ASSESSMENT & ACCREDITATION by NAAC

Education plays a vital role in the development of any nation. Therefore, there is a premium on both quantity (increased access) and quality (relevance and excellence of academic programmes offered) of higher education. The NAAC has been set up to facilitate the volunteering institutions to assess their performance vis-a-vis set parameters through introspection and a process that provides space for participation of the institution.

Benefits of Accreditation

- *Institution to know its strengths, weaknesses, and opportunities through an informed review process.*
- *Identification of internal areas of planning and resource allocation.*
- *Collegiality on the campus.*
- *Funding agencies look for objective data for performance funding.*
- *Institutions to initiate innovative and modern methods of pedagogy.*
- *New sense of direction and identity for institutions.*
- *The society look for reliable information on quality education offered.*

UNITS OF ASSESSMENT

NAAC's instrument is developed to assess and grade institutions of higher education through a three-step-process and make the outcome as objective as possible. Though the methodology and the broad framework of the instrument is similar, there is a slight difference in the focus of the instrument depending on the unit of Accreditation, i.e., Affiliated / Constituent colleges / Autonomous colleges / Universities / Health Science / Teacher / Physical Education.

Institutional Accreditation

University*: University Central Governance Structure along with all the Undergraduate and Postgraduate Departments.*

College*: Any College - affiliated, constituent, or autonomous with all its departments of studies.*

Department Accreditation

Any department/School/Centre of the University.

Presently, NAAC is undertaking only institutional accreditation. Experts' groups have been constituted to work on Program Accreditation.

THE INTERNAL QUALITY ASSURANCE CELL (IQAC)

Internal Quality Assurance Cell (IQAC) was established on 01/05/2004 as a post-accreditation quality sustenance measure for performance evaluation, assessment and accreditation and quality up-gradation of institutions of higher education. According to the National Assessment and Accreditation Council (NAAC), every accredited institution of higher education should establish Internal Quality Assurance Cell (IQAC) as a post-accreditation quality sustenance measure. The primary responsibility of IQAC is to ensure quality enhancement and sustenance. It ensures the efficiency and effectiveness of measures taken/methods used to provide high-quality education and evaluate the degree to which each task is fulfilled. Since quality enhancement is a continuous process, the IQAC will become a part of the institution's system and work towards the realization of the goals of quality enhancement and sustenance.

2. **Execute**: The IQAC executes the quality assurance plan and collects data on the institution's performance against the quality standards and benchmarks.
3. **Check**: The IQAC analyses the data collected and recognizes the areas for improvement.
4. **Act**: The IQAC amends and implements action plans to address the areas identified for improvement.
