St. Philomena's College (Autonomous), Mysore			
PG Department of Studies and Research in Chemistry			
Question Bank {Revised Curriculum (LOCF) - 2020-22 Batch }			
Second Year- Third Semester			
Course Title (Paper Title): RESEARCH METHODOLOGY QP Code:85351			
Unit	**SI. No**	What is research?	**Marks**
1	1.	Write the meaning of research	2
1	2.	Define research	2
1	3.	Give the meaning of research.	2
1	4.	Give the purpose of research	2
1	5.	Write the purpose of research	2
1	6.	Give the objectives of Research	2
1	7.	List out the objectives of Research	2
1	8.	Mention the objectives of Research	2
1	9.	Write the objectives of Research	2
1	10.	Mention the objectives of Research	2
1	11.	List out the characteristics of Research	2
1	12.	Give the characteristics of Research	2
1	13.	Mention the characteristics of Research	2
1	14.	Write the characteristics of Research	2
1	15.	What are the characteristics of Research	2
1	16.	List out the motivation of Research	2
1	17.	Give the motivation of Research	2
1	18.	Mention the motivation of Research	2
1	19.	Write the motivation of Research	2

1	20.	What are the motivation of Research	2
1	21.	List out the types of Research	2
1	22.	Give the types of Research	2
1	23.	Mention the types of Research	2
1	24.	Write the types of Research	2
1	25.	What are the types of Research	2
1	26.	Give the steps necessary to effectively carry out the research process.	2
1	27.	Mention the steps necessary to effectively carry out the research process.	2
1	28.	List out the steps necessary to effectively carry out the research process.	2
1	29.	Write the steps necessary to effectively carry out the research process.	2
1	30.	Explain hypothesis-testing	2
1	31.	Describe hypothesis-testing	2
1	32.	Outline hypothesis-testing	2
1	33.	Writ a note on hypothesis-testing	2
1	34.	Explain about preparation of the report	2
1	35.	Describe about preparation of the report	2
1	36.	Sketch out the preparation of report	2
1	37.	Outline about preparation of the report	2
1	38.	Explain about preparation of the report	2
1	39.	List out the criteria of good research	2
1	40.	Mention the criteria of good research	2
1	41.	Give the criteria of good research	2
1	42.	Write the criteria of good research	2
1	43.	Explain the ways of collecting the data	2
1	44.	Give the ways of collecting the data	2

1	45.	Describe the ways of collecting the data	2
1	46.	What is literature review?	2
1	47.	Give the meaning of literature review?	2
1	48.	Write the meaning of literature review?	2
1	49.	Explain the structuring of literature review	2
1	50.	Describe the structuring of literature review	2
1	51.	Outline the structuring of literature review	2
1	52.	What is field research?	2
1	53.	Give the meaning of field research?	2
1	54.	Write the meaning of field research?	2
1	55.	Give the advantages and disadvantages of field research	2
1	56.	List out the advantages and disadvantages of field research	2
1	57.	Mention the advantages and disadvantages of field research	2
1	58.	What is laboratory research?	2
1	59.	Give the meaning of laboratory research.	2
2	60.	List out the methods of collecting primary data	2
2	61.	Give the methods of collecting primary data	2
2	62.	Give the advantages of observation method under collecting primary data	2
2	63.	List out the advantages of observation method under collecting primary data	2
2	64.	Mention the advantages of observation method under collecting primary data	2
2	65.	Give the limitations of observation method under collecting primary data	2
2	66.	List out the limitations of observation method under collecting primary data	2
2	67.	Mention the limitations of observation method under collecting primary	2

		data	
2	68.	What is structured and unstructured observation?	2
2	69.	Give the meaning of structured and unstructured observation	2
2	70.	Write the meaning of structured and unstructured observation	2
2	71.	Give the merit of collection of data through questionnaires	2
2	72.	List out the merit of collection of data through questionnaires	2
2	73.	Mention the merit of collection of data through questionnaires	2
2	74.	Give the demerit of collection of data through questionnaires	2
2	75.	List out the demerit of collection of data through questionnaires	2
2	76.	Mention the demerit of collection of data through questionnaires	2
2	77.	What are the essentials of a good questionnaire?	2
2	78.	Give the essentials of a good questionnaire?	2
2	79.	Explain the essentials of a good questionnaire?	2
2	80.	Describe the essentials of a good questionnaire?	2
2	81.	Give the characteristics of secondary data	2
2	82.	List out the characteristics of secondary data	2
2	83.	Mention the characteristics of secondary data	2
2	84.	Explain the characteristics of secondary data	2
2	85.	Describe the characteristics of secondary data	2
2	86.	Outline the characteristics of secondary data	2
2	87.	What is the meaning of case study method?	2
2	88.	What is case study method?	2
2	89.	Give the characteristics of case study method	2
2	90.	Mention the characteristics of case study method	2
2	91.	Write the characteristics of case study method	2

2	92.	Listout the characteristics of case study method	2
2	93.	Write the evolution and scope of case study	2
2	94.	Give the evolution and scope of case study	2
2	95.	Explain the evolution and scope of case study	2
2	96.	Describe the evolution and scope of case study	2
2	97.	Outline the evolution and scope of case study	2
2	98.	What are the assumptions of case study?	2
2	99.	Give the assumption of case study	2
2	100.	Write the assumption of case study	2
2	101.	Give the major phases involved in case study	2
2	102.	What are the major phases involved in case study	2
2	103.	List out the major phases involved in case study	2
2	104.	Give the major phases involved in case study	2
2	105.	What are some examples of Records in a laboratory?	2
2	106.	Give some examples of Records in a laboratory?	2
2	107.	Mention some examples of Records in a laboratory?	2
2	108.	List out some examples of Records in a laboratory?	2
2	109.	What should be included in a lab report?	2
2	110.	What is the meaning of tabulation?	2
2	111.	Give the meaning of tabulation?	2
2	112.	Elaborate the meaning of tabulation?	2
2	113.	What are the objectives of tabulation?	2
2	114.	Give the objectives of tabulation?	2
2	115.	List out the objectives of tabulation?	2
2	116.	Mention the objectives of tabulation?	2

2	117.	How is data tabulation executed?	2
2	118.	How do you execute the data tabulation?	2
2	119.	What are the parameters of the graph generation?	2
2	120.	Give the parameters of the graph generation?	2
2	121.	Write the parameters of the graph generation?	2
2	122.	What are the three dimensions of graph generation?	2
2	123.	Give the three dimensions of graph generation?	2
2	124.	Mention the three dimensions of graph generation?	2
2	125.	What is a graph and its representations?	2
2	126.	Elaborate graph and its representations?	2
2	127.	Explain graph and its representations?	2
2	128.	Describe graph and its representations?	2
2	129.	What is an edge in graph theory?	2
2	130.	Write an edge in graph theory?	2
2	131.	Explain the edge in graph theory?	2
2	132.	Describe an edge in graph theory?	2
1	133.	Explain the types of research and list out the motivation of research	5
1	134.	Describe the types of research and mention the motivation of research	5
1	135.	Outline the types of research and give the motivation of research	5
1	136.	Write a short note on the types of research and mention the motivation of research	5
1	137.	Explain the research approaches and give the types of research.	5
1	138.	Describe the research approaches and mention the types of research.	5
1	139.	Outline the research approaches and list out the types of research.	5

1	140.	Write a short note on the research approaches and give the types of research.	5
1	141.	Explain research methods versus methodology	5
1	142.	Describe research methods versus methodology	5
1	143.	Outline research methods versus methodology	5
1	144.	Write a short note on research methods versus methodology	5
1	145.	Outline formulating of the research problem and explain extensive literature survey	5
1	146.	Elaborate formulating of the research problem and explain extensive literature survey	5
1	147.	Explain formulating of the research problem and describe extensive literature survey	5
1	148.	Describe formulating of the research problem and explain extensive literature survey	5
1	149.	Explain the development of working hypotheses	5
1	150.	Describe the development of working hypotheses	5
1	151.	Outline the development of working hypotheses	5
1	152.	Write a short note on the development of working hypotheses	5
1	153.	Describe about the determination of sample design	5
1	154.	Explain about the determination of sample design	5
1	155.	Outline about the determination of sample design	5
1	156.	Write a short note on the determination of sample design	5
1	157.	Explain about the preparation of research design and list out the criteria of good research	5
1	158.	Describe about the preparation of research design and mention the criteria of good research	5
1	159.	Write a note on the preparation of research design and give the criteria of good research	5

1	160.	Elaborate the preparation of research design and give the criteria of good research	5
1	161.	Outline the preparation of research design and give the criteria of good research	5
1	162.	Explain library research method.	5
1	163.	Describe library research method.	5
1	164.	Elaborate library research method.	5
1	165.	Outline library research method.	
1	166.	Sketch out library research method.	5
1	167.	What is field research? Explain the five distinctive methods of field research	5
1	168.	Give the meaning of field research? Describe the methods of field research	5
1	169.	What is field research? Outline the five distinctive methods of field research	5
1	170.	What is field research? Elaborate the five distinctive methods of field research	5
1	171.	Explain the steps involved in conducting field research	5
1	172.	Describe the steps involved in conducting field research	5
1	173.	Outline the steps involved in conducting field research	5
1	174.	What is field research? Give the advantages and disadvantages of field research	5
1	175.	Give the meaning of field research? List out the advantages and disadvantages of field research	5
1	176.	Write the meaning of field research? Give the advantages and disadvantages of field research	5
2	177.	Explain interview Method	5
2	178.	Describe interview Method	5
2	179.	Elaborate interview Method	5

2	180.	Outline interview Method	5
2	181.	Give the chief merits of the interview method	5
2	182.	List out the chief merits of the interview method	5
2	183.	Mention the chief merits of the interview method	5
2	184.	Give certain weaknesses of the interview method.	5
2	185.	Mention certain weaknesses of the interview method.	5
2	186.	List out certain weaknesses of the interview method.	5
2	187.	Explain collection of data through questionnaires	5
2	188.	Describe collection of data through questionnaires	5
2	189.	Elaborate the collection of data through questionnaires	5
2	190.	Outline collection of data through questionnaires	5
2	191.	Write a short note on collection of data through questionnaires	5
2	192.	Explain the main aspects of questionnaire	5
2	193.	Describe the main aspects of questionnaire	5
2	194.	Outline the main aspects of questionnaire	5
2	195.	Write the main aspects of questionnaire	5
2	196.	Describe collection of data through schedule	5
2	197.	Outline collection of data through schedule	5
2	198.	Write a short note on collection of data through schedule	5
2	199.	Give the differences between questionnaires and schedules	5
2	200.	List out the differences between questionnaires and schedules	5
2	201.	Mention the differences between questionnaires and schedules	5
2	202.	Write a note on collection of secondary data	5
2	203.	Explain collection of secondary data	5
2	204.	Elaborate the collection of secondary data	5

2	205.	Write a note on collection of secondary data	5
2	206.	Describe collection of secondary data	5
2	207.	Outline collection of secondary data	5
2	208.	Explain the selection of appropriate method for data collection	5
2	209.	Describe the selection of appropriate method for data collection	5
2	210.	Outline the selection of appropriate method for data collection	5
2	211.	Write the selection of appropriate method for data collection	5
2	212.	Give the meaning and mention the characteristics of case study method	5
2	213.	Write the meaning and list out the characteristics of case study method	5
2	214.	Write the meaning and characteristics of case study method	5
2	215.	Give the advantages of case study	5
2	216.	Write the advantages of case study	5
2	217.	Explain the advantages of case study	5
2	218.	Describe the advantages of case study	5
2	219.	Outline the advantages of case study	5
2	220.	Give the limitations of case study	5
2	221.	Write the limitations of case study	5
2	222.	Explain the limitations of case study	5
2	223.	Describe the limitations of case study	5
2	224.	Elaborate the limitations of case study	5
2	225.	Outline the limitations of case study	5
2	226.	Write a short note on maintaining a laboratory record.	5
2	227.	Explain the maintenance of laboratory record	5
2	228.	Elaborate the maintenance of laboratory record	5
2	229.	Describe the maintenance of laboratory record	5

2	230.	How do you maintain a laboratory record?	5
2	231.	Write a note on guide for keeping laboratory records	5
2	232.	Explain about the guide for keeping laboratory records	5
2	233.	Describe about the guide for keeping laboratory records	5
2	234.	Outline about the guide for keeping laboratory records	5
2	235.	Elaborate about the guide for keeping laboratory records	5
2	236.	What are the Essential Parts of a Table?	5
2	237.	Explain the Essential Parts of a Table?	5
2	238.	Give the Essential Parts of a Table?	5
2	239.	What are the types of and rules of tabulation	5
2	240.	Give the types of and rules of tabulation	5
2	241.	Write the types of and rules of tabulation	5
2	242.	Explain the types of and rules of tabulation	5
2	243.	Describe the types of and rules of tabulation	5
2	244.	Explain interview Method	5
2	245.	Describe interview Method	5
2	246.	Elaborate interview Method	5
2	247.	Outline interview Method	5
2	248.	Give the chief merits of the interview method	5
2	249.	List out the chief merits of the interview method	5
2	250.	Mention the chief merits of the interview method	5
2	251.	Give certain weaknesses of the interview method.	5
2	252.	Mention certain weaknesses of the interview method.	5
2	253.	List out certain weaknesses of the interview method.	5

2	254.	Explain collection of data through questionnaires	5
2	255.	Describe collection of data through questionnaires	5
2	256.	Elaborate the collection of data through questionnaires	5
2	257.	Outline collection of data through questionnaires	5
2	258.	Write a short note on collection of data through questionnaires	5
2	259.	Explain the main aspects of questionnaire	5
2	260.	Describe the main aspects of questionnaire	5
2	261.	Outline the main aspects of questionnaire	5
2	262.	Write the main aspects of questionnaire	5
2	263.	Describe collection of data through schedule	5
2	264.	Outline collection of data through schedule	5
2	265.	Write a short note on collection of data through schedule	5
2	266.	Give the differences between questionnaires and schedules	5
2	267.	List out the differences between questionnaires and schedules	5
2	268.	Mention the differences between questionnaires and schedules	5
2	269.	Write a note on collection of secondary data	5
2	270.	Explain collection of secondary data	5
2	271.	Elaborate the collection of secondary data	5
2	272.	Write a note on collection of secondary data	5
2	273.	Describe collection of secondary data	5
2	274.	Outline collection of secondary data	5
2	275.	Explain the selection of appropriate method for data collection	5
2	276.	Describe the selection of appropriate method for data collection	5
2	277.	Outline the selection of appropriate method for data collection	5
2	278.	Write the selection of appropriate method for data collection	5

2	279.	Give the meaning and mention the characteristics of case study method	5
2	280.	Write the meaning and list out the characteristics of case study method	5
2	281.	Write the meaning and characteristics of case study method	5
2	282.	Give the advantages of case study	5
2	283.	Write the advantages of case study	5
2	284.	Explain the advantages of case study	5
2	285.	Describe the advantages of case study	5
2	286.	Outline the advantages of case study	5
2	287.	Give the limitations of case study	5
2	288.	Write the limitations of case study	5
2	289.	Explain the limitations of case study	5
2	290.	Describe the limitations of case study	5
2	291.	Elaborate the limitations of case study	5
2	292.	Outline the limitations of case study	5
2	293.	Write a short note on maintaining a laboratory record.	5
2	294.	Explain the maintenance of laboratory record	5
2	295.	Elaborate the maintenance of laboratory record	5
2	296.	Describe the maintenance of laboratory record	5
2	297.	How do you maintain a laboratory record?	5
2	298.	Write a note on guide for keeping laboratory records	5
2	299.	Explain about the guide for keeping laboratory records	5
2	300.	Describe about the guide for keeping laboratory records	5
2	301.	Outline about the guide for keeping laboratory records	5
2	302.	Elaborate about the guide for keeping laboratory records	5
2	303.	What are the Essential Parts of a Table?	5

2	304.	Explain the Essential Parts of a Table?	5
2	305.	Give the Essential Parts of a Table?	5
2	306.	What are the types of and rules of tabulation	5
2	307.	Give the types of and rules of tabulation	5
2	308.	Write the types of and rules of tabulation	5
2	309.	Explain the types of and rules of tabulation	5
2	310.	Describe the types of and rules of tabulation	5

Question Paper Pattern- Model Question Paper

Q.P Code: 85351

ST. PHILOMENA'S COLLEGE (AUTONOMOUS), MYSORE			
III SEMESTER –COURSE M.SC FINAL EXAMINATION			
SUBJECT : CHEMISTRY			
TITLE: RESEARCH METHODOLOGY (SC)			
TIME: 3 HRS			**MAX MARKS: 70**
PART-A			
1		**Answer any ten of the following:**	**10x2=20**
	a	Give the meaning of research.	2
	b	Write the objectives of Research	2
	c	Give the motivation of Research	2
	d	Give the steps necessary to effectively carry out the research process.	2
	e	Outline hypothesis-testing	2
	f	Write the criteria of good research	2
	g	List out the limitations of observation method under collecting primary data	2
	h	Describe the essentials of a good questionnaire?	2
	i	Mention the characteristics of case study method	2
	j	What are the assumptions of case study?	2
	k	Elaborate the meaning of tabulation?	2
	l	What are the parameters of the graph generation?	2
PART-B			
		Answer any Five of the following:	5 x 10= 50
2	a	Explain the types of research and list out the motivation of research	5
	b	Outline the research approaches and list out the types of research.	5
3	a	Elaborate formulating of the research problem and explain extensive literature survey	5
	b	Describe the development of working hypotheses	5
4	a	Explain about the preparation of research design and list out the criteria of good research	5
	b	Sketch out library research method.	5
5	a	Describe collection of data through questionnaires	5

	b	List out the chief merits of the interview method	5
6	a	Write a note on collection of secondary data	5
	b	Give the meaning and mention the characteristics of case study method	5
7	a	Give the limitations of case study	5
	b	Elaborate the maintenance of laboratory record	5
8	a	Outline an interview Method	5
	b	Describe about the guide for keeping laboratory records	5
