Feedback Highlights:**
  - Participants emphasized the importance of ethics in publication and found the session enlightening.
- **Insights:**
  - Adding role-play scenarios or workshops on identifying ethical dilemmas could strengthen the learning experience.

Session VI: Prof. Dr. Lancy D' Souza (11th January 2025)

- **Topic:** (Topic not explicitly mentioned, possibly focused on psychology or interdisciplinary approaches)
- **Average Rating:**
  - One of the highest-rated sessions, with many participants marking it as "Excellent."
- **Feedback Highlights:**
  - The session was praised for its engaging delivery and relevance.
- **Insights:**
  - Similar sessions with an interdisciplinary focus could provide broader appeal.

Suggestions from the participants:

Good
None
Very informative sessions
It was very helpful and innovative, well organised and well planned
As a fresher I felt categorize participants based on their experience
Well organized
Enriching sessions.
All the seasons were useful.
Well organized
Very good organizing the FDP program
Kindly incorporate time in the academic calendar for research work without other disturbances for better outcomes
The topics were useful.
May be organised topics on the theme will be helpful because few of the topics was same. We do freshers require basic to excellent knowledge on paper writings.
Some of the Sessions were relevant to the time and few sessions were very interesting and useful.
As a fresher I learned something regarding this, and it was very helpful for us thank you
All the 6 days FDP is more useful
Please consider language fraternity
Separate for subject
The FDP was highly insightful and well-structured, offering valuable knowledge and practical applications for professional growth. We look forward for such more meaningful program
Well Organised
NIL
Good, next time kindly focus on basics of writing in research especially for freshers

It’s fruitful and informative
It was a well-organized session.
It was a very informative session conducted. But, looking forward to a more impactful session in the future based in the requirements of the faculty other than research methodology.
More FDP
Need information from basics for freshers
In future involve workshop and practical session
Think for language research
Looking forward to more sessions like this .
Can also provide basic information about the research
All the best
Good Program
Good speakers
It would also be good if we could have some sessions on personal development. I also suggest that we can make use of internal resources for some sessions. If we can utilize a multidisciplinary approach and have interdepartmental collaborations in some way.
Thank you
Often conduct this kind of workshop. Thank you
Thank you for the opportunity
Good sessions
More inspiring speakers
Please consider freshers and give basic information for the freshers
Try to arrange FDP department wise.
It was helpful.
Very well organised and executed. No comments
Let the topics be diverse and interesting.
Good

Please include more insight on Languages
Great initiative
Very informative sessions and expected have more such programs
Subject wise/stream wise sessions would be more beneficial to the faculty members
Let the topics be not repetitive
The only suggestion that I would like to make is to conduct these sessions at a time convenient to both UG and PG in order to have a balanced attendance of both faculties. And, to avoid over burden of work specially at the end of semester. Thank you.
The sessions was very informative and have learnt many important things about research and helped us to understand how to do research about the particular topics
It will be a great opportunity for myself as a fresher in the field of Research if i am provided with related sessions in future about the basics of Research.
Each and every session was informative and knowledgeable. I express my heartfelt congratulations to IQAC for organizing such Enlightening sessions to the faculty members. Thank you
Frequently conduct these kind of valuable and informative sections
Specific group support in research assistance
Very Useful, well planned and executed
Nil
No comments
Nil

Overall Suggestions Across Sessions

1. **Interactive Learning:**
    - Participants consistently suggested including workshops or practical demonstrations for better engagement.
2. **Tailoring Content:**
    - Freshers requested beginner-level content, while experienced attendees desired advanced, innovative topics.
3. **Diverse Topics:**

- Avoiding repetition and ensuring a broad spectrum of topics across disciplines was a common recommendation.

4. **Timing Considerations:**
    - Aligning FDP schedules with academic workloads would increase participation and focus.
