Internal Quality Assurance Cell (IQAC)

# ST. PHILOMENA'S COLLEGE (Autonomous)

Affiliated to the University of Mysore | Mysuru – 570 015

## STUDENT FEEDBACK ON CURRICULUM — 2025

September 2025 | St. Philomena's College (Autonomous) | Mysuru

The Internal Quality Assurance Cell (IQAC) of St. Philomena's College (Autonomous) collected student feedback on the curriculum during **September 2025**. A total of **183 students** participated. The survey comprised **10 components** covering curriculum quality, relevance, skill integration, internship opportunities, syllabus completion, and co-curricular engagement. The rating scale used is: Strongly Agree (5) → Strongly Disagree (1).

## 1. RESPONDENT PROFILE

## 3. OVERALL FEEDBACK SUMMARY

| Q# | Component | N | Mean | SD | Strongly Agree | Agree | Neutral | Disagree | Str. Disagree | Remarks |
|---|---|---|---|---|---|---|---|---|---|---|
| Q1 | Curriculum meets local, national, regional, and global developmental needs | 183 | 3.45 | 1.295 | 40 (22%) | 68 (37%) | 35 (19%) | 15 (8%) | 25 (14%) | Not Reqd. |
| Q2 | The curriculum is up-to-date, need based & application oriented | 183 | 3.48 | 1.262 | 36 (20%) | 78 (43%) | 31 (17%) | 14 (8%) | 24 (13%) | Not Reqd. |
| Q3 | Syllabus and learning materials are adequate in terms of quality and quantity | 183 | 3.57 | 1.247 | 42 (23%) | 77 (42%) | 27 (15%) | 17 (9%) | 20 (11%) | Not Reqd. |
| Q4 | Reliability weightage is given to theory and practical course content | 183 | 3.58 | 1.263 | 45 (25%) | 72 (39%) | 34 (19%) | 9 (5%) | 23 (13%) | Not Reqd. |
| Q5 | Curriculum integrates entrepreneurship, employability, and skill development | 183 | 3.54 | 1.244 | 39 (21%) | 77 (42%) | 32 (17%) | 13 (7%) | 22 (12%) | Not Reqd. |
| Q6 | Institution takes active interest in promoting internship/student exchange/field visit opportunities for students | 183 | 3.47 | 1.27 | 37 (20%) | 75 (41%) | 32 (17%) | 15 (8%) | 24 (13%) | Not Reqd. |
| Q7 | Curriculum develops required competencies and fulfills course outcomes | 183 | 3.53 | 1.217 | 38 (21%) | 76 (42%) | 33 (18%) | 17 (9%) | 19 (10%) | Not Reqd. |
| Q8 | Timely completion of syllabus | 183 | 3.59 | 1.228 | 43 (23%) | 74 (40%) | 34 (19%) | 12 (7%) | 20 (11%) | Not Reqd. |
| Q9 | Curriculum provides due importance for extension, co-curricular and extra-curricular activities of the college | 183 | 3.51 | 1.249 | 39 (21%) | 74 (40%) | 34 (19%) | 14 (8%) | 22 (12%) | Not Reqd. |
| Q10 | Size of the syllabus in terms of load to the student is appropriate | 183 | 3.48 | 1.27 | 36 (20%) | 80 (44%) | 27 (15%) | 16 (9%) | 24 (13%) | Not Reqd. |
| | **Grand Mean** | | **3.52** | — | | | | | | — |

*Note: Components with a mean value > 3.0 are considered satisfactory and do not require corrective action. All ten components meet this threshold.*

## Graphical Representation — Overall Summary

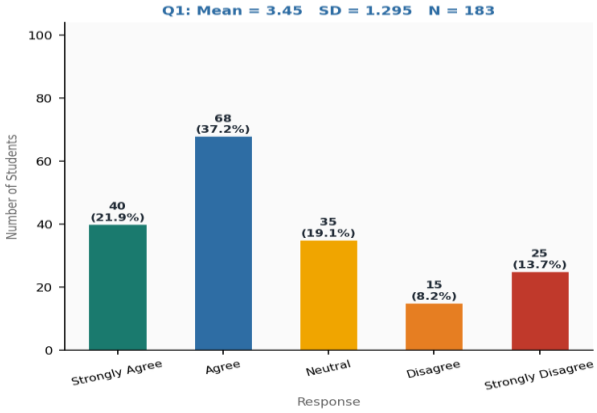

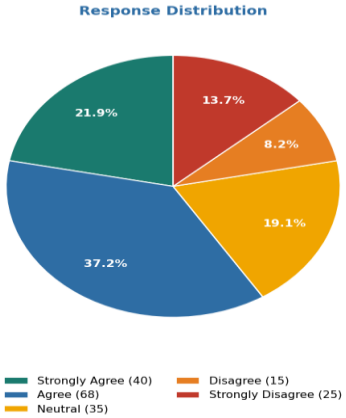

## 4. INDIVIDUAL QUESTION ANALYSIS

**Q1 Curriculum meets local, national, regional, and global developmental needs**. Mean = 3.45 | SD = 1.295 | N = 183 | Remarks: Not Required

| N | Mean | SD | Strongly Agree 40 (21.9%) | Agree 68 (37.2%) | Neutral 35 (19.1%) | Disagree 15 (8.2%) | Strongly Disagree 25 (13.7%) | Remarks |
|---|---|---|---|---|---|---|---|---|
| 183 | 3.45 | 1.295 | 40 | 68 | 35 | 15 | 25 | Not Required |

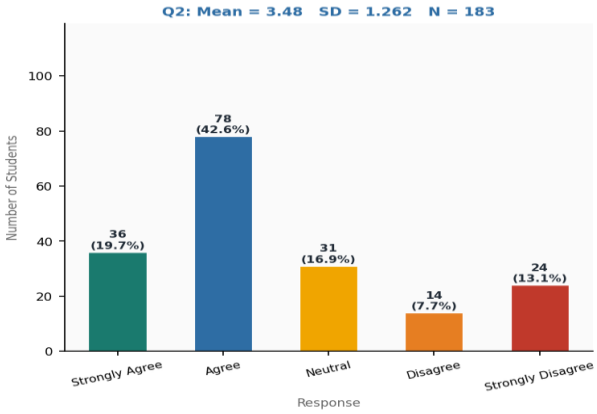

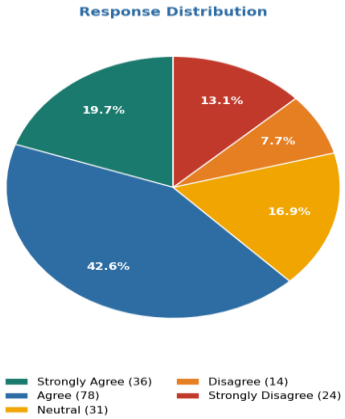

With a mean score of 3.45 (SD = 1.295), this component reflects moderate satisfaction. 40 students (21.9%) Strongly Agreed and 68 (37.2%) Agreed — combined 59.0% positive — indicating that a majority acknowledge the curriculum's alignment with developmental needs at local, national, and global levels. However, 35 students (19.1%) were Neutral and 40 (21.9%) expressed disagreement (Disagree + Strongly Disagree), suggesting a notable segment seeks stronger real-world curriculum linkages.

> **Recommendation:** *The institution should enhance curriculum mapping against national frameworks (NEP 2020) and global competency standards. Guest lectures, industry collaborations, and community engagement projects can help students better perceive the curriculum's relevance to developmental needs.*

**Q2 The curriculum is up-to-date, need based & application oriented** Mean = 3.48 | SD = 1.262 | N = 183 | Remarks: Not Required

| N | Mean | SD | Strongly Agree 36 (19.7%) | Agree 78 (42.6%) | Neutral 31 (16.9%) | Disagree 14 (7.7%) | Strongly Disagree 24 (13.1%) | Remarks |
|---|---|---|---|---|---|---|---|---|
| 183 | 3.48 | 1.262 | 36 | 78 | 31 | 14 | 24 | Not Required |

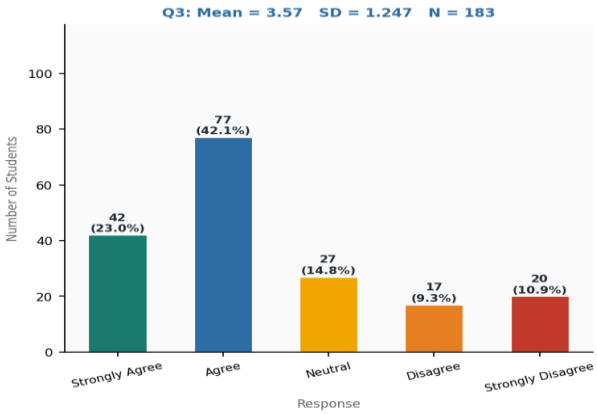

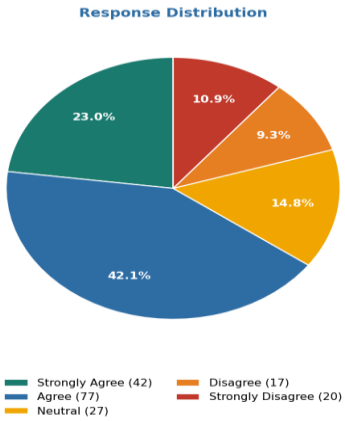

This component received a mean of 3.48 (SD = 1.262). 36 students (19.7%) Strongly Agreed and 78 (42.6%) Agreed — combined 62.3% positive. 31 students (16.9%) were Neutral and 38 (20.8%) disagreed in some form. The moderate response suggests that while most students find the curriculum reasonably current, a segment desires more application-oriented and updated content aligned with emerging fields.

**Recommendation:** *Regular curriculum review cycles — ideally annual — involving faculty, students, and industry experts are recommended. Incorporation of case studies, industry projects, and technology-integrated learning modules will improve the perceived currency of the curriculum.*

**Q3 Syllabus and learning materials are adequate in terms of quality and quantity**. Mean = 3.57 | SD = 1.247 | N = 183 | Remarks: Not Required

| N | Mean | SD | Strongly Agree 42 (23.0%) | Agree 77 (42.1%) | Neutral 27 (14.8%) | Disagree 17 (9.3%) | Strongly Disagree 20 (10.9%) | Remarks |
|---|---|---|---|---|---|---|---|---|
| 183 | 3.57 | 1.247 | 42 | 77 | 27 | 17 | 20 | Not Required |

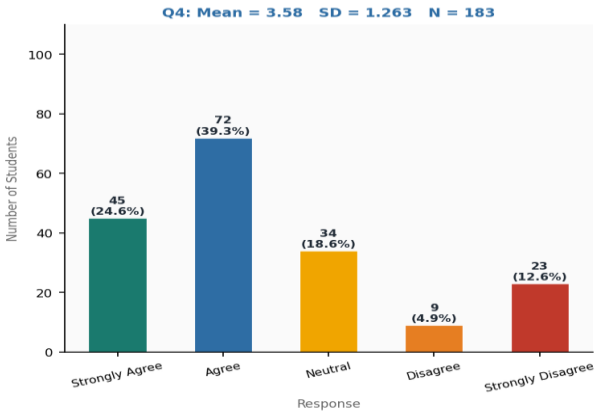

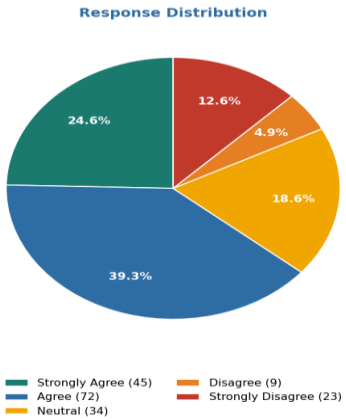

Syllabus and learning materials scored a mean of 3.57 (SD = 1.247). 42 students (23.0%) Strongly Agreed and 77 (42.1%) Agreed — combined 65.0% positive. 27 (14.8%) were Neutral and 37 (20.2%) disagreed. Students broadly feel the learning materials are adequate, though the 20% disagreement highlights opportunity to improve both quality and accessibility of study resources.

**Recommendation:** *The institution should audit subject-wise study materials and ensure all programmes have up-to-date reference texts, digital resources, and supplementary reading lists. Library acquisition should be driven by student and faculty feedback.*

**Q4 Reliability weightage is given to theory and practical course content** Mean = 3.58 | SD = 1.263 | N = 183 | Remarks: Not Required

| N | Mean | SD | Strongly Agree 45 (24.6%) | Agree 72 (39.3%) | Neutral 34 (18.6%) | Disagree 9 (4.9%) | Strongly Disagree 23 (12.6%) | Remarks |
|---|---|---|---|---|---|---|---|---|
| 183 | 3.58 | 1.263 | 45 | 72 | 34 | 9 | 23 | Not Required |

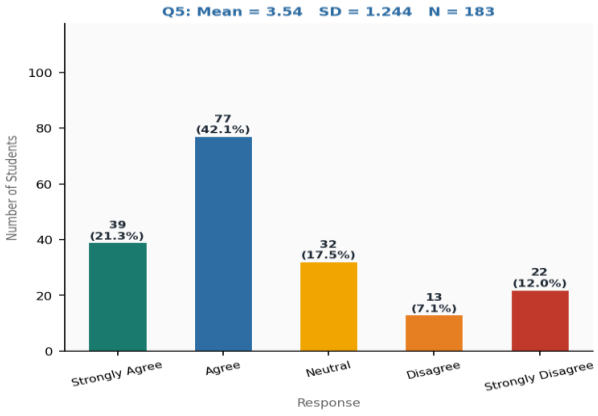

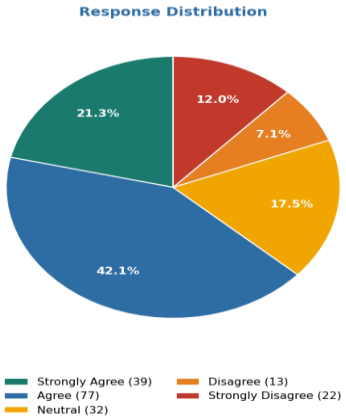

This component scored the second-highest mean of 3.58 (SD = 1.263). 45 students (24.6%) Strongly Agreed and 72 (39.3%) Agreed — combined 63.9% positive. 34 (18.6%) were Neutral and 32 (17.5%) expressed disagreement. Students broadly perceive a reasonable balance between theory and practical components, though the SD indicates variation in experience across programmes.

**Recommendation:** *The institution should evaluate the theory-to-practical ratio across programmes, particularly in science and vocational streams (B.Sc., B.Voc., BCA), and consider expanding hands-on laboratory hours, simulation activities, and practical assessments to strengthen this balance.*

**Q5 Curriculum integrates entrepreneurship, employability, and skill development** Mean = 3.54 | SD = 1.244 | N = 183 | Remarks: Not Required

| N | Mean | SD | Strongly Agree 39 (21.3%) | Agree 77 (42.1%) | Neutral 32 (17.5%) | Disagree 13 (7.1%) | Strongly Disagree 22 (12.0%) | Remarks |
|---|---|---|---|---|---|---|---|---|
| 183 | 3.54 | 1.244 | 39 | 77 | 32 | 13 | 22 | Not Required |

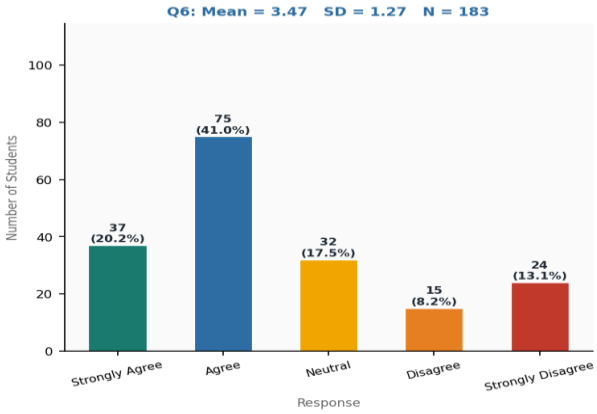

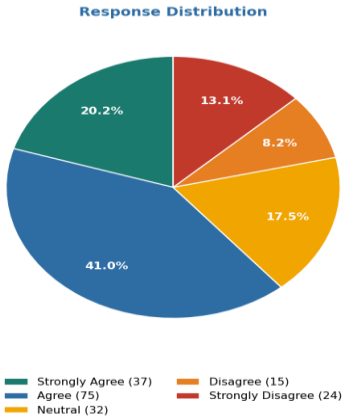

Curriculum integration of entrepreneurship, employability, and skill development scored a mean of 3.54 (SD = 1.244). 39 students (21.3%) Strongly Agreed and 77 (42.1%) Agreed — combined 63.4% positive. 32 (17.5%) were Neutral and 35 (19.1%) disagreed. While a clear majority view the curriculum positively on this dimension, one-fifth disagreement signals desire for more structured skill-building components.

**Recommendation:** *The institution should introduce dedicated skill development modules, entrepreneurship cells, and employability training as embedded components of the curriculum. Industry mentorship programmes and startup incubation initiatives will further strengthen this dimension.*

**Q6 Institution takes active interest in promoting internship/student exchange/field visit opportunities for students**
Mean = 3.47 | SD = 1.27 | N = 183 | Remarks: Not Required

| N | Mean | SD | Strongly Agree 37 (20.2%) | Agree 75 (41.0%) | Neutral 32 (17.5%) | Disagree 15 (8.2%) | Strongly Disagree 24 (13.1%) | Remarks |
|---|---|---|---|---|---|---|---|---|
| 183 | 3.47 | 1.27 | 37 | 75 | 32 | 15 | 24 | Not Required |

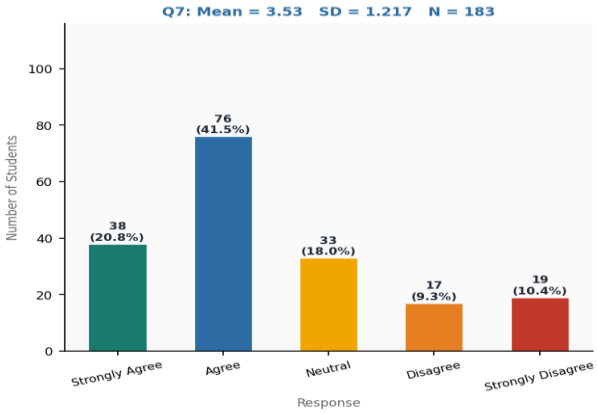

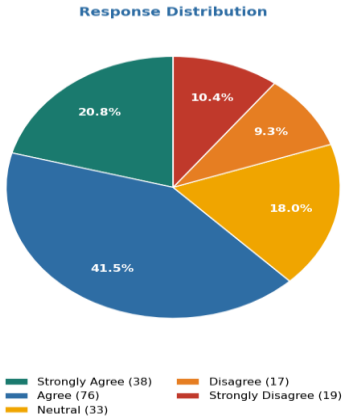

This component received the joint lowest mean of 3.47 (SD = 1.270). 37 students (20.2%) Strongly Agreed and 75 (41.0%) Agreed — combined 61.2% positive. 32 (17.5%) were Neutral and 39 (21.3%) expressed disagreement. The response pattern indicates that while institutional efforts in facilitating internship and field visits are recognised, a sizeable segment feels these opportunities need to be more systematically expanded.

**Recommendation:** *The institution should formalise an internship coordination cell and actively develop MoUs with industry partners for student placements, field visits, and exchange programmes. Internship opportunities should be equitably available across all programmes including B.A., BSW, and B.Voc.*

**Q7 Curriculum develops required competencies and fulfills course outcomes** Mean = 3.53 | SD = 1.217 | N = 183 | Remarks: Not Required

| N | Mean | SD | Strongly Agree 38 (20.8%) | Agree 76 (41.5%) | Neutral 33 (18.0%) | Disagree 17 (9.3%) | Strongly Disagree 19 (10.4%) | Remarks |
|---|---|---|---|---|---|---|---|---|
| 183 | 3.53 | 1.217 | 38 | 76 | 33 | 17 | 19 | Not Required |

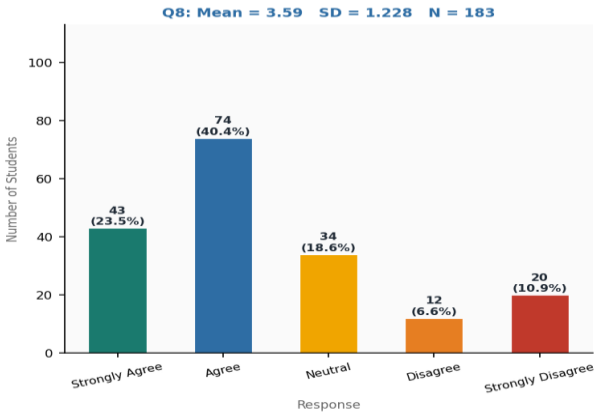

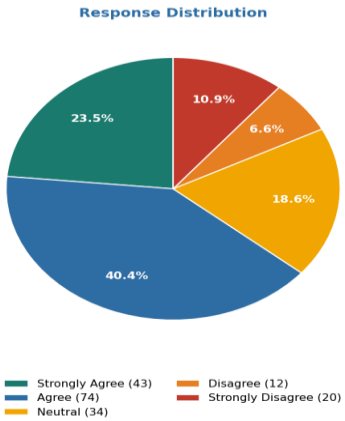

Curriculum competency development scored a mean of 3.53 (SD = 1.217) — the lowest standard deviation among all questions, indicating comparatively consistent student opinion. 38 students (20.8%) Strongly Agreed and 76 (41.5%) Agreed — combined 62.3% positive. 33 (18.0%) were Neutral and 36 (19.7%) disagreed. The relative consensus reflects moderate but broad confidence in outcome-oriented curriculum design.

**Recommendation:** *The institution should strengthen outcome-based education (OBE) practices by clearly communicating course outcomes to students at the start of each semester. Mapping assessments to stated outcomes and sharing results with students will improve transparency and perceived effectiveness.*

**Q8 Timely completion of syllabus** Mean = 3.59 | SD = 1.228 | N = 183 | Remarks: Not Required

| N | Mean | SD | Strongly Agree 43 (23.5%) | Agree 74 (40.4%) | Neutral 34 (18.6%) | Disagree 12 (6.6%) | Strongly Disagree 20 (10.9%) | Remarks |
|---|---|---|---|---|---|---|---|---|
| 183 | 3.59 | 1.228 | 43 | 74 | 34 | 12 | 20 | Not Required |

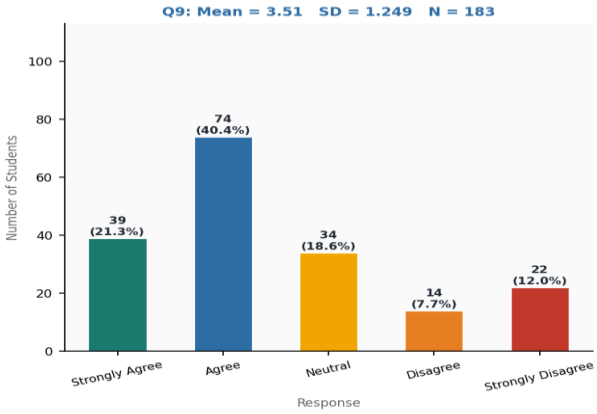

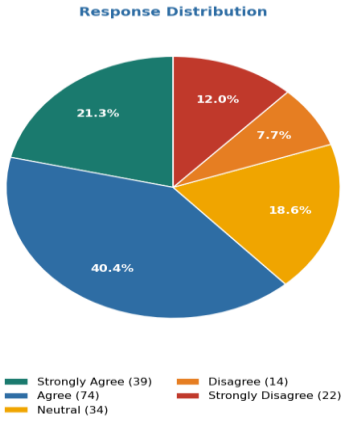

Timely completion of syllabus scored the highest mean of 3.59 (SD = 1.228). 43 students (23.5%) Strongly Agreed and 74 (40.4%) Agreed — combined 63.9% positive. 34 (18.6%) were Neutral and 32 (17.5%) disagreed. This top-rated component suggests faculty efforts in syllabus completion are broadly recognised. Student suggestions around timetable stability and avoiding content rushing are relevant to this finding.

**Recommendation:** *The institution should maintain academic calendars with sufficient buffer for revision, remedial classes, and co-curricular activities. Faculty should be encouraged to provide weekly coverage summaries and avoid compression of content in the final weeks of the semester.*

**Q9 Curriculum provides due importance for extension, co-curricular and extra-curricular activities of the college** Mean = 3.51 | SD = 1.249 | N = 183 | Remarks: Not Required

| N | Mean | SD | Strongly Agree 39 (21.3%) | Agree 74 (40.4%) | Neutral 34 (18.6%) | Disagree 14 (7.7%) | Strongly Disagree 22 (12.0%) | Remarks |
|---|---|---|---|---|---|---|---|---|
| 183 | 3.51 | 1.249 | 39 | 74 | 34 | 14 | 22 | Not Required |

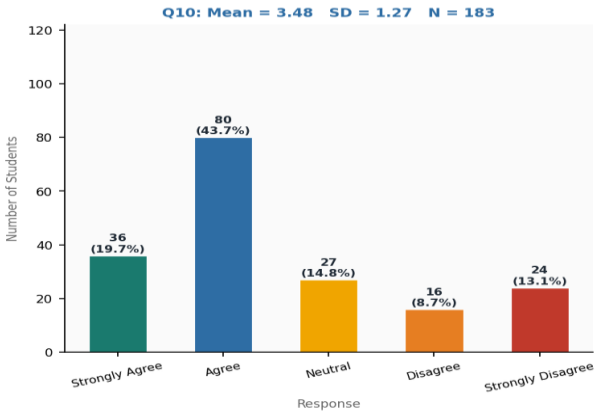

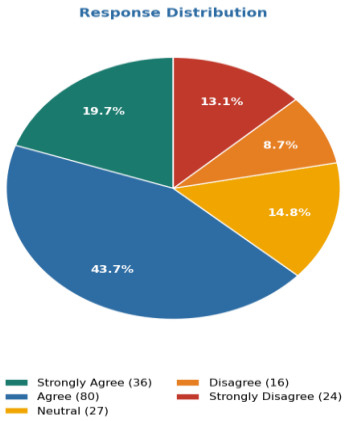

This component received a mean of 3.51 (SD = 1.249). 39 students (21.3%) Strongly Agreed and 74 (40.4%) Agreed — combined 61.7% positive. 34 (18.6%) were Neutral and 36 (19.7%) disagreed. Students broadly acknowledge the curriculum's attention to co-curricular activities, though feedback — particularly on sports — notes uneven implementation.

> **Recommendation:** *The institution should ensure that extension activities, NSS/NCC, sports, and cultural events are systematically integrated into the academic calendar. Student representation in planning these activities will improve participation and perceived curricular balance.*

**Q10 Size of the syllabus in terms of load to the student is appropriate** Mean = 3.48 | SD = 1.27 | N = 183 | Remarks: Not Required

| N | Mean | SD | Strongly Agree 36 (19.7%) | Agree 80 (43.7%) | Neutral 27 (14.8%) | Disagree 16 (8.7%) | Strongly Disagree 24 (13.1%) | Remarks |
|---|---|---|---|---|---|---|---|---|
| 183 | 3.48 | 1.27 | 36 | 80 | 27 | 16 | 24 | Not Required |

Syllabus load received a mean of 3.48 (SD = 1.270) — joint lowest alongside Q6. 36 students (19.7%) Strongly Agreed and 80 (43.7%) Agreed — combined 63.4% positive, with the highest Agree frequency of all questions. 27 (14.8%) were

Neutral and 40 (21.9%) disagreed. While most find the load manageable, 21.9% disagreement — alongside suggestions for shorter hours — points to a segment experiencing academic pressure.

**Recommendation:** *The institution should conduct a workload mapping exercise across programmes and semesters to identify overloaded periods. Credit redistribution, additional tutorial support, and flexible scheduling of assessments can help manage student workload more effectively.*

## 5. STUDENT SUGGESTIONS FOR CURRICULUM IMPROVEMENT

| # | Suggestion | Theme |
|---|---|---|
| 1 | Revision sessions and more workshops before examinations | Pedagogy / Academic Support |
| 2 | Better network/Wi-Fi connectivity on campus | Infrastructure |
| 3 | Improve washroom and classroom cleanliness facilities | Campus Facilities |
| 4 | Library access is limited due to continuous classes — need dedicated time | Library Access |
| 5 | Rushing of syllabus with no breathing space; need recreational activities | Workload / Pacing |
| 6 | Change some teachers; teachers should be friendly with students | Faculty / Teaching Quality |
| 7 | Tech company/industry visits for B.Sc CS students | Industry Exposure |
| 8 | Sports should be conducted more systematically | Co-curricular Activities |
| 9 | The timetable should be regular and not frequently changed | Academic Administration |
| 10 | Shorter college hours are suggested | Workload / Scheduling |
| 11 | More syllabus-oriented excursions | Experiential Learning |
| 12 | Students should be allowed to use lifts; a uniform facility is requested | Student Welfare |
| 13 | No negative marking for attendance | Evaluation / Policy |

Out of 183 respondents, the majority expressed general satisfaction. **13 students** provided substantive, actionable suggestions. The most recurring themes are **academic support (revision/workshops), campus infrastructure, workload management, and industry exposure**. These themes align directly with the lower-scoring components (Q1, Q6, Q10) in the quantitative analysis above.

## 6. CONCLUSION AND IQAC RECOMMENDATIONS

The September 2025 student feedback survey received responses from **183 students**. All ten curriculum components recorded mean scores above 3.0 on a five-point Likert scale, with a **grand mean of 3.52**. This indicates that students hold a **moderately positive perception** of the curriculum — recognising its broad effectiveness while identifying clear areas for improvement.

The **highest-rated component** was Timely Completion of Syllabus (Q8: Mean = 3.59), followed by Reliability of Theory-Practical Weightage (Q4: Mean = 3.58) and Adequacy of Learning Materials (Q3: Mean = 3.57). These reflect faculty commitment to syllabus delivery and course structure.

The **lowest-rated components** were Curriculum's Alignment with Developmental Needs (Q1: Mean = 3.45), Curriculum Currency & Application Orientation (Q2: Mean = 3.48), and Syllabus Load Appropriateness (Q10: Mean = 3.48), tied with Internship/Field Visit facilitation (Q6: Mean = 3.47). These areas — along with student suggestions on revision support, infrastructure, and timetable stability — form the primary focus for IQAC action planning.

All components show high standard deviations (1.2–1.3), indicating **significant variation in student experience** across programmes. Programme-level disaggregated analysis is recommended in future feedback cycles.

### IQAC Recommendations

| # | IQAC Recommendation | Priority |
|---|---|---|
| 1 | Organise pre-examination revision sessions and workshops systematically across all programmes. | High |
| 2 | Upgrade campus Wi-Fi infrastructure and ensure reliable network coverage in all academic blocks. | High |
| 3 | Implement regular curriculum review involving faculty, students, and industry experts to keep content current and application-oriented. | High |
| 4 | Evaluate and rebalance theory-to-practical ratios, especially in B.Sc., BCA, and B.Voc. programmes. | Medium |
| 5 | Formalise an internship coordination cell and develop MoUs with industry partners for field visits and exchange programmes. | High |
| 6 | Maintain stable timetables with adequate revision and activity buffer periods within the academic calendar. | Medium |
| 7 | Strengthen outcome-based education (OBE) practices by communicating course outcomes clearly to students at the start of each semester. | Medium |
| 8 | Conduct workload mapping across programmes to identify overloaded periods and redistribute credits or assessments as needed. | Medium |
| 9 | Improve campus facilities, including classroom cleanliness, washrooms, and library access time for students. | Medium |
| 10 | Ensure systematic and inclusive organisation of sports and co-curricular activities with student representation in planning. | Low |

**IQAC COORDINATOR** **IQAC ANALYST** **PRINCIPAL**
